

Mission Statement

Music Technology Program

The mission of the Music Department is to produce graduates in Music Technology who demonstrate competency in musical skills, music digital technology, marketing and business skills. The Music Department provides additional educational opportunities for students through partnerships with recording studios, music professionals and other businesses in the community.

Educational Goals

1. Demonstrate knowledge of the elements of music, musical instruments, and critical listening.
2. Apply the concepts of music theory in order to analyze, comprehend, and / or create musical compositions.
3. Demonstrate skills on the piano keyboard and/ or other performance medium from the elementary level to the intermediate level or above using traditional technique and appropriate repertoire.
4. Recount knowledge of the historical and business aspects of the music industry; identify music industry organizations and their purposes; identify the legal issues and aspects of the music business; utilize marketing skills as they relate to music businesses and promotion of musical artists.
5. Utilize the components of the recording studio, i.e. control room, console, software, microphones, midi, plug ins, cords, and other relevant equipment.
6. Apply listening skills for identification of musical styles, acoustic or electric instrumental microphone placement, mixing, editing, and mastering techniques required to create a recording.
7. Diagnose and solve equipment problems in the recording studio.
