

## **Career Services**

### **Mission Statement**

Career Services promotes quality of life with career development processes to optimize educational experience and career success. Through developing partnerships with employers and organizations, our students, alumni, and community members are provided the skills to attain life long career success. Career Services is committed to assessing student learning as a means of improving student success.

### **Program Goals**

1. Career Services will provide resources and services that increase student and alumni awareness of methods available leading to career success.
2. Career Services will provide the resources necessary to provide students and alumni access to employment opportunities and employers.
3. Career Services will provide employers, district-wide, the opportunity to recruit SWIC students and alumni for employment opportunities.
4. Career Services will support the faculty by providing classes with information and training on employment related objectives.

### **Student Goals**

1. Students will be able to identify methods available to make an informed career choice.
2. Students and alumni will be able to demonstrate current and effective skills needed to secure employment.
3. Students and alumni will demonstrate the ability to create, maintain, and update their credentials necessary for an effective job search.
4. Students and alumni will actively search employment listings.
