Comments:

Based on successful completion of the Registered Apprenticeship training program, the U.S. Department of Labor issues the Journeyman Certificate. This certification assumes that the knowledge, skills, attitudes, and beliefs demonstrated meet or exceed the goals set through this U.S. Dept. of Labor Registered Apprenticeship as well as the program goals established by SWIC in cooperation with the union. Students who are awarded Journeyman status have achieved 100% completion of the program goals. During the Implementation phase, data will be collected from the unions concerning students' Journeyman status.
