

INTERN PROGRAM

This Illinois Law Enforcement Training and Standards Board program has been developed in response to law enforcement administrators seeking a pool of trained and certified candidates available for service.

This opportunity enables civilians seeking a career in law enforcement to attend basic law enforcement training at their own expense. Interns are integrated into classes with sworn officers and receive the same training. Most Interns are hired by law enforcement agencies before they even graduate from the Academy!

Now Accepting Intern Applications:

SESSION 156
