This course is an asynchronous, online course that does not meet at a specific time or day of the week. Students should expect to spend 6 hours each week to critically review the course material in depth and to complete at-home laboratory exercises. Students should dedicate an additional 8 hours per week to study the course content, complete homework, analyze experimental data, and seek assistance, as needed, in a timely manner. Students in traditional face-to-face Chem 105 sections spend 6 hours in lecture and laboratory per week and are also expected to dedicate an additional 8 hours to the course each week.

Students will retrieve a laboratory kit from the SWIC Belleville campus before the semester begins. Alternate methods for pick-up or delivery of the kits are extremely limited and are granted on a case-by-case basis. Students should check their SWIC email by the Wednesday BEFORE classes start, for details about retrieval of laboratory kits.

Students must complete an exam in person on one of the three SWIC campuses on two dates during the semester (near the mid-term of the semester and at the end of the semester). Alternate proctoring arrangements may be made on a case-by-case basis.

\*For the final exam schedule, students should consult their eSTORM Student Center.
