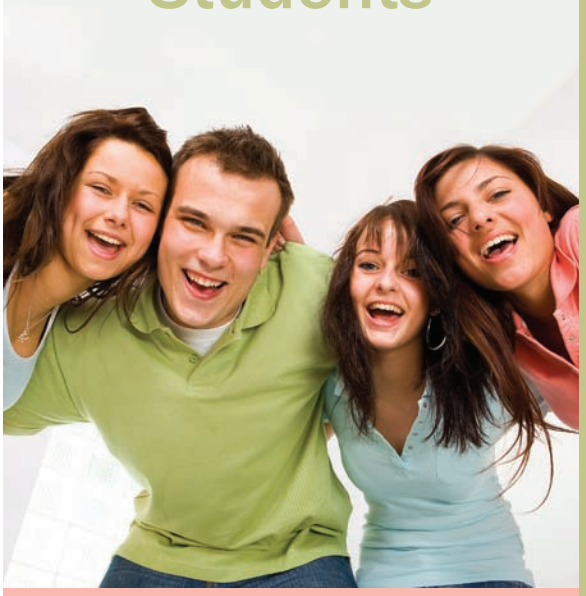
BACCHUS

A Healthy Lifestyles Club for College Students



BACCHUS Mission

Our mission is to actively promote peer education as a useful element of campus health education and wellness efforts.

The BACCHUS Network™ is a university and community based network focusing on comprehensive health and safety initiatives. The organization will devote a substantial portion of its resources and activities to:

- Create and foster a thriving network of institutions and young adult-led peer education groups supporting health and safety initiatives;
- Empower students and administrators to voice their opinions and needs to create healthier and safer campus communities;
- Develop and promote cutting-edge resources and health promotion campaigns that support peer education, campus leadership and activism on health and safety issues;
- Provide exceptional conferencing and training opportunities for students, young adults and professionals to support health and safety strategies;
- Encourage national forums on young-adult health and safety concerns;
- Promote and disseminate research and effective strategies that better help campuses and communities address health and safety issues; and
- Advocate for effective and sensible policies and practices for campus and community health and safety issues.

BACCHUS Philosophy

- We believe that we, as students, can play a uniquely effective role in encouraging our peers to consider, talk honestly about and develop responsible habits, attitudes and lifestyles regarding alcohol and related issues. Through the promotion of peer education activities, we hope to promote healthy collegiate lifestyles and positive decision-making among the students on this campus.

Get involved!

- Weekly meetings
- College and community events
- National conferences
- Social activities
- Community outreach
