Southwestern Illinois College offers, but is not limited to, the following degree and certificate programs

Program	Credits
Accounting	
Accounting AAS (049A)	61
Bookkeeping Certificate (049F)	29
Administration of Justice	
Administration of Justice AAS (0029)	61
Administration of Justice Certificate (0030)	27
Police Academy Certificate (029A)	30
Armed Private Security Certificate (029B)	3
Unarmed Private Security Certificate (029C)	2
Corrections Academy Certificate (029D)	16
Court Security Academy Certificate (029E)	15
Agriculture Business Management	
Agriculture Business Management AAS (0082)	60-61
Agronomy	
Agronomy AAS (0083)	60
Audio Technology	
Audio Technology Certificate (0097)	18
Aviation Maintenance Technology	
Aviation Maintenance Technology AAS (0009)	75
Airframe & Powerplant Certificate (009A)	60
Airframe Certificate (009B)	36
Powerplant Certificate (009C)	36
Aviation Electronics (Avionics) Certificate (017E)	45
Aviation Management	
Aviation Management AAS (0008)	66
Aircraft Dispatcher Certificate (008A)	23
Aviation Pilot Training	
Aviation Pilot Training - Airplane AAS (0012)	67.5
Aviation Pilot Training - Helicopter AAS (0012)	63
Aviation Pilot Training Certificate (012A)	35.5
Private Pilot Certificate (012F)	13
Business Administration	
Business Administration AAS (0079)	61
Civil Engineering Technology	
Civil Engineering Technology AAS (036D)	60
Community Health Worker	
Community Health Worker Certificate (025E)	16
Commercial Maintenance Mechanics	
Commercial Maintenance Mechanics AAS (053K)	69
Commercial Maintenance Mechanics Certificate (054K)	41
Computer Aided Design	
Computer Aided Design AAS (0035)	61
Computer Aided Design Certificate (035D)	33
Computer Information Systems	
Computer Information Systems AAS (0010)	60-63
Software Development Certificate (010D)	30
Web Development Certificate (011D)	27
Web Design Certificate (011E)	24
Office Technology Certificate (033A)	16

Program	Credits
Construction Apprenticeship Training Programs	
Construction Bricklayer AAS (039C)	64
Bricklayer Apprentice Certificate (040C)	64
Construction Carpentry AAS (039G)	64
Carpentry Apprentice Certificate (040G)	64
Construction Cement Mason AAS (039A)	65
Construction Cement Mason Certificate (040A)	65
Construction Electrical Specialist AAS (039E)	64
Construction Electrical Wireman Certificate (040E)	48
Construction Electrical Residential Certificate (040H)	32
Construction Electrical Telecom Certificate (040I)	32
Construction Electrical Lineman Certificate (040J)	32
Construction Ironworker AAS (039D)	65
Ironworker Apprentice Certificate (040D)	65
Construction Painting and Decorating AAS (039F)	60
Painting and Decorating Apprentice Certificate (040F)	60
Construction Sheetmetal AAS (049B)	64
Construction Sheetmetal Apprentice Certificate (040B)	64
Construction Management Technology	
Construction Management Technology AAS (0039)	63
Accelerated Degree Option CMT (0039)	32
Architectural Technology Certificate (039H)	27
CMT Certificate (0040)	35
Building Performance Certificate (036A)	9.5
Building Information Modeling Certificate (036B)	10
Building Trades Safety Certificate (036C)	12
Culinary Arts and Food Management	
Culinary Arts and Food Management AAS (066A)	71
Baking & Pastry AAS (066F)	65
Food Service Certificate (066B)	25
Food Service and Management Certificate (066C)	42
Culinary Arts Certificate (066D)	30
Baking & Pastry Certificate (066E)	41
Food Truck and Mobile Catering Certificate (066I)	47
Cybersecurity and Networking	
Cybersecurity and Networking AAS (0007)	61
Network Associate Certificate (007A)	16
Cybersecurity Specialist Certificate (007D)	35
Help Desk Certificate (011G)	16
Diagnostic Medical Sonography	
Diagnostic Medical Sonography Certificate (028B)	42
Early Childhood Education	
Early Childhood Education AAS (0073)	66-68
Early Childhood Education Level 2 Certificate of Completion	15
Early Childhood Education Level 3 Certificate of Completion	27
Infant Toddler Level 2 Certificate of Completion	15
Emergency Medical Technician	
Emergency Medical Technician Certificate (068C)	8
Film and Video Production	
Film and Video Production AAS (0059)	62
Video Production Certificate (059A)	30
Video Editing Certificate (059B)	18

Southwestern Illinois College offers, but is not limited to, the following degree and certificate programs

Program	Credits
Fire Science	
Fire Science AAS (0057)	66
Fire Fighter I & II Certificate (057A)	11.5
Fire Apparatus Engineer Certificate (057C)	4
Fire Service Instructor I Certificate (057D)	3
Fire Service Instructor II Certificate (057F)	3
Fire Service Officer I Certificate (057E)	6
Fire Service Officer II Certificate (057G)	6
Haz Mat First Responder Certificate (057H)	2.5
Vehicle Rescue Operations Certificate (057J)	3
Rope Rescue I & II Certificate (057L)	3
Confined Space Rescue I & II Certificate (057N)	6
Water Rescue I & II Certificate (057Q)	6
Geospatial and Aeronautical Information Systems	
Geospatial Information Systems Certificate (084B)	17
Aeronautical Information Specialist Certificate (012G)	17
Health Information Technology	
Health Information Technology AAS (0023)	66
Heating, Ventilation, Air Conditioning and Refrigeration	
HVAR AAS (0037)	71
HVAR Certificate (0038)	45.5
Horticulture	
Horticulture AAS (0005)	61-67
General Horticulture Certificate (0006)	16
Cannabis Industry Operations Certificate (006B)	12
Cannabis Cultivation and Processing Certificate (006C)	32
Human Services Technology	
Human Services Technology AAS (0078)	61
Industrial Electricity	
Industrial Electricity AAS (0053)	68.5
Industrial Electricity Certificate (0054)	33.5
Microcomputer Hardware Maintenance Cert. (017C)	12
Industrial Maintenance Mechanics	
Industrial Maintenance Mechanics AAS (053D)	67
Industrial Maintenance Mechanical Certificate (054D)	25.5
Industrial Maintenance Mechanics Electrical Cert. (055D)	30.5
Legal Studies	
Paralegal AAS (0088)	64
Legal Administrative Assistant Certificate (088A)	30
Management	
Management AAS (049B)	67
Management Certificate (049C)	24
Logistics and Supply Chain Management Cert. (049G)	18
Marketing & Graphic Communications	
Marketing & Graphic Communications AAS (0140)	62
Digital Marketing Certificate (031F)	15
Graphics Design Certificate (074A)	21
Massage Therapy	
Massage Therapy AAS (027B)	60
Massage Therapy Certificate (027A)	27
Medical Assistant	
Medical Assistant AAS (0021)	68.5
Medical Assistant Certificate (021A)	38.5

Program	Credits
Medical Laboratory Technology	
Medical Laboratory Technology AAS (0022)	71
Phlebotomy Certificate (021B)	4
Medical Laboratory Assistant Certificate (022A)	7-8
Medical Surgical Technology	
Medical Surgical Technology AAS (028C)	60
Sterile Processing Technician Certificate (028D)	16
Nurse Assistant	
Nurse Assistant Certificate (025A)	7
Nursing Education	
Nursing Education AAS (0025)	68.5
LPN Bridge	38.5
Practical Nursing	
Practical Nursing Certificate (025C)	37
Paramedic/Paramedicine	
Paramedicine AAS (0068)	69
Paramedic Certificate (068B)	38
Critical Care Transport Certificate (068D)	7
Paraprofessional	
Paraprofessional Certificate (0093)	19
Pharmacy Technician	
Pharmacy Technician Certificate (0034)	16
Physical Therapist Assistant	
Physical Therapist Assistant AAS (0027)	71
Plumbing Technology	
Plumbing Technology Certificate (085A)	18
Precision Machining Technology	
Precision Machining Technology AAS (035H)	67.5
Precision Machining Technology Certificate (054H)	32.5
CNC Machining Certificate (054P)	7.5
Mastercam Certificate (054L)	6.5
SolidWorks Certificate (054M)	6
Advanced CNC Programming Certificate (054R)	6
Advanced Automation/Multi-Axis CNC Cert. (055H)	16
Tool & Die/Mold Making Certificate (056H)	16
Additive Manufacturing Certificate (058H)	20
Radiologic Technology	
Radiologic Technology AAS (0028)	73
Computed Tomography Certificate (028A)	6.5
Magnetic Resonance Imaging Certificate (028E)	8
Respiratory Care	
Respiratory Care AAS (020A)	71
Sign Language Studies: Interpreter	
Sign Language Studies: Interpreter AAS (0024)	67
Sign Language/Basic Communication Certificate (024A)	21
Warehousing and Distribution	
Warehousing and Distribution Certificate (045W)	10
Welding Technology	
Welding Technology AAS (0062)	65
Basic Welding Certificate (062A)	18
Welding Technology Advanced Certificate (062B)	16
Advanced Welding Manufacturing Certificate (062D)	16

Associate in Applied Science

Description:

These requirements are for students who plan to begin their career upon completion of their two-year program.

Admission:

Most AAS programs do not require special application or admission requirements. However, students planning to pursue a degree in some Health Sciences fields must meet the admission requirements outlined for each degree on the pages that follow and be formally accepted into the program prior to enrolling in major courses. The following programs have special admission procedures: Medical Laboratory Technology, Nursing Education, Paramedic, Physical Therapist Assistant, Radiologic Technology and Respiratory Care.

Terms:

Students have six years to complete the requirements required for the program they have declared. If the requirements are not completed within six years, students will be required to meet degree requirements for the program in effect at that time.

However, students not enrolled for three consecutive semesters (not including summer) must meet the curriculum requirements in effect at the time of re-enrollment. Students can always choose to complete the current curriculum degree requirements.

The above terms do not apply to the following Health Sciences programs: Health Information Technology, Medical Assistant, Massage Therapy, Medical Laboratory Technology, Nursing Education, Paramedicine, Physical Therapist Assistant, Radiologic Technology and Respiratory Care. Regulations for completion of these programs are clearly outlined in the respective Student Handbooks distributed to students upon admission or enrollment in the program.

General Education Degree Requirements:

Students are required to complete a minimum of 15 semester credits of General Education coursework which can include coursework in Communication, Arts and Humanities, Social and Behavioral Sciences, and Mathematics and Science. Reference the adjacent blue page to determine the general education courses that are classified as: Communication, Humanities, Social Science, Mathematics, Life Science and Physical Science, Human Well-Being and Human Relations requirements.

Residency:

Fifteen of the last 24 credits or an accumulation of 36 credits must be completed at SWIC. Active duty U.S. armed forces and reserve service members must earn only 15 credits at SWIC.

GPA:

A minimum cumulative GPA of 2.00 is required for a degree.

SWIC Articulation Agreements:

SWIC has developed a number of Articulation Agreements with four-year universities to allow for seamless transfer into specific majors. These articulations list recommended coursework to prepare SWIC graduates for entry at the junior level. Please visit swic.edu/articulation to learn more about Articulation Agreements. Most colleges and universities require a grade of "C" or better in a course for transferability of coursework

Human Relations: OR Non-Western Course

One of the following courses must be completed. Some degrees require a specific course within this group. Check the course requirements as outlined in the AAS program guides that follow prior to selecting courses. For reference, **human relations** are listed in **white** in the general education areas.

_____ **Humanities and Fine Arts:** ART 110, HIST 230, LIT 117, LIT 215, LIT 216

_____ **Social/Behavioral Science:** ANTH 210, MGMT 213, SOC 203, SOC 220, SOC 230

Non-western courses are **highlighted** in the general education areas.

_____ **Humanities and Fine Arts:** ART 103, ART 110, HIST 230, HIST 286, LIT 205, MUS 110, PHIL 155

_____ **Social/Behavioral Science:** GEOG 202, HIST 101, HIST 102, HIST 114, HIST 115, HIST 117, HIST 118, POLS 241

Apply for Graduation:

Students must submit an application to Enrollment Services. Applications can be submitted through eSTORM or through Enrollment Services. To be considered for a specific term, applications must be received by the following dates:

<u>Term</u>	<u>Application Date</u>
Fall/December	Oct. 15
Spring/May	Feb. 15
Summer/July	June 15

General Education Course Classifications for the Associate in Applied Science Degree

Refer to the blue AAS program pages for the specific course requirements for each of the AAS degrees. Students must complete at least 15 semester credits of General Education requirements. This page is a reference for general education courses in the areas of Communications, Humanities, Social/Behavioral Science, Mathematics, Life/Physical Science, Human Well-Being electives and the Human Relations requirement. Some courses may only be available to students accepted into specific programs.

A minimum of 60 semester hours in an approved AAS program, a minimum cumulative GP of 2.00 (C) and a **minimum of 15 general education hours** earned across at least 4 of the following general education groups. One course from Humanities and Fine Arts OR Social/Behavioral Science **MUST be a Human Relations OR Non-Western Course.**

Communication (1 course required)

Social/Behavioral Science (1 course required)*

Math/Science (1 course required)

Human Well-being (1 course required)**

Humanities and Fine Arts*

¹ = Career Type, Non-transfer Courses

² = IAI General Education Transfer Courses

*The required Human Relations or Non-Western course must be selected from the indicated courses in Social/Behavioral Science OR Humanities and Fine Arts

**Students enrolled in health sciences programs are not required to take a Human Well-being course as this competency is embedded throughout the programs.

Specific Program Requirements

Each Associate in Applied Science degree has unique course requirements. The specific course requirements are on the pages that follow. The degree programs are listed in alphabetical order.

All students must complete at least 15 semester credit hours of general education credit to earn an Associate in Applied Science (AAS) degree. Required general education coursework includes:

Communications (1 course required)

Accounting

swic.edu/accounting-aas

Department Chair: Dawn Peters, ext. 5487
Dean: Darrell Robin, Ed.D., ext. 5227

The Accounting AAS program prepares students for a variety of jobs including entry-level accounting positions, or for a career as a full-charge bookkeeper. The curriculum includes ACCT 212 Certified Bookkeeper Review. Upon successful completion of the course, students may choose to sit for the Certified Bookkeeper exam, administered by an independent provider and scheduled by the student. This program does not prepare a student to sit for the CPA exam. Individuals who intend to transfer upon graduation to a four-year institution for an undergraduate degree in accounting should review the Associate in Arts degree curriculum for business transfer (Accounting) before selecting the AAS degree program. Course availability varies from semester to semester. Students must pay close attention to the requisites for each course. **Contact an academic advisor or the program coordinator for more information about this degree program including the master course schedule.**

Articulation Agreements

- McKendree University – A.A.S. Accounting to B.B.A. Accounting
- Southern Illinois University Carbondale – A.A.S. Accounting to B.S. Accounting

Important Information

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

Associate in Applied Science Degree (049A)

First Year

Fall Semester			Semester Credits
BUS	101	Introduction to Business	3
BUS	102	Business Mathematics	3
ACCT	110	Financial Accounting	4
OAT	175	Electronic Spreadsheets	3
BUS	220	Data Analytics for Business (Fall only)	3
Total Semester Credits			16

Spring Semester

			Semester Credits
ACCT	111	Managerial Accounting	4
ACCT	106	Introduction to QuickBooks	3
ACCT	211	Intermediate Accounting I (spring only)	3
ECON	115	Introduction to Economics OR	
ECON	201	Principles of Macroeconomics OR	
ECON	202	Principles of Microeconomics	3
ENG	101	Rhetoric & Composition I	3
Total Semester Credits			16

Second Year

Fall Semester			Semester Credits
ACCT	206	Individual/Business Income Tax (fall only)	3
BUS	215	Business Law	3
BUS	261	Business Communications	3
ACCT	210	Cost Accounting (fall only)	3
Specified Humanities & Fine Arts Elective			3
Total Semester Credits			15

Apply for Graduation Now

Spring Semester			Semester Credits
ACCT	212	Certified Bookkeeper Review (spring only)	3
ACCT	215	Accounting for Small Business (spring only)	3
BUS	209	Business Computer Systems	3
BUS	241	Fundamentals of Finance	3
Human Well-Being Elective			2
Total Semester Credits			14

Total Program Credits **61**

Specified Humanities & Fine Arts Electives:

ART	110	Art & Gender	3
LIT	117	Literature Written by Women	3
LIT	215	Contemporary Multicultural American Lit	3
LIT	216	African American Literature	3

Accounting (continued)

Accelerated Degree Option

Anyone who has completed an associate or bachelor's degree from a regionally accredited college may earn an Associate in Applied Science degree in accounting by completing at least 27 semester credits of program-related coursework. A plan of specific courses required for the degree must be obtained from the program coordinator and approved by the dean and the chief academic officer.

Only those courses completed at SWIC, and not included as part of the requirements for a previously earned degree or certificate, can be considered for this option. Students must meet all institutional requirements for the Associate in Applied Science degree.

Bookkeeping Certificate (049F)

The Bookkeeping Certificate prepares students for entry-level accounting support staff positions. The certificate provides the foundation for a career as a full-charge bookkeeper. Those with experience in the bookkeeping field who lack formal education will find the certificate useful in quantifying their experience for prospective employers and/or clients.

First Year

Fall Semester		Semester Credits
ACCT	110 Financial Accounting	4
OAT	175 Electronic Spreadsheets	3

Spring Semester		Semester Credits
ACCT	106 Introduction to QuickBooks	3
ACCT	111 Managerial Accounting	4
ACCT	211 Intermediate Accounting I	3

Second Year

Fall Semester		Semester Credits
ACCT	206 Individual/Business Income Tax	3
ACCT	210 Cost Accounting	3

Spring Semester		Semester Credits
ACCT	212 Certified Bookkeeper Review	3
ACCT	215 Accounting for Small Businesses	3
Total Credits		29

Career Opportunities

A graduate of the Accounting AAS program is prepared for the following positions:

- Accounting clerk
- Full-charge bookkeeper
- Accounting support staff

Visit the Occupational Outlook Handbook website for job market information: www.bls.gov.

Administration of Justice

swic.edu/aoj

Coordinator/Faculty: Eric Danford, ext. 5265
Dean: Curt Schmittling, ext. 5351
Email: Curt.Schmittling@swic.edu

The Administration of Justice AAS degree consists of a balance between basic general education and professional coursework preparing graduates for a career in law enforcement. Many police departments at the state and local level are requiring at least two years of college education for employment. Courses may transfer to senior institutions that offer a bachelor's degree in criminal justice.

See the program coordinator or an academic advisor for more information.

Articulation Agreements

- EIU – BA Criminology and Criminal Justice
- EIU – BA Sociology
- McKendree University - BA Sociology-Criminal Justice
- SIU-Carbondale - BA Criminology & Criminal Justice
- SIU-Edwardsville - BS Criminal Justice

Important Information

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

Associate in Applied Science Degree (0029)

First Year

Fall Semester			Semester Credits
AOJ	100	Intro to Administration of Justice	3
AOJ	105	Police Administration	3
AOJ	151	Policing: Methods and Ethics	3
ENG	101	Rhetoric & Composition I	3
PSYC	151	General Psychology	3
Total Semester Credits			15

Spring Semester			Semester Credits
AOJ	153	Juvenile Delinquency	3
AOJ	155	Community Policing	3
ENG	102	Rhetoric and Composition II	3
POLS	150	Intro to American Government	3
SOC	153	Introductory Sociology	3
Total Semester Credits			15

Second Year

Fall Semester			Semester Credits
AOJ	203	Criminal Law & Admin of Justice	3
AOJ	251	Rules of Criminal Evidence	3
COMM	151	Fundamentals of Public Speaking	3
SOC	203	Social Problems OR	
AOJ	160	Criminology	3
OAT****		Elective(s)	3
Total Semester Credits			15

Apply for Graduation Now

Spring Semester			Semester Credits
EMS	105	First Responder-EMS OR	4
EMS	107	Medical Response	
AOJ	255	Criminal Investigation Case Preparation	3
AOJ	290	Police Report Writing	3
AOJ		Approved Elective*	6
Total Semester Credits			16

Total Program Credits 61

Students must meet all graduation requirements, including Human Relations, identified at the front of the catalog and completion of all courses withing the degree with a "C" or better.

*AOJ approved electives may be selected from the following list:
Law Enforcement: 101, 102, 110, 144, 145, 154, 156, 160, 202, 204, 205, 256, 258, 278, 280 and HS 100; Corrections: 103, 106, 111, 250, 252, 261 and 278.

Students with no criminal justice work experience or not planning to transfer to a senior institution should participate in a work-experience internship (AOJ 278) after completing 24 semester credits of AOJ-prefixed coursework and ENG 102 with a grade of C or better.

**EMS 110 may be substituted.

*** OAT approved electives include: OAT 156, 171, or 180.

Administration of Justice Certificate (0030)

Those who want a concentrated program of study in only police science may enroll in the certificate program. Upon successful completion of the required courses, the student is awarded a certificate of program proficiency. Completion of all courses within the certificate with a "C" or better is required.

			Semester Credits
AOJ	100	Intro to Administration of Justice	3
AOJ	105	Police Administration	3
AOJ	151	Policing: Methods and Ethics	3

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Career Opportunities

A graduate of the Administration of Justice program is prepared to work as a:

- Police officer
- Patrol officer
- Security officer
- Corrections officer
- Deputy sheriff
- Community service officer

Police Academy Intern Training Program

Through the Illinois Law Enforcement Intern Training Act, qualified civilians may attend the Basic Law Enforcement Training Program. Traditionally, peace officers are hired by a law enforcement agency and then sent to a Police Academy for training. Now, qualified civilians have the opportunity to be trained prior to employment; and law enforcement agencies will have the opportunity to hire Police Academy-trained individuals ready for service.

Through the intern program, students will receive the basic academic and practical skills that a law enforcement officer requires in today's job market. The program meets the standards set by the Illinois Law Enforcement Training and Standards Board and provides accepted applicants with the same training received by sworn law enforcement officers. While completion of training does not guarantee employment with a law enforcement agency, there is a strong interest by police agencies to hire select individuals who have completed the basic Law Enforcement Training program.

The Police Academy Intern Training program is 640 hours of intensive academic and physical training. The program includes all aspects of basic law enforcement such as legal issues, citizen interaction, communications, investigations, firearms, and defensive tactics. Successful completion of the curriculum and the State Certification Exam makes graduates eligible for employment as law enforcement officers.

For additional information and application, visit the Police Academy website swicpa.com.

Certificate Programs

Police Academy Certificate (029A)

This certificate program is for individuals enrolled in the Police Academy as a full-time peace officer or accepted academy intern. Interns must successfully complete application requirements per the State of Illinois Intern Training Act. Completion of all courses within the certificate with a "C" or better is required.

Semester Credits			
AOJ	104	Police Officer Proficiencies	6
AOJ	107	Physical Fitness Skills	1
AOJ	120	Foundations of Law Enforcement	3
AOJ	150	Police Officer's Patrol Functions	3
AOJ	152	The Police Function & Human Behavior	4
AOJ	201	Law for Patrol Officers	4
AOJ	206	Police Traffic & Crash Management	2.5
AOJ	238	Criminal Justice Communication	3
AOJ	257	Patrol Investigations	3
FS	280	Haz Mat Awareness	.5
Total Credits			30

Armed Private Security Certificate (029B)

This short certificate prepares graduates for employment as armed security guards/officers. This program is approved by the Illinois Department of Professional Regulation for armed security guard certification. Students interested in pursuing this certificate must be at least 18 years of age and possess a Firearm Owners Identification card. Completion of all courses within the certificate with a "C" or better is required.

Semester Credits			
AOJ	144	Security Officer Certification	2
AOJ	145	Introduction to Firearms	1
Total Credits			3

Unarmed Private Security Certificate (029C)

This course prepares graduates for employment as unarmed security guards/officers. It is approved by the Illinois Department of Professional Regulation. Completion of all courses within the certificate with a "C" or better is required.

Semester Credits			
AOJ	144	Security Officer Certification	2
Total Credits			2

Corrections Academy Certificate (029D)

This certificate program is designed to prepare students for a career as an Illinois county corrections officer. Graduates from the Corrections Academy will meet the Illinois Law Enforcement Training and Standards Board (ILETSB) requirements for State Corrections Officer Certification. Completion of all courses within the certificate with a "C" or better is required.

Semester Credits			
AOJ	162	Intro to County Corrections	4
AOJ	164	Correctional Proficiencies	5
AOJ	166	Correctional Investigations	4
AOJ	168	Communications in the Correctional System	3
Total Credits			16

Court Security Academy Certificate (029E)

This certificate program is designed to prepare students for a career as an Illinois Court Security Officer. Graduates from the Court Security Academy will meet the Illinois Law Enforcement Training and Standards Board (ILETSB) requirements for their state certificate as a Court Security Officer in municipal, county and state courts. The SWIC Court Security Academy will be the only ILETSB certified Court Security Academy in the state. Completion of all courses within the certificate with a "C" or better is required.

Semester Credits			
AOJ	172	Intro to Court Security	3
AOJ	173	Court Security Officer Proficiencies	3
AOJ	174	Court Security Investigations and Functions	3
AOJ	175	Court Security Communications	3
Total Credits			15

Career Opportunities

A student attaining the Armed Private Security certificate is prepared to work as a(n):

- Security officer
- Armed security officer

Agriculture Business Management

swic.edu/ag-biz-mgmt

Coordinator/Faculty: Spencer Schuchman, ext. 5657
Email: Spencer.Schuchman@swic.edu
Dean: Dr. Kimberly Cherry-Vogt, ext. 5050
Email: Kimberly.Cherryvogt@swic.edu

This program is designed to prepare students for careers in farm-related businesses and production agriculture. Students completing the Agriculture Business Management program will find a great demand for their skills and services in the agriculture chemicals, feed, fertilizer, grain, seeds and other ag-related supply and service businesses.

See the program coordinator for more information.

Dean: Dr. Kimberly Cherry-Vogt, ext. 5050

Email: Kimberly.Cherryvogt@swic.edu

The Agronomy Associate in Applied Science program prepares students for careers in agronomy and agricultural sciences by providing a comprehensive foundation in crop production, soil management, pest control, and agricultural technology. This program emphasizes the application of science and technology to enhance the production of food, feed, fiber, and fuel. Students will gain hands-on experience in crop scouting, soil fertility, pesticide use, and other key areas essential for managing agricultural systems effectively.

See the program coordinator or an academic advisor for more information.

Audio Technology Certificate (0097)

This certificate is available to any student interested in live audio production and an introduction to studio recording. It can be completed as an independent course of study or concurrently with any other degree plan. Students may receive the certificate after completion of the following coursework.

			Semester Credits
MUS	145	Audio Technology Orientation	3
MUS	154	Survey of Music Computer Technology	3
MUS	155	Survey of Music Computer Technology II	3
MUS	250	Basic Recording Techniques	3
MUS	251	Advanced Recording Techniques	3
MUS	252	Critical Listening in Audio	3
Total Credits			18

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Career Opportunities

Completion of the Audio Technology Certificate will prepare the graduate to work in the field of:

- Recording engineer
- Audio visual technician
- Music studio assistant
- Music business
- Music merchandising

Aviation Maintenance Technology

swic.edu/avmt

Coordinator: Matthew Harter, ext. 7145
 Email: Matthew.Harter@swic.edu
 Dean: Dr. Travis Jumper, ext. 7457
 Email: Travis.Jumper@swic.edu

The Aviation Maintenance Technology program gives you the opportunity to obtain the FAA-approved Airframe and/or Powerplant Certificate in one year and an Associate in Applied Science degree with an additional semester of classes. The FAA-approved certificate allows you to take the FAA written, oral and practical tests in the General, Airframe, and Powerplant courses. Upon successful completion of the FAA tests, the FAA will issue a FAA Airframe and/or Powerplant License.

This program offers a one-year or two-year format. The one-year format allows you to obtain the A&P certificate (core courses) in 50 weeks (8 hours per day). The two-year format allows you to obtain the A&P certificate (core courses) in 100 weeks (4 hours per day). A student may complete the Associate in Applied Science degree by completing one additional semester of General Education Courses. **See the program coordinator or an academic advisor for more information.**

Total Credits		45

Avionics Courses

These courses are not part of the FAA-approved Airframe and Powerplant certificates, but are sometimes beneficial to those working in aviation fields.

AVE 131	Avionics Inst/ Harness MFG	4
AVE 141	Avionics Installation Trends	4

Other courses that may be of interest to AVMT students are: EET 260 and EET 264.

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog

Career Opportunities

The FAA license is necessary for the student to pursue career opportunities as a(n):

- Powerplant mechanic
- Airframe mechanic
- Combination airframe & powerplant mechanic (A&P mechanic)

Aviation Management

swic.edu/aviation-management

Coordinator/Faculty: Keith Mueller, ext. 5683
Email: Keith.Mueller@swic.edu
Dean: Dr. Travis Jumper, ext. 7457
Email: Travis.Jumper@swic.edu

The Aviation Management program provides students with an excellent foundation for a wide variety of well-compensated aviation-related career paths. The SWIC Aviation Management and Aviation Pilot Training programs have industry partnerships and internships available with locally based airlines to provide students with hands-on industry standard training and job placement.

The program includes an option to complete the Federal Aviation Administration-approved Aircraft Dispatcher certificate along with the associate degree in Aviation Management. Graduates of all SWIC Aviation AAS degree programs have the opportunity to transfer directly to the Southern Illinois University Carbondale Bachelor of Science degree in Aviation Management program. The SIUC classes are offered in a weekend format at the SWIC Belleville Campus. A masters degree in Aviation Management is also available.

Aviation management personnel work in a high-tech environment and are highly valued in many career paths within the aviation field. These roles include: aircraft dispatchers, air traffic control, airline operations, government flight operations, corporate aviation, airport operations, logistics, military aviation and manufacturing positions.

Aviation is a global industry and continues to expand significantly meeting the requirements of domestic and international air travel. Aviation is also a strategically vital link to national defense, the military and national security. The FAA forecasts that domestic air travel alone will increase to more than 1 billion passengers carried annually within the U.S. by domestic airlines by 2025. The expansion of international flight operations continues to grow at a similar rate to the domestic operation.

Contact the program coordinator or an academic advisor for additional information.

Aviation Pilot Training – Airplane

swic.edu/pilot-training

Coordinator/Faculty: Keith Mueller, ext. 5683

Email: Keith.Mueller@swic.edu

Dean: Dr. Travis Jumper, ext. 7457

Email: Travis.Jumper@swic.edu

SWIC offers a two-year curriculum leading to an Associate in Applied Science degree in Aviation Pilot Training. Options are available for either the Airplane (Fixed Wing) or Helicopter (Rotorcraft) program.

For Airplane, ground simulator programs are offered under FAR Part 141. The successful graduate holds a Commercial Pilot Certificate with Single-Engine, Multi-Engine and Instrument Rating.

A one-year Aviation Pilot Training certificate program is also available for airplanes. This program is designed to provide the minimum Federal Aviation Administration pilot certificates and ratings for students to obtain an entry-level position in commercial aviation.

The SWIC Aviation Pilot Training Airplane program is partnered through an airline industry professional agreement that provides students with an opportunity to obtain a direct path to an airline flight officer career.

For Helicopter, both ground and flight training programs are conducted under FAR Part 141. The successful graduate holds a Rotorcraft Commercial Pilot certificate with an Instrument Rating. An optional flight instructor certificate is also available.

Graduates of all SWIC Aviation AAS degree programs have the opportunity to transfer directly to the Southern Illinois University Carbondale Bachelor of Science degree in Aviation Management program. The SIUC classes are offered in a weekend format at the SWIC Belleville Campus.

Students should check the class schedules for times and locations, and check with the coordinator for current flight course fees.

Individual classes and simulator courses are available for each FAA flight rating on a space available basis.

Contact the program coordinator or an academic advisor for more information.

Total Program Credits			Airplane-67.5

***STUDENTS TRANSFERRING TO SIUC:** SWIC AAS Degree Students planning to complete the SIUC B.S. in Aviation Management program need to complete ENG 101 and **ENG 102 (instead of ENG 103)** for transferability as ENG 103 will not be accepted by SIUC as a transfer course from SWIC for the SIUC B.S. degree.

SWIC AAS Degree Students who transfer to SIUC as Capstone Students need to have completed ENG 101. For the Capstone option at SIUC, the ENG 102 course is not required. For Communication requirements, students transferring to SIUC must take COMM 151, Fundamentals of Public Speaking. COMM 155, Interpersonal Communication **IS NOT** transferrable to SIUC.

Aviation Pilot Training – Helicopter

swic.edu/pilot-training

Coordinator/Faculty: Keith Mueller, ext. 5683

Email: Keith.Mueller@swic.edu

Dean: Dr. Travis Jumper, ext. 7457

Email: Travis.Jumper@swic.edu

SWIC offers a two-year curriculum leading to an Associate in Applied Science degree in Aviation Pilot Training.

Options are available for either the Airplane (Fixed Wing) or Helicopter (Rotorcraft) programs.

Helicopter ground and flight training programs are conducted under C.F.R. Part 141 through an agreement with Ideal Aviation.

Airplane ground, simulator, and flight training programs are offered under C.F.R. Part 141 through SWIC. The flight segment is offered through an agreement with Ideal Aviation.

Graduates of all SWIC Aviation AAS degree programs have the opportunity to transfer directly to the Southern Illinois University Carbondale Bachelor of Science degree in Aviation Management program. The SIUC classes are offered in a weekend format at the SWIC Belleville Campus.

Students should check the class schedules for times and locations, and check with the coordinator for current flight course fees.

Individual classes and simulator courses are available for each FAA flight rating on a space available basis.

Contact the program coordinator or an academic advisor for more information.

Important Information

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

Aviation Pilot Training – Airplane/Helicopter (continued)

Airplane Core Course: AVIA 101, AVIA 102, AVIA 103, AVIA 104, AVIA 201, AVIA 153, , AVIA 151, AVIA 154, AVIA 155, AVIA 202, AVIA 203, AVIA 222 AVIA 269, AVIA 270

Helicopter Core Courses: AVIA 111, AVIA 112, AVIA 113, AVIA 114, AVIA 211, AVIA 163, AVIA 212, AVIA 161, AVIA 263 and AVIA 265. Elective courses AVIA 271, AVIA 272, AVIA 273 and AVIA 274 are taught by Midwest Helicopter.

Aviation Electives

Airplane or Helicopter electives – not all courses are available every semester. Several are part of the AAS degree in Aviation Management program and are offered on a rotational basis.

Course	Semester Credits
AVIA 105 Intro to Civil Aviation Ops & Safety	3
AVIA 108 Aviation History	3
AVIA 126 UAS Pilot Certification	1
AVIA 141 Federal Aviation Regulations & Law	3
AVIA 160 Aviation Management I	3
AVIA 240* Aircraft Dispatcher Practical I	3
AVIA 241* Aircraft Dispatcher Practical II	3
AVIA 261 Aviation Management II	3
AVIA 262 High Altitude Meteorology	3
AVIA 264 Management of Aircraft Maintenance	3
AVIA 266 Airport Planning and Management	3
AVIA 280 Internship	3

*Applied to Fixed Wing Only

Helicopter Electives (Available all Semesters)

AVIA 271 Flight Instructor Helicopter Theory	3
AVIA 272 Flight Training Helicopter Instructor	2
AVIA 273 Flight Instructor Helicopter Instrument Theory	2
AVIA 274 Flight Training Helicopter Instrument Instructor	1

ALL FEDERAL AND STATE VETERAN STUDENTS SHOULD CONSULT WITH THE SWIC VETERANS SERVICES OFFICE BEFORE ENROLLING IN ANY AVIATION COURSES.

Certificate Programs

Aviation Pilot Training Certificate (012A)

Fall Semester	Semester Credits
AVIA 101 Private Pilot Flight Theory	4
AVIA 102 Flight Training Private Part I	2
AVIA 103 Simulator Private	1
AVIA 104 Flight Training Private Part II	3
AVIA 260 Aviation Meteorology	3
Total Semester Credits	13

Spring Semester	Semester Credits
AVIA 133 Human Factors in Aviation	3
AVIA 151 Commercial Pilot Flight Theory	3
AVIA 153 Simulator Intermediate	1
AVIA 154 Flight Training Commercial I	3
AVIA 201 Instrument Flight Theory	4
AVIA 269 Multi-Engine Flight Theory	1.5
Total Semester Credits	15.5

Summer Semester	Semester Credits
AVIA 155 Flight Training Commercial II	2
AVIA 202 Flight Training Instrument	3
AVIA 203 Simulator Instrument	1
AVIA 270 Flight Training Multi-Engine	1
Total Semester Credits	7

Total Program Credits 35.5

Private Pilot Certificate (012F)

An individual certificate is available for Private Pilot. A certificate will be issued upon completion of:

AVIA 101 Private Pilot Flight Theory	4
AVIA 102 Flight Training Private Part I	2
AVIA 103 Simulator Private	1
AVIA 104 Flight Training Private Part II	3
AVIA 260 Aviation Meteorology	3

Total Program Credits 13

Notice:

Check class schedule for aviation fees in effect at the time of your registration.

Flight courses AVIA 102, 104, 154, 155, 202, 252, 254, 255, 270 and 292 are not taught by SWIC, but are available for course credit for the AAS degree. Flight courses are offered by area training facilities.

Additional Simulator Courses:

AVIA 205 Garmin GNS 430 VFR Operations
AVIA 207 Garmin G 1000 System Training
AVIA 208 Simulator-Garmin GNS 1000 VFR
AVIA 209 Simulator-Garmin GNS 1000 IFR
AVIA 213 Instrument Training-Part I
AVIA 216 Advanced Instrument Approaches
AVIA 217 Instrument Departures and Arrivals
AVIA 220 Instrument Currency and Review

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog

Career Opportunities

A graduate of the Aviation Pilot Training program is prepared to work as a(n):

- Airplane pilot, commercial airlines
- Airplane pilot, private
- Corporate pilot
- Flight instructor
- Agricultural pilot
- Aerial mapping
- Aircraft charter pilot

Business Administration

swic.edu/business-administration

Department Chair: Dawn Peters, ext. 5487

Dean: Darrell Robin, Ed.D., ext. 5227, Darrell.Robin@swic.edu

Students enrolled in the Business Administration in Applied Science program will complete specialized course work from one of the following subplans: Management, Marketing, Esports Management, Human Resources or Office Technology. This curriculum will provide students with the knowledge and skills necessary to be successful in the advancement of an existing career or to gain entry-level employment in a variety of business-related fields. Participants in this program will be provided a learning environment designed to

- Enhance critical thinking and problem-solving skills
- Increase use and knowledge of business technology
- Promote effective communication in a business environment

The courses required for the degree are listed below. This is a sample schedule. Course availability will vary from semester to semester. Contact an academic advisor or the program coordinator for more information including the master schedule.

Articulation Agreements

Civil Engineering Technology

Coordinator/Faculty: Brandon McGraw
Email: Brandon.Mcgraw@swic.edu
Dean: Dr. Travis Jumper, ext. 7457
Email: Travis.Jumper@swic.edu

The Civil Engineering Technology program prepares students with skills necessary for employment as a civil engineering technician. Employment opportunities include consulting engineering firms, testing laboratories, highway constructors, utilities and local, state and federal governmental agencies. Learning emphasis is placed on activities related to civil construction including; surveying, materials testing/ quality control, drafting and construction inspection. This career path offers opportunities that include a balance between indoor and outdoor work common in the construction industry.

This program prepares students for a rewarding career with diverse opportunities in the growing field of civil engineering.

Associate in Applied Science Degree (036D)

First Year

Fall Semester		Semester Credits
CET	100 Introduction to Construction	3
ENGR	103 Engineering Graphics	4
CET	102 Print Reading for Civil Construction	3
CMT	106 Mathematics for Construction	4
COMM	155 Interpersonal communication	3

CMT	145 Building Trades Craft Survey I	4
CMT	146 Building Trades Craft Survey II	4
any CMT Course		1-4

Career Opportunities

Graduates can pursue careers in the following areas:

- **Civil Engineering Technician:** Assisting engineers in designing, planning, and constructing infrastructure projects.
- **Surveyor Assistant:** Supporting surveying teams in measuring and mapping land for construction projects.
- **Materials Testing Technician:** Conducting tests on construction materials such as concrete, asphalt, and soil to ensure they meet quality and safety standards.
- **Construction Inspector:** Inspecting construction sites to ensure that work complies with regulations, safety standards, and project specifications.
- **Highway Construction Worker:** Working with teams to build and maintain highways and roadways.
- **Utility Technician:** Assisting with the construction, maintenance, and repair of utility systems such as water, sewer, and electrical grids.
- **Governmental Agency Positions:** Working with local, state, or federal agencies to support infrastructure development and maintenance projects.

Community Health Worker

Coordinator/Faculty: Shameka Davis, ext. 5496
Email: Shameka.Davis@swic.edu
Dean: Curt Schmittling, ext. 5351
Email: Curt.Schmittling@swic.edu
Administrative Assistant: Candice Rodgers, ext. 5355

The SWIC Community Health Worker program prepares students with the skills necessary to become a certified community health worker, prepared to work in a variety of healthcare settings including hospitals, clinics, and health agencies. Community Health Workers develop programs to teach clients about conditions affecting human well-being. Community Health Workers promote wellness individually and as a community by educating clients to adopt healthy behaviors. For further information regarding Community Health Workers, refer to the Occupational Outlook Handbook at <https://www.bls.gov/ooh/community-and-social-service/community-health-workers.htm>

About the Program

- One-semester certificate program
- Offered: Fall and Spring semesters
- Enroll in March for Fall classes, and October for Spring classes
- To enroll, students must have a high school diploma or GED. Students must be eligible for ENG 100/ENG 101 or ENG 101 and math placement into MATH 97 or higher. The program is designed to include online classroom education and clinical experience in a healthcare setting.

Certification Requirements

Upon successful completion of the Community Health Worker curriculum, graduates are awarded a certificate as a Community Health Worker.

Enrollment Requirements

To enroll in Community Health Worker courses, students must demonstrate readiness for college-level English and Math. Students must show proof of high school transcript or GED. English placement into ENG 100/ENG 101 OR ENG 101 and math placement

Students should be aware they must pass a criminal background check and drug testing to participate in required clinical experience courses. Additionally, students must present current vaccination records meeting the program's contracted clinical site requirements.

Program Capacity

The Community Health Worker program has capacity for approximately 20 students admitted each Fall and Spring semester. Seats are available dependent on clinical availability.

Program Location

The Community Health Worker program consists of CHW prefix courses and assigned clinical internships. Specific locations depend on the course.

1. The CHW courses are offered online
2. The CHW 110 Clinical Experiences may be scheduled during the day, evening, night, and/or weekends at hospital, clinic, or privately owned facilities throughout Illinois and in the St. Louis region. Students may be required to travel outside of the college district for clinical practicum courses. Specific clinical placement cannot be guaranteed, and specific clinical schedules may be changed during courses. Students are responsible for their own transportation and attendance to any of the classes and clinical practicums assigned by the program.

Orientation & Performance

Students must attend the required orientation session prior to program start, meet program-specific medical requirements, be able to perform the essential functions of the job as listed in the Student Handbook or at swic.edu with reasonable accommodations if needed, and submit results of a background check, drug screen, physical examination, and the required immunizations by the required date as presented in the orientation session. Any applicants or enrolled students are encouraged to contact the Student Accessibility & Support Services at 618-235-2700, ext. 5368, to discuss potential issues associated with meeting these requirements. Other program-specific restrictions may apply.

Health Insurance

Health insurance is required during clinical Community Health Worker courses. Students are personally responsible for any costs incurred for injuries occurring during clinical experiences in their role as a student.

Medical/Health Requirements

Admitted students will be required to show proof of immunizations, tuberculosis test, and physical examination before beginning any clinical experience. These requirements do not have to be fulfilled until after the program orientation but must be fulfilled by the required deadline.

Community Health Worker(continued)

Background Checks and Drug Testing

Criminal background check, random drug test and name search on government registries which prohibit employment in health care professions are required. Program start is contingent upon meeting deadlines for completion of the screening and results which allow the student to participate in the clinical portion of the program. Details and directions for accessing and purchasing online screening for background checks are shared with accepted students. Background checks are conducted for every state in which the student has worked or resided since the age of 18 years. Conviction of offenses in the following areas normally prohibit the student from participation in the clinical portion of the program and will result in program dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of offenses at: www.idph.state.il.us/nar/.

To participate in the clinical portion of the program, students with “disqualifying” offense(s) will be asked to produce a waiver from the Illinois Department of Public Health for identified offenses. To request a waiver application from IDPH, students may call 217-785-5133. Not all clinical sites accept the IDPH waiver (i.e. Missouri sites), therefore required clinical sites are also surveyed to determine if clinical placement can be accomplished. If a waiver cannot be produced prior to clinicals/program start or survey results indicate clinical sites prohibit the conviction, the student will be removed from the program.

In addition, positive results from the drug test or student listing on prohibitory government registry will also result in dismissal from the program. Note: Positive drug testing results from the use of illegal drugs or prescription medication for which the student does not have a prescription. Medical marijuana, which is not FDA approved, is also considered a positive drug testing result. Dismissal for positive criminal background check, drug test, or listing on a government registry does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program coordinator or the administrative assistant prior to seeking admission.

Graduation Requirements

Students enrolled to the program must follow course requirements for graduation at the time they are admitted and must meet all course, program, certification, and sequencing requirements specified. Posted changes in course requirements are applicable to all newly admitted students. Students are responsible for program policies as listed in the Community Health Worker Student Handbook. Students must complete the curriculum within 150 percent of initial enrollment. A grade of C is the minimum grade acceptable for ALL courses in the Community Health Worker curriculum.

Community Health Worker Certificate (025E)

Fall or Spring Semester			Semester Credits
HMS	100	Intro to Human Services	3
HRO	150	Fundamentals of Nutrition	2
CHW	102	Public Health Client Care	1
CHW	104	Chronic Disease Management	2
CHW	106	Behavioral and Mental Health	2
CHW	108	Maternal and Infant Health	2
CHW	110	Clinical Experience	4
Total Semester Credits			16

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Career Opportunities

Community Health Workers may be employed in hospitals, local health departments, community-based organizations, social service agencies, nonprofit organizations, faith-based organizations, behavioral health organizations, and community health centers.

Average Salary

According to the U.S. Bureau of Labor Statistics Occupational Outlook Handbook, the median wage for Community Health Workers in May 2023 was \$48,200 with a 10 percent growth outlook from 2023-2033. Hourly and salary ranges can vary dependent on hiring facility and demographics.

Commercial Maintenance Mechanics

swic.edu/cmm

Coordinator: Nicholas Weatherly, ext. 7305
Email: Nicholas.Weatherly@swic.edu
Dean: Dr. Travis Jumper, ext. 7457
Email: Travis.Jumper@swic.edu

The Commercial Maintenance Mechanics program prepares students with the skills and experience necessary to enter the workforce as entry-level technicians in a commercial facility. Students will learn multiple disciplines which include machining, pipefitting, construction, HVAC and electricity. Commercial maintenance mechanics maintain and repair a variety of equipment used in many different facilities such as hospitals, hotels, office buildings, schools and commercial businesses. Because commercial facilities cannot hire specialists for each trade, commercial maintenance technicians are hired to keep the facilities running.

Important Information

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

Associate in Applied Science Degree (053K)

Program Requisite	Semester Credits
PMT 100 Precision Machining Introduction	.5

HVAR 103 Basic Electrical Controls & Systems	4
HVAR 202 Commercial Refrigeration I	4
Total Credits	41

Career Opportunities

Graduates of the Commercial Maintenance Mechanics program will have many opportunities with a wide variety of companies. A graduate of the Commercial Maintenance Mechanics program is prepared to work as a:

- Plant maintenance mechanic
- Heating, air conditioning and refrigeration technician
- Facilities maintenance technician

Computer Aided Design

swic.edu/cad

Coordinator: Cynthia Bednara, ext. 5376

Email: Cynthia.Bednara@swic.edu

Dean: Dr. Travis Jumper, ext. 7457

Email: Travis.Jumper@swic.edu

The Computer Aided Design program develops the skills that will prepare students for employment as CAD operators. The houses we live in, the buildings we work in, the cars we drive, or the roads we drive on, all started as concepts. The role of the computer aided design drafter is to communicate by way of pictorial drawings the concepts of engineers and architects.

The CAD program is Curriculum Certified through the American Design Drafting Association International. This certification provides recognition in the areas of design drafting and signifies to employers that the SWIC CAD program meets the standards established and approved by an international organization for designers, drafters, architects, illustrators, and technical artists.

Students who wish to complete the architectural/structural detail specialization or mechanical specialization are required to complete the Certified Drafter Architectural/Mechanical exam. Exam for the architectural specialization should be taken during the last semester of the two-year program. The mechanical specialization exam can be taken after completing the first four drafting courses in the program (CAD 120 Introductory CAD, CAD 101 Basic Drafting, CAD 102 Intermediate Drafting and CAD 200 Manufacturing Processes & CAD Drawings). Students interested in the Structural Detail Specialization will be required to take the ADDA Mechanical exam.

Professional certification through the ADDA allows CAD operators to show their knowledge of drafting concepts and nationally recognized standards and practices. Becoming a Certified Drafter enhances credibility as a professional and gives a competitive edge in the workforce. ADDA membership is not required in order to take the exam or to become a Certified Drafter. For more information about ADDA, visit www.adda.org.

The CAD program offers a specialization in General, Architecture, Structural Detail **OR** Machine drafting. After completing the first year of requirements, the student may select to specialize in one of the four areas. Under each specialization area is listed the courses required to complete the degree.

See the program coordinator or an academic advisor for more information.

Career Opportunities

More than 90 percent of the SWIC Computer Aided Design graduates find drafting technology jobs with career opportunities such as:

- Mechanical design drafter
- Junior drafter (entry-level position)
- Drafting technician (education and experience)
- Design drafter (advanced education and experiences)
- CAD operator

SWIC graduates pursue a range of drafting and design fields from manufacturing, to civil, to electrical and instrumentation, to pipe, to structural drafting.

SWIC graduates are employed by companies such as Anheuser-Busch InBev, Monsanto, Sverdrup Corp., IDOT and Ameren.

Computer Information Systems

Dean: Darrell Robin, Ed.D., ext. 5227
Email: Darrell.Robin@swic.edu

The Computer Information Systems program offers an Associate in Applied Science degree for software development, web development, web design and IT service and support. The program provides the technical skills and knowledge required for effective programming development needs in the business environment.

Articulation Agreements

- SIU-Carbondale – BS Information Technology

Important Information

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

Associate in Applied Science Degrees

Computer Information Systems (0010)

First Year

Fall Semester		Semester Credits
CIS 174	Web Fundamentals I	3
CIS 180	Introduction to Programming	3
CIS 185	Introduction to Information Technology	3
CIS 195	Introduction to Databases	3
ENG 101	Rhetoric & Composition I	3
Human Well-Being Elective		2
Total Semester Credits		17

Spring Semester

		Semester Credits
CIS 177	Web Development I	3
Communications Elective		3
Computer Information Systems Sub Plan		9-10
Total Semester Credits		15-16

Second Year

Fall Semester		Semester Credits
CIS 212	Web Development II	3
Humanities or Social Science Elective		3
Computer Information Systems Sub Plan		9
Total Semester Credits		15

Apply for Graduation Now

Spring Semester

		Semester Credits
CIS 297	CIS Internship OR	
BUS 261	Business Communications	3
Human Relations Elective		3
Computer Information Systems Sub Plan		7-9
Total Semester Credits		13-15
Total Program Credits		60-63

Computer Information Systems Sub Plans

Select one of the following plans:

Software Development

MATH 112	College Algebra	4
CIS 165	Python Programming	3
CIS 178	Administrative Scripting	3
CIS 246	Systems Development and Design	3
CIS 252	C# Programming I	3
CIS 262	C# Programming II	3
CIS 263	Data Access	3
CIS 264	ASP	3
CIS 275	SQL	3

Web Development

CIS 187	Web Programming I	3
CIS 256	Web Server Programming I	3
CIS 259	Current Web/Graphic Technology	3
CIS 274	R Programming	3
CIS 275	SQL	3
CIS 277	Web Technologies	3
CIS 287	Web Programming II	3
CIS 288	Web Server Programming II	3
NETW 101	Introduction to Networking	3

Web Design

CIS 147	Fonts & Types	3
CIS 168	Graphic Design OR	
ART 111	Basic Design	3
CIS 171	Computer Graphics	3
CIS 172	Photo Manipulation I	3
CIS 173	Animation	3
CIS 230	Video Graphics	3
CIS 257	Electronic Publishing	3
CIS 273	Advanced Graphics & Animation	3
MKT 126	Introduction to Marketing	3

IT Service & Support

OAT 128	Microsoft Outlook	1
OAT 156	Microsoft Suite I	3
OAT 171	Document Processing/Input Technology	3
OAT 175	Electronic Spreadsheets	3
OAT 180	Word Processing	3
OAT 280	Virtual Office Technologies	3
NETW 101	Introduction to Networking	3
NETW 188	Windows Server I	3
NETW 271	Network Security	3

Computer Information Systems (continued)

Accelerated Degree Option

Anyone who has completed an associate or bachelor's degree from a regionally accredited college may earn an Associate in Applied Science degree in Computer Information Systems (0010) by completing at least 27 semester credits of program-related coursework. A plan of specific courses required for the degree must be obtained from the program coordinator and approved by the dean and the chief academic officer. Only those courses completed at SWIC, and not included as part of the requirements for a previously earned degree or certificate, can be considered for this option. Students must meet all institutional requirements for the Associate in Applied Science degree.

Certificate Programs

Software Development (010D)

Students completing the Software Development Certificate will learn the technical skills and knowledge to handle object-oriented programming to construct software applications. Emphasis will be placed on various software development tools to develop platform independent applications written in one or more object-oriented programming languages.

CIS	174	Web Fundamentals I	3
CIS	177	Web Development I	3
CIS	180	Introduction to Programming	3
CIS	195	Introduction to Databases	3
CIS	212	Web Development II	3
CIS	246	Systems Development & Design	3
CIS	252	C# Programming I	3
CIS	262	C# Programming II	3
CIS	264	ASP	3
CIS	275	SQL	3
Total Credits			30

Web Development (011D)

Students completing the Web Development Certificate will learn software and coding principles required to construct websites. Emphasis will be placed on good coding skills in HTML, JavaScript and object-oriented programming languages.

CIS	174	Web Fundamentals I	3
CIS	177	Web Development I	3
CIS	180	Introduction to Programming	3
CIS	187	Web Programming I	3
CIS	195	Introduction to Databases	3
CIS	212	Web Development II	3
CIS	256	Web Server Programming I	3
CIS	274	R Programming OR	
CIS	277	Web Technologies	3
CIS	287	Web Programming II OR	
CIS	288	Web Server Programming II	3
Total Credits			27

Web Design (011E)

Student completing the Web Design Certificate will learn how to build interactive websites using industry-standard tools and languages, making them highly competitive in the field of web design and development. Emphasis will be placed on Adobe Products, JavaScript, HTML and front-end development.

CIS	147	Fonts & Types	3
CIS	168	Graphic Design OR	
ART	111	Basic Design	3
CIS	171	Computer Graphics	3
CIS	172	Photo Manipulation I	3
CIS	173	Animation	3
CIS	230	Video Graphics	3
CIS	257	Electronic Publishing	3
CIS	273	Advanced Graphics & Animation	3
MKT	126	Introduction to Marketing	3
Total Credits			24

Office Technology (033A)

Students completing the Office Technology Certificate will learn hands-on training in essential office typing and Microsoft Office applications.

CIS	185	Introduction to Information Technology	3
OAT	128	Microsoft Outlook	1
OAT	156	Microsoft Suite I	3
OAT	171	Document Processing/Input Technology	3
OAT	175	Electronic Spreadsheets	3
OAT	180	Word Processing	3
Total Credits			16

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Career Opportunities

A graduate of the Computer Information Systems program is prepared to work as a(n):

- Programmer
- Web developer
- Web specialist
- Web designer
- Software specialist
- Information specialist
- Software developer
- Office Specialists

Construction Apprenticeship Training Programs

Coordinator: Michael Conley, ext. 5193
Email: Michael.Conley@swic.edu

Students seeking admission to an apprenticeship program must meet the admission requirements of the trade union of choice, Office of Apprenticeship, U.S. Department of Labor, and SWIC. For further information concerning apprentice training, contact Michael Conley, director of Workforce Development and Career Pathways

Construction has revolutionized the way tasks are performed. Skilled craftsmen are needed at all levels, from construction development through maintenance. Furthermore, the nature of today's equipment and processes requires more than a casual acquaintance with these fields.

Employers value the balanced treatment of topics included in SWIC construction programs. They know that a graduate can function well in the real-world setting, develop required additional skills, and handle the lifelong learning required of today's construction trades.

Seven areas of concentration are built around the construction technology core courses. In each area, the student can earn a Certificate(s) of Proficiency or Associate in Applied Science degree. After graduation, a student will be qualified for employment in one or more of the following areas: the development, manufacture, installation, repair, maintenance, and management within the construction trades.

In addition, a student can earn a bachelor's degree by transferring to a college, which accepts the Associate in Applied Science degree and offers the Bachelor of Science in Technology.

*All students entering any of the **degree** programs **must** complete the SWIC Placement Test **before** enrolling in any construction technology course. **Students shall meet all institutional requirements to earn an Associate in Applied Science degree.***

Candidates for graduation must fulfill the degree requirements of the AAS degree listed at the beginning of the blue pages.

NOTE: For those students who have not been admitted to the electrical apprenticeship program and who would like to pursue training in the electrical and electronics field, please see the *Industrial Electricity* section of this catalog.

Important Information

UNION MEMBERSHIP REQUIRED.

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

Construction Bricklayer Associate in Applied Science Degree (039C) and Bricklayer Apprentice Certificate (040C)

First Year

Fall Semester			Semester Credits
BLA	118	Construction Bricklayer Apprentice I*	4
BLA	128	Construction Bricklayer Apprentice II*	4
CMT	102	Construction Blueprints & Specifications	3
CMT	103	Construction Materials & Methods I	3

*A Sheetmetal Apprentice Certificate will be given after the completion of the eight courses marked with asterisks.

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Career Opportunities

Completing an apprenticeship in building trades is not a dead-end goal. Building trades offer many opportunities for the Associate in Applied Science degree graduate.

The construction industry offers many varied employment opportunities. An apprenticeship completer can work at the trade while pursuing a bachelor's degree. A bachelor's degree would, in turn, open doors that could enable the construction worker to choose from an unlimited number of careers in the industry. Possibilities include:

- Contractor
- Insurance adjuster
- Bonding agent
- Engineer
- Architect's representative at a job site
- Construction manager
- Estimator
- Building inspector
- Job-site superintendent
- Foreman

Construction Management Technology

swic.edu/cmt

Coordinator/Faculty: Charles "Jim" Laing, ext. 5209
Email: Charles.Laing@swic.edu
Dean: Dr. Travis Jumper, ext. 7457
Email: Travis.Jumper@swic.edu

The Construction Management Technology program at Southwestern Illinois College prepares students for careers in the construction industry. Upon graduation, students are qualified for several entry-level positions in the construction management career field.

Employers value a balanced technical curriculum and graduates with solid presentation and communication skills. They know graduates can function well in real-world settings, develop required skills and handle lifelong learning required of today's construction managers.

SWIC's CMT program is built on four core areas – safety, quality control, estimating and scheduling. Courses supporting these areas integrate software commonly used in the construction industry including Autodesk Revit, Navisworks, Recap, Remake, Bluebeam, MS Excel and MS Project. Software skills applied to construction management areas of project control give students an upper hand in a competitive marketplace.

Important Information

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

CMT	205 International Building Code	3
ENGR	251 Surveying Fundamentals OR	
CET	145 Surveying Fundamentals	3
Total Credits		35

Building Performance Certificate (036A)

This certificate program focuses on energy efficiency of residential structures and provides the student opportunity for nationally recognized Building Performance Institute certifications. Building analysis and weatherization techniques including blower door, indoor air quality and combustion analysis are included. Specific focus on building science, buildings and their systems, standards and specifications is included.

		Semester Credits
CMT	147 Energy Auditor	4
CMT	148 Weatherization Specialist	4
CMT	149 Weatherization II	1.5
Total Credits		9.5

Building Information Modeling Certificate (036B) -10 semester credits/2 semesters

The SWIC Building Information Modeling Certificate provides opportunities for students to explore pre-construction and construction phases of building projects using information modeling software. The computer is very much alive in the construction industry and as demand increases as a result of more stringent building codes, sustainable construction methods and

alternate project delivery methods, use of BIM will continue to grow. Students are required to learn modeling software including identification and assembly of parts and products. Unlike traditional two-dimensional drawings, BIM models store information related to both quantity and quality of the proposed structure. Students learn how to use the software to the benefit of the construction process including, structural, HVAC, plumbing and electrical systems integration for the purpose of constructability modeling, clash detection, scheduling and estimating, as well as other pre-construction phase tasks. Construction applications include process improvement techniques while focusing on updating the model as change occurs during construction. Students will be introduced to advanced delivery methods including paperless job sites, the virtual job trailer as well as tough tablet use on job sites. The Building Information Modeling Certificate will provide current needed training and experience for construction managers, scheduling and estimating staff, designers, draftsmen, project superintendents, job foreman and building tradespeople.

		Semester Credits
CMT	105 Computer Applications for Construction	3
CMT	200 Virtual Construction I	4
CMT	265 Virtual Construction II	3
Total Credits		10

Building Trades Safety (036C) -

This certificate provides students with opportunities to experience several trade specialization areas. Students explore hands-on techniques, including the use and proper handling of tools and materials, with an emphasis on the safety aspects related to each trade. In addition to SWIC's Building Trades Safety Certificate, successful completion of CMT 244 will result in OSHA 30 certification.

		Semester Credits
CMT	145 Building Trades Craft Survey I	4
CMT	146 Building Trades Craft Survey II	4
CMT	242 OSHA Certification (1)	1
CET	100 Introduction to Construction	3
Total Credits		12

Career Opportunities

A graduate of the Construction Management Technology program is prepared to work in entry-level management team positions including:

- Office engineer
- Field engineer
- Foreman
- BIM technician
- Assistant superintendent

Culinary Arts and Food Management

swic.edu/culinary

Coordinator/Faculty: Leisa Brockman, ext. 7389/5436
Email: Leisa.Brockman@swic.edu
Dean: Dr. Travis Jumper, ext. 7457
Email: Travis.Jumper@swic.edu

The Culinary Arts and Food Management program prepares students for entry-level positions in the food service industry. The program offers five different educational options to meet students' specific needs.

The Associate in Applied Science in Culinary Arts and Food Management degree program provides students with the knowledge of restaurant management and culinary arts skills necessary to obtain entry-level chef or restaurant management positions. Some graduates prefer to transfer to a four-year institution to pursue a bachelor's degree. The program has an outstanding reputation among notable colleges and universities. SWIC can assist in the transfer process.

The Baking and Pastry degree program prepares students for careers in the culinary arts/baking industry. The Associate in Applied Science program blends specialized baking science, technology and applications, as well as foundational business competencies to operate a successful baking operation.

The five Culinary Arts and Food Management certification programs provide specific foundations to help prepare for a particular job in the industry or to enhance present job skills. One certificate offers a food service concentration while another offers a food service and management combination. The third certificate concentrates on food preparation. The fourth certificate focuses specifically on the art and science of baking and pastry. The Food Truck and Mobile Catering Management Certificate provides culinary entrepreneurs the foundational knowledge to design, operate and manage a successful food truck and/or mobile catering business.

SWIC Culinary Arts and Food Management program partners with the National Restaurant Association and the Council of Hotel, Restaurant and Institutional Education.

Students in the Culinary Arts and Food Management program must be able to perform physical requirements as identified by the department.

Coordinator/Faculty: Carolin Brewer, ext. 7374

Email: Carolin.Brewer@swic.edu

Dean: Darrell Robin, Ed.D., ext. 5227

Email: Darrell.Robin@swic.edu

As a Cisco Networking Academy, we offer an Associate in Applied Science degree in Cybersecurity and Networking as well as a certificate in Cybersecurity and a Certificate in Networking.

Our program develops your skills to obtain an entry-level position in IT, namely in the fields of cybersecurity and networking.

In our program, you may earn valuable digital badges as well as highly sought-after industry certifications such as the Cisco Certified Network Associate (CCNA), the CompTIA Security+, Comp TIA Network+, the Linux Essentials, and the Python PCEP/PCAP.

Approach Carolin, the program coordinator, or an academic advisor for more information. Students in the Cybersecurity and Networking program must be able to perform technical functions as identified by the department.

NETW 232	Management of Cloud Computing	3

Accelerated Degree Option

If you hold an Associate's or Bachelor's degree from an accredited college, you may be eligible for obtaining our Associate of Applied Science degree in Cybersecurity and Networking with significantly fewer than 61 credits. We will craft an individualized plan based on your past education to earn our degree. Please contact the coordinator for details and for creating your individualized plan.

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Career Opportunities

A graduate of the Cybersecurity and Networking program is prepared to work as a(n):

- Network administrator
- Systems administrator
- Network technician
- Systems engineer

Certificate Programs

Network Associate Certificate (007A)

Our Network Associate Certificate starts with networking technology basics, setting up simple networks, IP addressing, and covers network design, routing, switching and wireless technologies. You will gain hands-on experience through simulations as well as with local and remote hardware.

After completing the four-course series, you may obtain the prestigious Cisco Certified Network Associate (CCNA) certification.

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Fall Semester	Semester Credits
CISC 161 Cisco Networking Essentials	4
CISC 162 Cisco Network Communication	4
Total Semester Credits	8

Spring Semester	Semester Credits
CISC 163 Cisco Switching and Routing	4
CISC 164 Cisco Enterprise Networking	4
Total Semester Credits	8
Total Credits	16

Career Opportunities

A student who completes the Network Associate Certificate at SWIC and obtains the CCNA professional certification is prepared to work as a:

- Network administrator
- Network specialist
- Network support technician

Help Desk (011G)

This certificate will provide the skills and knowledge required for an entry level IT Help Desk position. Help Desk Technicians assist non-IT users who are having computer problems. Computer support specialists work in many different industries, including information technology, education, finance health care, telecommunication, retail, and entertainment.

	Semester Credits
CIS 185 Intro to Information Technology	3
CIS 179 Computer User Support for Help Desk	3
CISC 106 Introduction to Cybersecurity (1st 5 weeks)	1
CISC 116 Cisco Cybersecurity Essentials (2nd 11 weeks)	2
CISC 161 Cisco Networking Essentials (1st 8 weeks)	4
EET 256 Preparation for A+ Certification (2nd 8 weeks)	3
Total Semester Credits	16

*Help Desk Certificate offered at East St. Louis campus only.

Cybersecurity Specialist (007D)

This certificate prepares you for securing information and communication systems to protect them from damage, exploitation, and unauthorized use or modification. You will learn about concepts, principles, methods, techniques, practices, and procedures needed to become a cybersecurity specialist who plans, implements, upgrades, or monitors security measures in an organization.

After completing the course work to obtain a Cybersecurity Specialist certificate, you may obtain the Cisco Certified Network Associate (CCNA) certification and the CompTIA Security+ certification.

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

This certificate can be spread over fall, spring, and summer terms. CISC 161 - 164 are offered as 8-week courses or as consecutive semester-long courses, extending the completion time potentially to four terms.

Semester 1	Semester Credits
CISC 117 Cybersecurity Essentials	3
CISC 161 Cisco Networking Essentials	4
CISC 162 Cisco Network Communication	4
NETW 188 Windows Server I	3
Total Semester Credits	14

Semester 2	Semester Credits
CISC 163 Cisco Switching and Routing	4
CISC 164 Cisco Enterprise Networking	4
CISC 126 CyberOps Associate	4

Semester 3	Semester Credits
NETW 211 Digital Forensics	3
NETW 271 Network Security	3
Networking Elective	3
Total Semester Credits	9

Total Credits 35

Career Opportunities

A student who completes the Cybersecurity Specialist certificate is prepared to work as a(n):

- Network support specialist
- Network technician
- Systems administrator
- Systems engineer
- Systems manager

Diagnostic Medical Sonography

swic.edu/dms

Coordinator: Jacqueline Owens, ext. 5626

Email: Jacqueline.Owens@swic.edu

Dean: Curt Schmittling, ext. 5351

Email: Curt.Schmittling@swic.edu

Administrative Assistant: Candice Rodgers, ext. 5355

The SWIC Sonography program prepares students with the skills necessary to become a registered sonographer, prepared to work in a variety of clinical settings including hospital or privately owned facilities. Sonographers are trained professionals in diagnostic imaging equipment to assist healthcare professionals to make accurate diagnoses and treatment options. Registered sonographers are skilled in operating imaging equipment, reviewing normal and abnormal images and preparing patients for various medical procedures following review of the patient's medical records. For further information regarding the field of sonography, please go to the Occupational Outlook Handbook: <https://www.bls.gov/ooh/healthcare/diagnostic-medical-sonographers.htm>

- Three-semester certificate
- Offered: Fall, Spring, and Summer semesters
- Selective admission for fall semester start.
- Applications are accepted Sept. 1 to Dec. 1
- To enroll, students must have completed a two-year allied health program receiving an Associate or Bachelor's in Applied Science that is patient-care related and required clinical education.

Important Information

The following semester sequence is designed as a guide for students enrolled full time. **This is a required schedule.** Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

The program is designed to include classroom education, laboratory/simulation, and clinical experience in a sonography setting.

Certification Requirements

Upon successful completion of the Sonography curriculum, graduates are awarded a certificate as a sonographer. Graduates of the sonography curriculum are eligible to take the registry examination by the American Registry of Diagnostic Medical Sonography (ARDMS). To work in Illinois, graduates of the program must provide proof of graduation from a sonography training program. Illinois sonography employers prefer professional certification by the ARDMS for students to gain employment as a sonographer.

Enrollment Requirements

To enroll in sonography classes, students must show proof of college transcript meeting application requirements of an

Associate in Applied Science or Bachelor's in Applied Science received from an allied health program that is patient care related with a clinical education component. To obtain information about a readiness visit, contact an academic advisor.

Students should be aware they must pass a criminal background check and drug testing to participate in required clinical experience courses. Additionally, students must present current vaccination records meeting the program's contracted clinical site requirements.

Sonography Capacity

The Sonography program has capacity for approximately 20 students admitted each fall at the Belleville Campus. Seats available are dependent on meeting application requirements and on clinical availability.

Program Location

The Sonography program consists of DMS-prefix courses and assigned clinical practicums. Specific locations depend on the course.

1. The DMS courses are offered at the Belleville Campus.
2. Clinical experiences may be scheduled during the day, at hospital, clinic, or privately owned facilities throughout southern Illinois and in the St. Louis region. Students may be required to travel outside of the college district for clinical practicum courses. Specific clinical placement cannot be guaranteed, and specific clinical schedules may be changes during courses. Students are responsible for their own transportation and attendance to any of the classes and clinical practicums assigned by the program.

Orientation & Performance

Students must attend the required orientation session prior to program start, meet program-specific medical requirements, be able to perform the essential functions of the job as listed in the Student Handbook or at swic.edu with reasonable accommodations if needed, and submit results of a background check, drug screen, physical examination, and the required immunizations by the required date as presented in the orientation session. Any applicants or enrolled students are encouraged to contact the Student Accessibility & Support Services at 618-235-2700, ext. 5368, to discuss potential issues associated with meeting these requirements. Students not able to perform the essential elements of a sonography position may be unable to pass the required courses. Other program-specific restrictions may apply.

Health Insurance

Health insurance is required during clinical Sonography courses. Students are personally responsible for any costs incurred for injuries occurring during clinical experiences in their role as a student sonographer.

Medical/Health Requirements

Admitted students will be required to show proof of immunizations, tuberculosis test, and physical examination before beginning any clinical experience. These requirements do

Sonography (continued)

not have to be fulfilled until after the program orientation but must be fulfilled by the required deadline.

Background Checks and Drug Testing

Criminal background check, random drug test and name search on government registries which prohibit employment in health care professions are required in our health science programs. Program start is contingent upon meeting deadlines for completion of the screening and results which allow the student to participate in the clinical portion of the program. Details and directions for accessing and purchasing online screening for background checks are shared with accepted students. Background checks are conducted for every state in which the student has worked or resided since the age of 18 years. Conviction of offenses in the following areas normally prohibit the student from participation in the clinical portion of the program and will result in program dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of offenses at: www.idph.state.il.us/nar/.

To participate in the clinical portion of the program, students with “disqualifying” offense(s) will be asked to produce a waiver from the Illinois Department of Public Health for identified offenses. To request a waiver application from IDPH, students may call 217-785-5133. Not all clinical sites accept the IDPH waiver (ie. Missouri sites), therefore required clinical sites are also surveyed to determine if clinical placement can be accomplished. If a waiver cannot be produced prior to clinicals/program start or survey results indicate clinical sites prohibit the conviction, the student will be removed from the program.

In addition, positive results from the drug test or student listing on prohibitory government registry will also result in dismissal from the program. Note: Positive drug testing results from the use of illegal drugs or prescription medication for which the student does not have a prescription, medical marijuana, which is not FDA approved, is also considered a positive drug testing result. Dismissal for positive criminal background check, drug test, or listing on a government registry does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program coordinator or the administrative assistant prior to seeking admission.

Graduation Requirements

Students enrolled to the program must follow course requirements for graduation at the time they are admitted and must meet all course, program, certification, and sequencing requirements specified. Posted changes in course requirements are applicable to all newly admitted students. Students are responsible for program policies as listed in the Sonography Student Handbook. Students must complete the curriculum within 150 percent of initial enrollment. A grade of C is the

minimum grade acceptable for ALL courses in the Sonography curriculum.

Sonography Certificate (028B)

Fall Semester			Semester Credits
DMS	101	Intro to Diagnostic Sonography	2
DMS	102	DMS Physics & Instrumentation I	2

Career Opportunities

According to the US Bureau of Labor Statistics' Occupational Outlook Handbook, the median wage for sonographers was \$70,380 with a 12 percent growth outlook from 2019-2029. Hourly and salary ranges can vary dependent on hiring facility and demographics.

Early Childhood Education

swic.edu/early-childhood-aas

Coordinator/Faculty: Yvette Schultz, ext. 5593

Email: Yvette.Schultz@swic.edu

Dean: Kristen Ruppert, Ed.D., ext. 5013

Email: Kristen.Ruppert@swic.edu

This program is designed to prepare students to work with young children in various early childhood settings. Students will receive instruction in theories of child development, developmentally appropriate practice, adapting for children with special needs, and establishing relationships with parents. (Also see the Early Childhood Education transfer option in Associate in Arts program area.) See the program coordinator or an academic advisor for more information. Note: Please see the following ISBE website for the steps to apply for an approval letter to be a paraprofessional: <https://www.isbe.net/educatorlicensure>

Southwestern Illinois College is an entitled institution through Gateways to Opportunity: Illinois Professional Development Program. The Early Childhood Education AAS degree offers ECE Credential Levels 2 – 4 and Infant Toddler Credential Level 2.

Infant Toddler Level 2 Certificate of Completion Requirements:

ECE 110 Into to Early Childhood Education	3
ECE 112 Growth and Development of Children	3
ECE 114 Child Health Maintenance	3
ECE 122 Infant and Toddler Care	3
ENG 101 Rhetoric and Composition I	3
Total Semester Credits	15

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Early Childhood Education Electives

ECE 122 Infant and Toddler Care	
ECE 200 ECE Leadership & Supervision	
ECE 210 Understanding & Guiding Behavior of Young Children	
ECE 220 Math for Young Children	
Any ECE 299 Special Topics course	

Technology Electives

ED 260 Educational Technology	
OAT 156 Microsoft Office Suite I	
OAT 180 Word Processing	

Career Opportunities

A graduate of the Early Childhood Education program can find employment as a (an):

- Head Start teacher
- Child care worker (certificate with one-year experience or Associate in Applied Science degree).
- Child care director (Associate in Applied Science degree)
- Public school individual/classroom aide (paraprofessional)
- Early childhood special education aide (paraprofessional)

Emergency Medical Technician

swic.edu/emt

Coordinator: Anthony Perez, ext. 5343
Email: Anthony.Perez@swic.edu
Dean: Curt Schmittling, ext. 5351
Email: Curt.Schmittling@swic.edu
Administrative Assistant: Candice Rodgers, ext. 5355

SWIC Emergency Medical Services programs prepare students for varying levels of pre-hospital care in emergency medicine. Currently, SWIC offers two levels of training: Emergency Medical Technician and Paramedic. The most basic level of care is provided by the emergency medical technician.

Under the supervision of a physician via radio communications, an EMT is prepared to care for patients at the scene and during transport to the hospital. The EMT is able to assess a patient's condition and manage various medical and traumatic emergencies.

To become an Illinois licensed EMT, students must be at least 18 years of age and have a high school diploma or high school diploma certificate. They must successfully complete the eight-semester-credit EMS 110 Emergency Medical Technician course and pass either the state or national EMT examination prior to licensure and practice (differences are explained during the course).

For further information regarding the field of Emergency Medicine, refer to the Occupational Outlook Handbook at www.bls.gov/ooh/healthcare/emts-and-paramedics.htm. **Contact the program coordinator, coordinators' assistant, or an academic advisor for more information.**

About the Program

To complete this program students enroll in EMS 110, an eight-semester-credit course that can be completed in one semester. During this course, students attend classroom lectures as well as supervised clinical practice in area hospitals and other health care facilities. Clinical practice includes 36 observation hours in local emergency departments and ambulance services.

Enrollment Into the Course

- A. Students must meet program-specific medical requirements and must be able to perform the essential functions of the job with or without reasonable accommodations. The essential functions can be found at <http://www.swic.edu/wp-content/uploads/2017/05/Paramedic-Program-Technical-Standards.pdf>. Students are encouraged to meet with the Student Accessibility & Support Services to discuss potential issues associated with meeting these requirements at 618-235-2700, ext. 5368.
- B. The EMS 110 course is offered at the Belleville, Red Bud and Sam Wolf Granite City campuses as well as off-campus locations.
- C. Students must be eligible for ENG 101.

- D. Students should check the location and schedule of classes to ensure their availability. Students are responsible for their own transportation and attendance at the clinical facilities assigned by the program. Students should be aware that health insurance is required during clinical practice. Students are personally responsible for any costs incurred for injuries occurring during their clinical practice.
- E. Criminal background check, random drug test and name search on government registries which prohibit employment in health care professions are also required prior to clinical practice. Payment for these checks and test are included in lab fees. However, an additional fee will be charged for states other than Missouri/Illinois in which the student has worked or resided since the age of 18 years may be required. Students with positive results from either criminal background check, drug test or listings on prohibitory sites will be dismissed with no refund of tuition or lab fees. See the program coordinator or coordinators' assistant for more information.
- F. Students participating in the SWIC EMT program are subject to all provisions of the existing college catalog, EMT student handbook and course syllabus with respect to attendance during the period of their enrollment.

Certificate Emergency Medical Technician (068C)

EMS 110 Emergency Medical Technician

8

Career Opportunities

Once successfully licensed, the EMT may seek employment on an ambulance, in a hospital, or in a setting where EMTs are needed (i.e., security, casinos, industrial plants). In addition, many licensed EMTs further their education by becoming paramedics, nurses, physician assistants, physicians or other health care providers. In fact, some students pursuing advanced degrees are directed to take the EMT course to get some practical patient experience.

According to the U.S. Department of Labor, employment is projected to grow much faster than average as paid emergency medical technician positions replace unpaid volunteers, and competition will be greater for jobs in local fire, police, and rescue squad departments than in private ambulance services. Opportunities are best for those who have advanced certifications.

Average Starting Salary:

Earnings of EMTs and paramedics depend on the employment setting and geographic location as well as the individual's training and experience. Based on survey results of SWIC EMT graduates, the average annual earnings of EMTs and paramedics are between \$40,000 and \$70,000.

Film and Video Production

swic.edu/film

Coordinator: Dan Cross, ext. 5591

Email: Dan.Cross@swic.edu

Dean: Kristen Ruppert, Ed.D., ext. 5013

Email: Kristen.Ruppert@swic.edu

The Film and Video programs train students in both the technical and aesthetic aspects of Film, Video, and Multimedia production. Students in the AAS degree program will gain hands-on experience in all stages of the film and video production process including writing, directing, acting, voice recording, operating cameras, lights, and audio equipment, video editing and sound design. The certificates are shorter programs focused entirely on Film and Video Production and Editing. All these programs prepare students for professional Media Production jobs including film and video production, audio recording and editing, podcasting, social media production, and other careers requiring good multimedia skills. Most classes are transferable, so these programs also prepare students for transfer to four-year film and media production programs.

Film and Video Production is a very technical discipline which requires strong computer skills, and it is also very collaborative, with plenty of opportunities for interpersonal interaction and communication.

Students do not need any prior experience, do not need to own their own cameras or other film equipment, and do not need departmental permission to enroll in our classes or programs. Interested students can simply sign up for the courses below (though the advanced courses do have prerequisites).

Film and Video

Associate in Applied Science Degree (0059)

First Semester		Semester Credits
ENG 101	Rhetoric and Composition	3
FILM 115	Film Appreciation	3

CIS	230	Video Graphics	3
MUS	250	Basic Digital Recording Techniques OR	
CIS	273	Advanced Graphics and Animation	3
Total Program Credits			18

Career Opportunities

The Film and Video AAS degree and certificates prepare students to work in a variety of different careers which require skills in video production. A few SWIC film graduates have gone on to work in the film industry as directors, writers, or editors, and many others have found work doing video production for other industries such as television, marketing, real estate, and social media. Others have become self-employed, creating their own video production companies and working in various freelance situations. Since most of the courses in the Film and Video AAS degree and certificates are transferable, many students choose to transfer to four-year film programs after completing their degree. Former SWIC film students have been accepted to Southern Illinois University- Carbondale, Columbia College in Chicago, Webster University in Webster Groves, Missouri, and many others.

Fire Science

swic.edu/fire-science

Coordinator/Faculty: Chris Frawley, 618-234-5138
Email: Christopher.Frawley@swic.edu
Dean: Curt Schmittling, ext. 5351
Email: Curt.Schmittling@swic.edu

Program Location: Clay Baitman Fire Science Training Center,
1512 Freeburg Ave., Belleville, IL

The Fire Science program includes a two-year curriculum leading to an Associate in Applied Science degree involving 66 semester credits with two options. Students that are not currently active members of a fire department must select the Fire Protection Administration option. Students that are active members of either a full-time, part-time, or volunteer fire department may select the Fire-Rescue Specialist or the Fire Protection Administration option.

The Fire Science program also offers 11 certificate programs which are designed to meet various national fire service training standards. Enrollment in the certificate programs is restricted to active fire department members, rescue team members, or emergency medical service providers.

Many certificate and Fire-Rescue Specialist courses require demonstration of skills that involve strenuous physical activity that may be considered dangerous. These courses may also require the student to provide sophisticated personal protective equipment in order to participate in class activities. The approval of the program coordinator and official sponsorship by the student's fire department or employer may be required for enrollment. **Contact the program coordinator or an academic advisor for more information.**

Articulation Agreements

- SIU-Carbondale – B.S. Public Safety Management

Important Information

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

Associate in Applied Science Degree (0057)*

First Year			
Fall Semester			Semester Credits
ENG	101	Rhetoric & Composition I	3
SOC	153	Introductory Sociology	3
FS	101	Principles of Emergency Services	3
FS	102	Fire Behavior and Combustion	3
FS	110	Fire Prevention	3
Human Well-Being Elective(s)			3
Total Semester Credits			18

Spring Semester			Semester Credits

Spring Semester			Semester Credits
Fire Science Approved Electives***			17.5
Total Semester Credits			17.5
Total Program Credits			66

*Contact Fire Science Coordinator Curt Lougeay for course specifics if planning to transfer with an articulation agreement.

**Fire Science approved electives: EMS 105, EMS 110, FS 159, FS 160, FS 200, FS 201, FS 210, FS 211, FS 260, FS 262, FS 264, FS 268, FS 280, FS 299, HS 100, AOJ 285

All students must complete graduation degree requirements listed in the front of the blue section for an Associate in Applied Science degree including the requirement for Human Relations coursework. Completion of all courses within the degree with a "C" or better is required.

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Fire Science (continued)

Career Opportunities

An A.A.S. graduate of the Fire Science program is prepared to work as a:

- Fire fighter
- Fire inspector
- Public safety officer
- Industrial fire brigade member

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Certificate Programs

The following Fire Science certificate options are only open to active fire department members, rescue team members or emergency medical service providers. The approval of the program coordinator and official sponsorship by the student's fire department or employer may be required for enrollment. Completion of all courses within the degree with a "C" or better is required.

Fire Fighter I & II (057A)*

FS	100	Fire Fighter A	4
FS	115	Fire Fighter B	3
FS	130	Fire Fighter C	2
FS	181	Hazardous Materials First Responder*	2.5
Total Credits			11.5

Fire Apparatus Engineer (057C)

FS	120	Fire Service Vehicle Operator	1
FS	205	Fire Apparatus Engineer	3
Total Credits			4

Fire Service Instructor I (057D)

FS	200	Fire Service Instructor I	3
Total Credits			3

Fire Service Instructor II (057F)

FS	210	Fire Service Instructor II	3
Total Credits			3

Fire Service Officer I (057E)*

FS	200	Fire Service Instructor I*	3
FS	201	Fire Officer I*	3

Aeronautical Information Specialist (012G)

The Aeronautical Information Specialist Option provides the student with the ability to enter the exciting world of Aerospace careers. He/she will become highly specialized in the area of aeronautical navigation with worldwide aeronautical charts that include enroute, Terminal Instrument Procedures, Instrument Approach Procedures, Departure Procedures and Standard Terminal Arrivals. Tasks include chart development, verifying accuracy, adding updates along with a multitude of related tasks. Technicians utilize a variety of high-tech data resources including satellite imaging. Aeronautical Information Specialists are highly skilled and well compensated. They are employed by a wide variety of Government and Aerospace organizations such as Boeing, Garmin, Federal Aviation Administration, Jeppesen, National Geospatial Agency and many more and related contractors located throughout the U.S. The St. Louis area will be home to one of the largest new facilities in the U.S. that utilizes the specialized skills contained within this career track.

Articulation Agreements

- Illinois State University – BS Health Information Administration
- McKendree - BA Healthcare Management

Career Overview

The SWIC Health Information Technology program prepares graduates to work as medical record/health information technicians. Health information technicians have limited direct patient contact. They ensure the quality of medical records/health information by verifying the completeness, accuracy and proper entry of patient information into computer systems. They use a universal coding system to assign diagnostic and procedural codes to patient information. They also use software applications to assemble and analyze patient data for the purpose of improving patient care or controlling costs. They ensure the patient's interests in matters of privacy and security, information release and guidelines regarding record access. For further information regarding the field of Health Information Technology, refer to the American Health Information Management Association website at www.hicareers.com and/or www.ahima.org.

About the Program

- Two-year degree, Associate in Applied Science degree
- Complete program online

Certification Requirements

Upon successful completion of the HIT curriculum, graduates are awarded an Associate in Applied Science degree in Health Information Technology and are eligible to take the American Health Information Management Association certification examination to become a Registered Health Information Technician. These examinations are offered throughout the year at various sites in the state and country.

Program Accreditation

The SWIC Health Information Technology program is accredited by the Commission on the Accreditation for Health Informatics and Information Management. The program's curriculum is guided by the standards developed by the association. The accreditation status means SWIC has met the standards required and helps to assure the public that the curriculum will graduate competent clinicians. It also allows the college's HIT graduates to take the certification examination.

Program Location

The Health Information Technology program consists of general education course, HIT-prefix courses and assigned clinical experience courses. Specific locations depend on the course type.

1. The general education courses can be taken at the Belleville, Red Bud or Sam Wolf Granite City campuses or online. They can be completed prior to program admission.
2. The HIT courses are only offered online.
3. The Professional Practice Experience coursework is completed at hospital/clinical facilities, health information-related vendors/companies or other applicable sites within the health care delivery system throughout southern Illinois or the St. Louis region. Students may be required to travel outside the college district for clinical experience courses. Specific Professional Practice Experience placement cannot be guaranteed.
Whether students are attending full time or part time, all students must be available to complete the externship/practicum portion of the program which is a total of 80 hours of externship/practicum.

Student should check location and schedule of classes to ensure availability and access. Students are responsible for their own transportation and attendance at any of the classes and PPE(s) assigned by the program.

Orientation & Performance

Enrolled students must attend all required orientation sessions and be able to perform the essential functions of the job with or without reasonable accommodations. The essential functions can be found at swic.edu/hit-performance-essentials. Enrolled students are encouraged to contact the Student Accessibility & Support Services at 618-235-2700, ext. 5368, to discuss potential issues associated with meeting these requirements.

Health Insurance

Health Insurance is required during PPE clinical courses. Students are personally responsible for any costs incurred for injuries occurring during their clinical experience courses.

Medical/Health Requirements

HIT students will be required to show proof of immunizations, tuberculosis test, flu shot, physical examination, covid vaccination and health insurance coverage before beginning any PPE/clinical experience course. These requirements do not have to be fulfilled until further explained at the program orientation meeting.

Background Checks and Drug Testing

Criminal background check, random drug test and name search on government registries which prohibit employment in health care professions are required in our health science programs. Program start is contingent upon meeting deadlines for completion of the screening and results which allow the student to participate in the clinical portion of the program. Details and directions for accessing and purchasing online screening for background checks are shared with accepted students. Background checks are conducted for every state in which the student has worked or resided since the age of 18 years. Conviction of offenses in the following areas normally prohibit the student from participation in the clinical portion of the program and will result in program dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of offenses at www.idph.state.il.us/nar/.

Health Information Technology (continued)

To participate in the clinical portion of the program, students with “disqualifying” offense(s) will be asked to produce a waiver from the Illinois Department of Public Health for identified offenses. To request a waiver application from IDPH, students may call 217-785-5133. Not all clinical sites accept the IDPH waiver (i.e., Missouri sites), therefore required clinical sites are also surveyed to determine if clinical placement can be accomplished. If a waiver cannot be produced prior to clinicals/program start or survey results indicate clinical sites prohibit the conviction, the student will be removed from the program.

In addition, positive results from the drug test or student listing on prohibitory government registry will also result in dismissal from the program. Note: Positive drug testing results from the use of illegal drugs or prescription medication which the student does not have a prescription. Marijuana, recreational/medical are also considered a positive drug testing result. Dismissal for positive criminal background check, drug test, or listing on a government registry does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program coordinator or the coordinator's assistant prior to seeking admission.

Graduation Requirements

Students must follow the requirements for graduation and must meet all course, degree and sequencing requirements specified. Students are responsible for program policies as listed in each year's HIT Student Handbook. Students who fail to meet program-specific requirements will be dropped from the program and may be required to re-apply and compete for admission in the succeeding year.

A grade of C or better is required for all courses in the degree.

Associate in Applied Science Degree (0023)

First Year

Fall Semester		Semester Credits
BIOL 105	Human Biology I	4
ENG 101	Rhetoric & Composition I	3
HIT 101	Health Information Intro	2
HIT 110	Health Information Nomenclature I	2
HIT 130	Intro to Computers for HIT	3

HIT 161	Microcomputer Applications in HIT	3
Human Relations Elective		3
Total Semester Credits		17-19

Summer Semester		Semester Credits
HIT 245	Pharmacology for HIT	2
Total Semester Credits		2

Course Sequence

The program can be completed in four semesters; however, it is recommended that students who work take General Education Courses (non-HIT-prefixed courses) prior to entrance into the program. These courses include: BIOL 157, ENG 101, approved electives, BIOL 158, COMM 151, PSYC 151, Human Relations Course*. See Course Description Guide (yellow pages of catalog) for the appropriate requisite. All HIT-prefixed courses must be completed before or during semesters indicated, unless permission is given by the program coordinator.

Second Year

Fall Semester		Semester Credits
PSYC 151	General Psychology	3
COMM 151	Fundamental of Public Speaking	3
HIT 200	Health Care Delivery	4
HIT 210	Health Statistics	3
HIT 220	Classification Systems I	4
Total Semester Credits		17

HIT 260	PPE: Professional Practice	2
HIT 270	Health Information Management	4
HIT 240	Classification Systems II	3
HIT 280	Advanced Coding OR	
HIT 285	Advanced Data Analytics	3
HIT 290	HIT Capstone	1
Total Semester Credits		15
Total Program Credits		65-67

Math Selections:

ACCT 105	Basic Accounting Procedures	3
BUS 102	Business Mathematics	3
BUS 205	Economic and Business Statistics	4
MATH 95, 97, 107, 111, 112, 113, 114, 191, 203, 213		4-5

Career Opportunities

Although most HITs work in hospitals, there are also opportunities in office-based physician practices, nursing homes, home health agencies, mental health facilities, public health agencies, health information-related vendors/companies, correctional facilities, zoos and health information exchanges. Any organization that uses patient data or health information such as pharmaceutical companies, law and insurance firms, and health product vendors may employ health information professionals. Job opportunities in this field are good.

Average Starting Salary

The most recent AHIMA survey indicates the average annual salary across the nation is \$60,930. Locally, a HIT average starting salary is \$40,110 annually, depending on the size and location of the health care facility.

Email: Travis.Jumper@swic.edu

The SWIC Heating, Ventilation, Air Conditioning and Refrigeration program prepares students for careers in the HVAR industry. The industry is changing and trained personnel are in great demand.

Students may earn an Associate in Applied Science degree in HVAR or an HVAR Certificate. In addition to the AAS degree that can be earned at SWIC, students may continue their education at Ferris State University and earn an engineering degree in HVAR. The Capstone Program is another option available through Southern Illinois University Carbondale.

All students entering the AAS degree program are required to take the Placement Test prior to entering the program.

Contact the program coordinator or academic advisor for more information.

Important Information

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

Associate in Applied Science Degree (0037)

First Year

Fall Semester	Semester Credits
ENG 101 Rhetoric & Composition I	3
HVAR 100 Fitting, Fusion and Fabrication	4
HVAR 101 Refrigeration & Air Conditioning Principles I	4
HVAR 103 Basic Electrical Controls & Systems	4
Human Relations Course	3
Total Semester Credits	18

Spring Semester	Semester Credits
GT 105 Introduction to Technical Math OR	3
MATH 112 College Algebra (4) OR higher level Math	
HVAR 152 Advanced Refrigeration & A.C. Principles	4
HVAR 153 Heating Fundamentals	4
HVAR 201 Psychrometrics & Load Calculations	4
Total Semester Credits	15

Summer Semester	Semester Credits
HVAR 256 Advanced Elect. Controls & Systems*	4
HVAR 263 Heat Pumps* OR	2
HVAR 280 Commercial Cooking Equipment I*	
Total Semester Credits	6

Second Year

Fall Semester	Semester Credits
HVAR 202 Commercial Refrigeration I	4
HVAR 208 Intro to HVAR Computer Applications	1.5
HVAR 211 Distribution Panels & Elect. Building Wiring	3

ENG 103 Technical Communication OR	3
Communications Course	
HES 151 Personal Health and Wellness OR	2
HES 152 First Aid-Medical Self-Help	
Humanities AND/OR Social Science course	3
Total Semester Credits	16.5

Apply for Graduation Now

Spring Semester	Semester Credits
HVAR 251 Commercial Refrigeration II	4
HVAR 252 Air Conditioning and Htg Sys. Design	4
CMT 244 Occupational Safety & Health I	3
HVAR 258 Natl Electrical Code Interpretation	3
HVAR 260 Refrigerant Transition/Recovery Cert	.5
HVAR 262 Air Delivery Systems Materials & Methods	1
Total Semester Credits	15.5

Total Program Credits	71
------------------------------	-----------

HVAR Certificate (0038)

HVAR 100 Fitting, Fusion and Fabrication	4
HVAR 101 Refrig & A.C. Principles I	4
HVAR 103 Basic Elect. Controls and Systems	4
HVAR 152 Advanced Refrig. & A.C. Principles	4
HVAR 153 Heating Fundamentals	4
HVAR 201 Psychrometrics & Load Calculations	4
HVAR 202 Commercial Refrigeration I	4
HVAR 263 Heat Pumps* OR	2
HVAR 280 Commercial Cooking Equipment*	
HVAR 251 Commercial Refrigeration II	4
HVAR 252 Air Conditioning & Heating Sys. Design	4
HVAR 256 Advanced Electrical Controls*	4
HVAR 258 Natl Electrical Code Interpretation	3
HVAR 260 Refrigerant Transition/Recovery Cert	.5
Total Credits	45.5

Students wishing to transfer to Ferris State University must take PHYS 151 and MATH 112.

All students must complete graduation degree requirements listed in the front of the blue pages of this catalog for an Associate in Applied Science degree. Students in the degree program must satisfy the Illinois-mandated constitution requirement for the A.A.S. degree.

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

*Only offered as a summer course.

Career Opportunities

A graduate of the Heating, Ventilation, Air Conditioning and Refrigeration program is prepared to work as a(n):

- Heating equipment technician
- Air conditioning and refrigeration technician
- HVAR equipment salesperson
- HVAC designer
- Commercial cook equipment repair person

All of the above careers could specialize in:

- Commercial applications
- Residential applications
- Design applications

Horticulture

swic.edu/horticulture

Horticulture Coordinator/Faculty: Kurt Range, ext 5135
Email: Kurt.Range@swic.edu
Cannabis Coordinator/Faculty: Shawn Rakers, ext. 5770
Email: Shawn.Rakers@swic.edu
Dean: Dr. Kimberly Cherry-Vogt, ext. 5050
Email: Kimberly.Cherryvogt@swic.edu

A career in horticulture provides opportunities for employment as a landscape designer; a golf course superintendent; grounds superintendent for a school, college, park, industrial complex or municipality; turf manager for a construction contractor, country club or highway department; retail or wholesale greenhouse operator; floral designer; garden center manager and fruit/vegetable manager.

Students not able to perform the essential functions of the job of a horticulturist may not be able to pass the required courses.

The Cannabis Industry Operations program prepares students for a variety of jobs in the expanding cannabis industry. Students in this program are equipped with the foundational knowledge of cannabis dispensary operations, cultivation center operations, and basic compliance, safety and security standards to pursue immediate employment in the cannabis industry. Due to State of Illinois age restrictions to work in the industry, it is highly recommended students are at least 21 years of age to enroll so they may enter into the workforce post-graduation.

The Cannabis Cultivation and Processing program provides students with an in-depth view of the botany of the cannabis plant, cannabinoid pharmacology, and various cultivation and extraction techniques used in commercial production. Students will get hands-on experience in various plant management methods and utilize current technology employed by industry best practices. Due to State of Illinois age restrictions to work in the industry, it is highly recommended students be at least 21 years old to enroll so they may enter the workforce post-graduation.

See the program coordinator or an academic advisor for more information.

Articulation Agreements

- SIU-Carbondale – BS Horticulture Landscape Specialization
- SIU-Carbondale – BS Horticulture Production Specialization

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Career Opportunities

A graduate of the Horticulture program is prepared to work as a:

- Landscape designer
- Golf course superintendent
- Grounds superintendent for a school, college, park, industrial complex or municipality
- Turf manager for a construction contractor, country club, highway department, sod farm or landscape contractor
- Retail or wholesale greenhouse operator
- Floral designer
- Garden center manager
- Fruit and vegetable retail or wholesale manager

A graduate of the Cannabis Industry Operations program is prepared to work as a:

- Budtender
- Dispensary Agent
- Packaging Associate
- Security Agent
- Facilities Associate

A graduate of the Cannabis Cultivation and Processing program is prepared to work as a:

- Cultivation Technician
- Trimmer
- Processing Technician
- Fulfillment Agen
- Cultivation Assistant Manager
- Lab Assistant
- Fertigation Specialist
- IPM Specialist
- Inventory Control Agent

Human Services Technology

swic.edu/human-services

Coordinator/Faculty: Susan Holbrook, ext. 5198

Email: Susan.Holbrook@swic.edu

Dean: Kristen Ruppert, Ed.D., ext. 5013

Email: Kristen.Ruppert@swic.edu

This online program is designed for students as preparation for advanced study or employment in the human services profession. The Associate in Applied Science online degree program prepares students for paraprofessional employment in the human services field. Students have the option of taking courses in a variety of areas or specializing in youth care, elder care or criminal justice social services.

Many of the courses in this program will also apply toward the first two years of a baccalaureate degree in social work or in a related human services field. Due to differences in four-year institutional program requirements, students are encouraged to consult the program coordinator or an academic advisor for transfer information.

For those already employed in the human services field, courses apply toward continuing education requirements.

Articulation Agreements

- Greenville University – BS Social Work
- Lindenwood University - BSW Social Work
- McKendree University
 - BA Psychology
 - BA Sociology
 - BA Sociology: Children and Families
 - BA Sociology:Criminal Justice
- Southern Illinois University Edwardsville - BSW
- Southern Illinois University Carbondale - BSW
- University of Illinois - BSW
- University of Missouri-St. Louis - BSW Social Work

Important Information

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

Optional areas of specialization:

Youth Care

AOJ	153	Juvenile Delinquency
ECE	112	Growth and Development of Children
ECE	116	Children with Special Needs
PSYC	250	Child Development
PSYC	251	Adolescent Development
SOC	255	Sociology of the Family

Elder Care

HRO	150	Fundamentals of Nutrition
PSYC	210	Life Span Development
PSYC	253	Adult Development and Aging
PSYC	254	Death and Dying

Criminal Justice Social Services

AOJ	100	Intro to Administration of Justice
AOJ	160	Criminology
AOJ	203	Criminal Law and Administration of Justice
AOJ	251	Rules of Criminal Evidence
SOC	210	Criminological Theory

Career Opportunities

The Associate in Applied Science program prepares students for employment as entry-level, paraprofessional human services workers. Human services workers are employed by public and private social service agencies and organizations in many specialized areas such as:

- Youth care
- Elder care
- Criminal Justice

Industrial Electricity Programs

swic.edu/electrical

Coordinator: Nicholas Weatherly, ext. 7305

Email: Nicholas.Weatherly@swic.edu

Dean: Dr. Travis Jumper, ext. 7457

Email: Travis.Jumper@swic.edu

Developing, building, installing and maintaining ever-expanding and increasingly complex electrically-driven technologies will require well-trained electrical technicians who have a solid foundation and skills in electrical and electronic theories, devices, equipment and systems. These skilled technicians are needed and will continue to be needed in the future at all levels from product development through maintenance. The Industrial Electricity program at SWIC is designed to provide students with the necessary skills and knowledge to become employed as an in-demand electrical technician.

Employers value the balanced treatment of topics included in the college's Industrial Electricity curriculum. Students cover the spectrum from basic electrical concepts, to operation and application of common electrical/electronic devices, to current trends in industrial and electronic equipment, systems and design, to estimating of electrical systems. Employers know a graduate of the Industrial Electricity program can function in a real-world setting, has the foundation of electrical knowledge and skills required to easily adapt to and learn employers' particular equipment and systems, and can handle the lifelong learning required of today's technician.

Additionally, because of the universal nature and application of electricity and electronics, graduates who have a strong foundation in the electrical/electronics field can easily expand their skills and knowledge into other career areas to become multi-skilled craftsman.

Students can earn a Certificate of Proficiency or Associate in Applied Science degree. After graduation, a student will be qualified for entry-level employment in any aspect of the electrical/electronics career field that involves the development, design, estimation, manufacture, test, installation, repair and maintenance of electrical and electronic equipment and systems.

Math and English Course Placement:

All degree-seeking students are required to be assessed and placed in the appropriate math and/or English classes. For more information, please refer to the Math and English Course Placement section in this catalog.

In addition, a student can earn a bachelor's degree by transferring to a college which accepts the Associate in Applied Science degree and offers the Bachelor of Science in technology or comparable degree.

Total Credits			12

**Entry in the Microcomputer Hardware Maintenance Certificate program requires basic electronics courses or program coordinator approval.

Career Opportunities

A graduate of the Microcomputer Hardware Maintenance Certificate program is prepared to work in any of the following areas:

Microcomputer Hardware Maintenance Program

- Computer repair technician
- Computer service technician
- Computer, automated teller, and office machine repairer
- Customer service technician

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Industrial Maintenance Mechanics

swic.edu/maint-mech-industrial

Coordinator: Nicholas Weatherly, ext. 7305
Email: Nicholas.Weatherly@swic.edu
Dean: Dr. Travis Jumper, ext. 7457
Email: Travis.Jumper@swic.edu

The Industrial Maintenance Mechanics program prepares students with the skills and experience necessary to enter the workforce as an entry-level mechanic in an industrial facility. Students will learn multiple disciplines which include machining, pipefitting, mechanical, welding and electricity. Industrial maintenance mechanics maintain and repair a variety of equipment used in many different plants such as steel mills, oil refineries, power plants, and food and beverages industries. Because factories and other facilities cannot afford to have machinery out of service for long periods, industrial maintenance mechanics are there to keep the equipment maintained and running.

Legal Studies

swic.edu/paralegal

Coordinator/Faculty: Melody Schroer, J.D., ext. 5494
Email: Melody.Schroer@swic.edu
Dean: Darrell Robin, Ed.D., ext. 5227
Email: Darrell.Robin@swic.edu

Legal Studies

The Legal Studies offerings at SWIC unite the distinct yet complementary pathways of Paralegal Studies and Legal Administrative Assistant training. Designed to prepare highly skilled professional for critical roles in the legal field, our curriculum goes beyond conventional education to provide practical, hands-on experience.

Paralegal Studies

Paralegals (or Legal Assistants) provide support to lawyers by assisting with research and preparing court documents. They often meet with clients and serve as the point of contact between the lawyer and client. They can investigate facts, conduct legal research, and help attorneys prepare cases for trial. They can also draft documents such as contracts and wills, under the supervision of the attorney.

The mission of the Paralegal Program is to prepare students for gainful employment in law firms or law related fields by utilizing a technology-based curriculum that emphasizes writing and research skills, as well as critical thinking skills. We also emphasize practical applications which the students can expect to encounter in the workplace, recognizing the need to remain current in technology utilized in the legal field. By assessing student performance, the program ensures that paralegal graduates will possess the skills required by the legal community to meet its employment needs. In addition, the program fosters a commitment to lifelong learning as a critical component to career success.

Courses in the Paralegal Studies program are taught by licensed attorneys and practicing paralegals. Students can take courses in person or online. For those who wish to continue their education beyond the Associate Degree, we offer articulation agreements with the following schools.

Articulation Agreements

- SIU Carbondale – BS Paralegal Studies
- Webster University – BA Legal Studies
- University of Illinois Springfield - BA Legal Studies

See the program coordinator or an academic advisor for more information.

Legal Studies(continued)

Accelerated Degree Option

Anyone who has completed an associate or bachelor's degree from a regionally accredited college may earn an Associate in Applied Science degree in Paralegal Studies by completing at least 30 semester credits of program-related coursework. A plan of specific courses required for the degree will be dependent on the previous degree obtained by the accelerated degree candidate. It will be necessary to meet with the program coordinator to determine the exact courses required for degree completion. This plan must be approved by the dean and the chief academic officer.

Career Opportunities

Paralegals work in all areas of law, including civil litigation, corporate law, real estate, family law, environmental litigation, and criminal matters. Many work in law firms, but there are also positions in government, corporate legal departments, insurance agencies, non-profit organizations, and human resources.

Students who plan to apply to law school must complete a Bachelor's Degree and are encouraged to consider a discipline that requires critical thinking, verbal and written communication skills, and knowledge of technology. Admission to law school requires that an applicant take the Law School Admission Test (LSAT).

Certificate Program

Legal Administrative Assistant (088A)

The Legal Administrative Assistant program is designed to prepare students for entry-level positions in the legal support field. The program blends traditional office administration skills with computer technology and applications specific to the law office. Additionally, the program is designed to enable those who wish to transition into the paralegal program to do so seamlessly upon completion of their certificate.

The Management Associate in Applied Science degree program focuses on developing the knowledge and skills needed to perform the four basic functions of management: planning, organizing, leading and controlling. The knowledge and skills gained through this program are applicable in a wide range of industries in which graduates may pursue entry-level management positions.

The Management AAS curriculum includes accounting, marketing and management coursework. Ethics and communications skills are emphasized as well.

The courses required for the degree program are listed below. This is a sample schedule. Course availability will vary from semester to semester. Contact an academic advisor or the program coordinator for more information including the master course schedule.

Course availability varies from semester to semester. Ask an academic advisor or the Business Division for a master course schedule.

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Career Opportunities

A successful graduate of the Management AAS program is prepared to work in administrative and entry-level supervisory positions in a small business. Graduates with an interest in starting a business have the knowledge to prepare a detailed business plan. For more job market information, go to the Bureau of Labor Statistics website at www.bls.gov/.

Logistics and Supply Chain Management (049G)

The Logistics and Supply Chain Management certificate is designed to provide the student with a holistic education covering Logistics, Supply Chain Management and Warehousing. Logisticians analyze and coordinate an organization's supply chain system that moves a product from supplier to consumer. They manage the entire life cycle to include how a product is acquired, distributed, allocated, and delivered.

Coordinator/Faculty: Nikki Hensley, ext. 5382
Email: Nicolyn.Hensley@swic.edu
Dean: Darrell Robin, Ed.D., ext. 5227
Email: Darrell.Robin@swic.edu

The Marketing and Graphic Communications Associate in Applied Science is designed to train students with a skill set that blends creative visual design with strategic marketing principles. This interdisciplinary approach prepares graduates for various roles in today's visually-driven business world. Students develop a strong foundation in visual communication, learning design principles, typography, color theory, image manipulation, and layout techniques. They gain proficiency in industry-standard software like Adobe Photoshop, Illustrator, and InDesign. Students cover essential marketing concepts, including market research, consumer behavior, branding, advertising, digital marketing, search engine optimization, social media marketing, and content creation. The program emphasizes the connection between design and marketing, teaching students how to create effective visual materials that support marketing strategies and achieve business objectives.

Important Information

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

Massage Therapy

swic.edu/massage-therapy

Coordinator: Tamara Bivin, BCTMB, LMT
Email: Tamara.Bivin@swic.edu
Dean: Curt Schmittling, ext. 5351
Email: Curt.Schmittling@swic.edu

Program Location:
The Body Therapy Center & School of Massage
4 Executive Woods Court
Swansea, IL 62226
618-239-6400
Owner & Director: Holly I. Pinto, BS, LMT, RCST

Career Overview

The Massage Therapy program is designed to provide students with a strong, comprehensive foundation for practice as a massage therapist. MTs are involved in hands-on care intended to promote healing, relieve stress, manage pain and improve circulation. They work by appointment and when self-employed supply the tables, chairs, sheets, pillows, body lotions/oils, etc. needed for treatment. The massage therapist interviews and assesses each client to determine a treatment plan, which may include specialized massage techniques and complimentary techniques, such as spa treatments. Massage therapists establish clear boundaries with their clients to create a safe and effective healing environment. To develop and maintain a successful massage therapy practice, they also must have good communication skills, effective business practices, and an appreciation of the body, mind and spirit connection. For further information regarding the field of Massage Therapy, refer to the American Massage Therapy Association website at www.amtamassage.org, or the U.S. Department of Labor Outlook handbook at www.bls.gov/ooh/.

Contact the program coordinator or an academic advisor for more information about enrolling into this program.

About the Program

- Two-semester certificate program or two-year Associate in Applied Science degree
- Fall and spring semester starts
- Students must be eligible for ENG 101
- MT courses are offered at The Body Therapy Center and School of Massage in Swansea

Certification/Licensure Requirements

Upon successful completion of the Massage Therapy curriculum, graduates are awarded a Massage Therapy Certificate and are eligible to take the Massage & Bodywork Licensing Exam (MBLEX) through the Federation of States Massage Therapy Boards, in order to apply for licensure. The states of Illinois and Missouri require successful completion of the MBLEX state test in order to apply for licensure. In addition, students are required to submit to a criminal background check and provide verification of fingerprint processing by an approved agency. The laws regarding massage therapy practice vary from state to state; refer to the AMTA website for more information, www.amtamassage.org/about/lawstate.html.

Program Overview

The Massage Therapy Certificate program is a 27-semester-credit program, which can be completed in two semesters. Courses include MT technical courses and clinical experiences/practicums. The curriculum includes: anatomy, physiology and pathology, massage techniques, including Western and non-Western philosophies, kinesiology basics, client assessment, specific therapeutic massage applications and hydrotherapy. The curriculum also includes the professional standards, ethics, business and legal practices related to massage therapy. The MT certificate program begins each fall and spring semester at The Body Therapy Center and School of Massage in Swansea, Illinois. Clinical practicum courses provide students provide massage to real clients and are completed at The Body Therapy Center and School of Massage and off-site locations for special events. Students may periodically be required to travel outside of the college district for clinical practicum. Practicum hours may be completed during the day, evening and/ or weekend.

Degree Option

The college also offers an Associate in Applied Science degree in Massage Therapy. The AAS in MT degree is a 60-semester- credit program. It includes general education courses to enhance skills in communication, social and behavioral sciences, information systems, and specialized areas of massage therapy practice.

Enrollment Procedures

The Massage Therapy program is open to any student who is a high school graduate or earned a high school diploma certificate and eligible for ENG 101. To enroll, students must complete each of the following:

- Attend the new student orientation.** Orientation sessions are held at The Body Therapy Center, 4 Executive Woods, Swansea. At orientation, students will complete a SWIC registration form to enroll in classes. **Students may not register without the MT program coordinator's permission.**

General Information:

- Coordinator permission is required before enrolling in the first semester of the MT program. Contact Tamara Bivin at 618-239-6400 or tamara.bivin@swic.edu.
- Students qualifying for enrollment must attend all required orientation sessions, meet program-specific medical requirements and must be able to perform the essential functions of the job with or without reasonable accommodations. The essential functions of the job are listed in the MT Student Handbook and at swic.edu/massage-therapy_in the Job Description link. Any interested students are encouraged to meet with the Student Accessibility & Support Services to discuss potential issues associated with meeting these requirements at 618-235-2700, ext. 5368.
- Students should check the location and schedule of classes to ensure their own availability and access to classes. Students are responsible for their own transportation and attendance at any of the classes and practicums assigned by the program.
- The MT courses are offered at The Body Therapy Center and School of Massage, 4 Executive Woods Court, Swansea, IL 62226. Periodically some MT courses may be moved to the Belleville Campus as needed. General

Massage Therapy (continued)

education courses can be taken at the Belleville, Red Bud or Sam Wolf Granite City campuses.

- E. Students that enroll in this the program must follow requirements for graduation at the time they are admitted and must meet all course, program, degree and sequencing requirements as specified. Students are responsible for program policies as listed in each year's MT Student Handbook. Students who fail to meet program specific requirements will be dropped from the program and may be required to enroll again the following semester/year. **All courses for the massage therapy certificate must be completed within a two-year period.**
- F. Students will be required to complete a physical examination before beginning any clinical practicum.
- G. The MT program begins each summer and spring semester. Classes are held in the evening for summer semester starts and in the morning for spring semester program starts. Twenty seats are available each summer and spring. All courses must be completed during the semesters indicated, unless permission is given by the program coordinator. A grade of C or better is required for all courses in the certificate.
- H. All massage tables, chairs, pillows and supplies are provided by the school. Students are required to purchase their own sheets and pillow case(s). Attire for clinical practicum is black pants and solid color tops.

Associate in Applied Science Degree (027B)* and Certificate (027A)

Massage Therapy Certificate (027A) can be completed in two semesters (Spring & Summer OR Fall & Spring). See Program Coordinator, or advising for schedule with spring start.

Total Program Credits 60

The college also offers an accelerated Massage Therapy Certificate opportunity for graduates of accredited physical therapist/physical therapist assistant programs. Interested students should contact the program coordinator for further information.

Career Opportunities

A large percentage of massage therapists are self-employed, although other employment settings include chiropractic offices, health clubs/fitness centers, spas/salons, resorts, massage therapy clinics, sports medicine centers, hospitals, corporations and stress reduction centers. Approximately 60 percent of massage therapists work part time due to the physical demands of the occupation.

Average Starting Salary

Based on local markets, a new graduate working as an independent contractor can earn \$30-\$75 per hour. Working for an hourly wage, such as at a clinic or spa, the earnings are generally \$18-\$35 per hour. A self-employed massage therapist with increased skill and a larger client base will have the highest earnings.

Articulation Articulation Agreement

- Maryville University – BS Healthcare Practice Management

Career Overview

The SWIC Medical Assistant program prepares graduates to provide both administrative and clinical services in a medical office. Medical assistants have a moderate level of patient contact. The specific duties of a medical assistant will vary depending on the legal requirements of the state and on the training, skill level and capabilities of the medical assistant. Administrative duties may include: managing the flow of patients in and out of the office, updating and filing medical records, filling out insurance information, arranging for hospital admission or laboratory services, and billing. Under the direct supervision of a licensed professional such as a physician, they also provide direct, hands-on patient care procedures. These procedures may include: monitoring vital signs, explaining treatment procedures, preparing patients for examinations, sterilizing instruments and/or performing routine laboratory procedures and electrocardiograms. For further information regarding the field of a medical assistant, refer to the American Association of Medical Assistants website at www.aama-ntl.org.

About the Program

- Options: one-year certificate or two-year Associate in Applied Science degree
- Admission in fall and spring semester

Certification Requirements

Upon successful completion of the one-year MA curriculum, graduates are awarded a Medical Assistant Certificate and are eligible to take the National Certification exam to become a certified medical assistant.

Program Accreditation

The SWIC Medical Assistant Certificate program is accredited by the Commission on Accreditation of Allied Health Education Programs, website: www.caahep.org upon recommendation of the Medical Assisting Education Review Board. The program's curriculum is guided by the standards developed by the commission. Our accreditation status means SWIC has met the standards required of the profession and helps to assure the public that our curriculum will graduate competent clinicians. It also qualifies the college's MA graduates to sit for the MA certification examination.

Degree Option

The college also offers an Associate in Applied Science degree for medical assistants to enhance their skills in finance, management, communication and interpersonal relations. Completion of the degree often assists the MA in attaining a supervisory role in the medical office.

Program Location

The Medical Assistant Certificate program consists of courses beginning with the prefix MA only, while the degree program consists of general education courses and MA-prefix courses. Both programs include clinical/practicum experience. Specific locations depend on the course type.

1. The general education courses can be taken at the Belleville, Red Bud or Sam Wolf Granite City campuses.
2. The MA courses are only offered at the Belleville Campus, East St. Louis Campus and Sam Wolf Granite City campus during the day after acceptance into the program.
3. Clinical/Practicum experience is completed at clinical facilities throughout the district and in the St. Louis region. Students may be required to travel outside the college district for clinical experience courses. Specific clinical placement cannot be guaranteed.

Students should check location and schedule of classes to ensure availability and access. Students are responsible for their own transportation and attendance at any of the classes and clinicals assigned by the program.

Time Commitment

Students who enroll full-time will attend school four to five days per week through the one-year program. If planning to attend part time, students must meet with the program coordinator to develop a schedule for program completion. Although students may take up to three years to complete the program, it is **STRONGLY** discouraged as many students have difficulty retaining knowledge/skills of materials taught in earlier semesters.

Whether students attend full time or part time, all students must be available 30-40 hours per week during normal office hours to complete the clinical/ practicum portion of the program which is a total of 200 hours of practical experience. Clinical practice/ practicum begins after completion of all coursework. MAERB and CAAHEP have strict non-remuneration policy for practicum sites and students. Practicum sites cannot pay students for their time nor can students be provided with a travel allowance or a meal allowance or any other perk that involves the exchange of funds. All clinical experience must be completed to sit for the national certificate examination.

Orientation & Performance

Enrolled students must attend all required orientation sessions and be able to perform the essential functions of the job with or without reasonable accommodations. The essential functions can be found at swic.edu/medical-assistant-performance-essentials. Enrolled students are encouraged to contact the Student Accessibility & Support Services to discuss potential issues associated with meeting these requirements at 618-235-2700, ext. 5386.

Health Insurance

Health insurance is recommended during clinical education courses. Students are personally responsible for any costs incurred for injuries occurring during their clinical experience.

Medical/Health Requirements

MA students will be required to possess current CPR certification at the Health Care Provider level and show proof of immunizations, tuberculosis test and physical examination before beginning any clinical practicum. These requirements do not have to be fulfilled until further explained at the program orientation meeting.

Medical Assistant (continued)

Background Checks and Drug Testing

Criminal background check, random drug test and name search on government registries which prohibit employment in health care professions are required in SWIC Health Sciences programs. Program start is contingent upon meeting deadlines for completion of the screening and results which allow the student to participate in the clinical portion of the program. Details and directions for accessing and purchasing online screening for background checks are shared with accepted students. Background checks are conducted for every state in which the student has worked or resided since the age of 18 years. Conviction of offenses in the following areas normally prohibit the student from participation in the clinical portion of the program and will result in program dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of offenses at www.idph.state.il.us/nar/.

To participate in the clinical portion of the program, students with "disqualifying" offense(s) will be asked to produce a waiver from the Illinois Department of Public Health for identified offenses. To request a waiver application from IDPH, students may call 217-785-5133. Not all clinical sites accept the IDPH waiver (ie. Missouri sites), therefore required clinical sites are also surveyed to determine if clinical placement can be accomplished. If a waiver cannot be produced prior to clinicals/program start or survey results indicate clinical sites prohibit the conviction, the student will be removed from the program.

In addition, positive results from the drug test or student listing on prohibitory government registry will also result in dismissal from the program. Note: Positive drug testing results from the use of illegal drugs or prescription medication which the student does not have a prescription. Medical marijuana, which is not FDA approved, is also considered a positive drug testing result.

Dismissal for positive criminal background check, drug test, or listing on a government registry does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program coordinator or the coordinator's assistant prior to seeking admission.

Graduation Requirements

Students must follow the requirements for graduation and meet all course, degree and sequencing requirements specified. Students are responsible for program policies as listed in each year's MA Student Handbook. Students who fail to meet program specific requirements will be dropped from the program and may be required to re-apply and compete for admission in the succeeding semester.

A grade of C or better is required for all courses in the degree.

All students completing an AAS degree must complete graduation degree requirements in the front section of the blue pages of this catalog as well as the requirements specified for Human Relations coursework. Health requirements are satisfied by students successfully completing BIOL 105, PSYC 151 and this health science curriculum.

Important Information

The following semester sequence is designed as a guide for students enrolled full time. Students planning to attend part time must meet with the program coordinator to develop a schedule. Course requisites will affect course sequencing. Please refer to the *Course Description Guide* (yellow section) of this catalog for course requisites.

Career Opportunities

Medical assistants work in a wide range of medical facilities. Traditionally, they work in ambulatory care centers, urgent care facilities and physician's offices, medical assistants are now also finding employment in hospitals and inpatient/outpatient facilities. The cross-training of the medical assistant in administrative and clinical duties frequently makes the MA more marketable than individuals specializing in office management only. The Bureau of Labor Statistics projects medical assisting to be one of the fastest growing occupations for the 2014-2024 period.

Average Starting Salary

Based on graduate feedback, starting salaries are about \$37,440 annually. Salaries vary depending on the facility, and the training and skills of the MA. **Certified medical assistants make approximately 5-10 percent more than noncertified MAs.**

Medical Laboratory Technology

swic.edu/medical-lab

Coordinator/Faculty: Dianne Iberg, ext. 5386
Email: Dianne.Iberg@swic.edu
Dean: Curt Schmittling, ext. 5351
Email: Curt.Schmittling@swic.edu
Administrative Assistant: Candice Rodgers, ext. 5355

Career Overview

The SWIC Medical Laboratory Technology program prepares students with the skills required for an entry-level position in a clinical laboratory. Medical laboratory technicians perform hands on science on patient samples to provide valuable diagnostic information to the physician. Patient contact is limited except for specimen collection. Tasks include manual cell counts and microscopic examination, growing and identifying microorganisms and operating advanced analytical instrumentation. MLT students are qualified to work in clinical hospital laboratories, industrial laboratories and forensic laboratories. Advancement is available within the clinical laboratory field with advanced degrees, or as service and sales for nationwide organizations. The MLT offers a good foundation for further education in nursing, physician's assistant or a number of other medical fields. Enjoy a flexible hours and tuition reimbursement for further education from a large number of employers.

For more information on the field visit
<https://ascls.org> or <https://www.ascp.org>

About the Program

- Two-year Associate in Applied Science degree
- Completion of biology and algebra in high school or college is required prior to application
- Applications accepted September 1 to August 1 for selective admission in the fall and spring at the Belleville campus.
- Online application available in eSTORM Student Center
- Both traditional face-to-face and flexible hybrid lecture teaching formats are available in many classes. (Lab components and clinical experiences are not available online or as hybrid)
- To discuss the application requirements, email the Program Coordinator Dianne Iberg at dianne.iberger@swic.edu

Certification Requirements

Upon successful completion of the program, graduates are awarded an Associate of Applied Science (AAS) degree in medical laboratory technology. Students should prepare to sit for the American Society for Clinical Pathology (ASCP) board of certification American Medical Technologists exam within one year of completing the program. The AAS in MLT is not dependent on passing the BOC. However, employers nationwide generally require that employees complete a national certification exam prior to or within a short time of hire. Pass rates for the certification are consistently above the 80 percent mark with many years seeing a 100 percent pass rate.

Program Accreditation

The SWIC Medical Laboratory Technology program is accredited by the National Accrediting Agency for Clinical Laboratory

Sciences, NAACLS. Accreditation status indicates that the program's curriculum is guided by the standards developed by NAACLS to ensure competence of clinical scientists. It qualifies SWIC graduates to sit for the certification examination offered by the American Society of Clinical Pathologists and recognized nationwide.

For further information contact NAACLS:
5600 N. River Road Suite 720, Rosemont, IL 60018
Phone: 773-714-8800
Website: www.NAACLS.org
Email: info@NAACLS.org

Admission Procedures/ Application Requirements

The admission procedures for the MLT program are in accordance with Illinois law. The law requires that programs not having sufficient space and resources to accommodate all applicants will accept those applicants best qualified, using rank, ability and achievement test scores as guides, with preference given to students residing in the district. Out-of-district students will be considered as in-district status for this application process if their community college has an Interdistrict Cooperative/Career agreement with SWIC. To qualify for the application process, students must submit paperwork from their local community college to SWIC Enrollment Services by the application deadline. Contact the secretary of the Board of Trustees at your community college to get the required paperwork. Students must apply and be formally accepted into the Medical Laboratory Technology program before enrolling in MLT-prefixed courses. There are no waiting lists for admission to any Health Sciences program. If not admitted, interested applicants must re-apply the following year. **Refer to the MLT Application Planning Guide for specific application requirements and to enhance your potential for admission to this program. Application Planning Guides are located on the Medical Laboratory Technology webpage. All applicants are strongly encouraged to make an appointment with MLT coordinator at 618-235-2700, ext. 5386.**

Selection of Applicants for Admission

Selection of qualified applicants for the Medical Laboratory Technology program will be based upon a numerical ranking procedure, using ACT/SAT scores, high school and/or college grades and the percentage of those general education courses required for graduation completed prior to admission with a grade of B or better. To obtain more information on the entrance requirements for the Medical Laboratory Technology program, call or visit an academic advisor, Belleville Campus, 2500 Carlyle Ave., 618-235-2700, ext. 5206; Red Bud Campus, 500 W. South Fourth St., 618-282-6682, ext. 8114; or the Sam Wolf Granite City Campus, 4950 Maryville Road, 618-931-0600, ext. 7333.

Applicants will be notified of their status regarding admission as quickly as is possible given the number of applications received. **In the event that there are fewer qualified candidates than there are spaces available, applications will continue to be accepted until the program's maximum capacity has been reached or until the first week of MLT classes during the spring semester.** Contact Enrollment Services at 618-235-2700,

Medical Laboratory Technology (continued)

ext. 5455, to obtain information of a possible application deadline extension. The college reserves the right to fill the program in those years when there are fewer applicants than spaces available by whatever means it deems necessary to assure both academic integrity and fairness in the selection process.

In the event that there are more qualified applicants than spaces available in this program, those applicants residing outside District No. 522 or in a district that does not have a joint agreement with SWIC for this program, will not be eligible for consideration or admission if there are more applicants than positions to be filled. Resident status is determined by address on file with Enrollment Services by May 1.

Program Capacity

The Medical Laboratory Technology program class size is based in part on the number of available clinical locations. The MLT program accepts a minimum of 14 students for each graduating class.

Program Location

The Medical Laboratory Technology program consists of general education courses, MLT-prefix courses and assigned clinical practice courses. Specific locations depend on the course type.

1. The general education courses can be taken at the Belleville, Red Bud or Sam Wolf Granite City campuses and can be completed prior to admission, but **this is generally not indicated**. Discuss with an academic advisor or the MLT program coordinator.
2. The MLT courses are only offered at the Belleville Campus during the day of the semesters indicated on the degree outline, after acceptance into the program. All 200 level courses feature hyflex lectures, students may choose to attend traditional face-to-face sessions, attend sessions virtually using Microsoft TEAMS or complete lecture material asynchronously as online learning. All laboratory and clinical hours are mandatory in person.
3. Clinical practice courses are completed at hospitals/clinical facilities throughout southern Illinois and in the St. Louis region. Students may be required to travel outside the college district for clinical experience courses.

Applicants should check location and schedule of classes to ensure availability and access. Students are responsible for their own transportation and attendance at any of the classes and clinicals assigned by the program.

Orientation & Performance

Applicants accepted into this program must attend all required orientation sessions and be able to perform the essential functions of the job with or without reasonable accommodations. The essential functions can be found at swic.edu/mlt-performance-essentials. Applicants or enrolled students are encouraged to contact the Student Accessibility & Support Services at 618-235-2700, ext. 5368, to discuss potential issues associated with meeting these requirements.

Medical/Health Requirements

All MLT students will be required to provide proof of medical exam (AAS only), applicable testing, immunizations and vaccinations. Students must provide proof of health insurance coverage or sign a waiver indicating ability to pay for medical

expenses incurred during classroom or clinical experiences. These requirements do not have to be fulfilled prior to admission and are further explained upon acceptance to the program.

Background Checks and Drug Testing

Criminal background check, random drug test and name search on government registries which prohibit employment in health care professions are required in SWIC Health Sciences programs. Program start is contingent upon meeting deadlines for completion of the screening and results which allow the student to participate in the clinical portion of the program. Details and directions for accessing and purchasing online screening for background checks are shared with accepted students. Background checks are conducted for every state in which the student has worked or resided since the age of 18 years. Conviction of offenses in the following areas normally prohibit the student from participation in the clinical portion of the program and will result in program dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of offenses at www.idph.state.il.us/nar/.

To participate in the clinical portion of the program, required clinical sites will be surveyed to determine if clinical placement can be accomplished for students with “disqualifying” offense(s). If the survey results indicate clinical sites prohibit the conviction, the student will be removed from the program.

In addition, positive results from the drug test or student listing on prohibitory government registry will also result in dismissal from the program. Note: Positive drug testing results from the use of illegal drugs or prescription medication which the student does not have a prescription. Medical marijuana, which is not FDA approved, is also considered a positive drug testing result.

Dismissal for positive criminal background check, drug test, or listing on a government registry does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program prior to seeking admission.

Graduation Requirements

Applicants admitted to the program must follow the requirements for graduation at the time they are admitted and must meet all course, program, degree and sequencing requirements specified. Students are responsible for program policies as listed in each year's MLT Student Handbook. Students who fail to meet program specific requirements will be dropped from the program and may be required to re-apply and compete for admission in the succeeding year.

A grade of C or better is required for all courses in the degree. All students completing an AAS degree must complete graduation degree requirements in the front section of the blue pages of this catalog as well as the requirements specified for Human Relations coursework. Completion of the Board of Certification exam does not impact program completion. Health requirements are satisfied by students successfully completing BIOL 157 and 158, PSYC 151 and this Health Sciences curriculum.

Medical Laboratory Technology (continued)

For specific information concerning MLT program pass rate, degree completion, attrition rates, or job attainment/continuance of education, refer to swic.edu/mlt-performance-essentials.

Course Sequence

The program can be completed in four semesters and two summers. For information on course requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

The Program can be completed in four semesters and a summer. Due to the academic rigor of the MLT program, students are encouraged to complete the required biology and chemistry courses prior to enrolling in MLT 200 level classes. For information on course requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

*Recommend enrolling in CHEM 105 and CHEM 106 if pursuing a bachelor's degree after completion of this AAS degree. CHEM 101 and 103 transfer as elective credit only.

**See front pages of AAS degree requirements for the listing of Human Relations Elective options.

***MLT 100 may be substituted for MLT 130. Contact program coordinator.

Career Opportunities

Nationally, about 50 percent of MLTs are employed in hospital laboratories; the remainder work in independent labs, physicians' offices, public health agencies, the federal government, pharmaceutical and industrial firms, research and educational institutions. Ninety-five percent of SWIC's Medical Laboratory Technology graduates are working in hospital medical laboratories. Job opportunities continue to grow as the elderly population continues to increase.

Average Starting Salary

Based on graduate feedback and industry surveys, starting salaries average about \$40,000-\$50,000 annually. Salaries vary depending on the size and location of the health care facility. Salaries are higher when working on the second or third shifts.

Medical Laboratory Technology (continued)

Phlebotomy Certificate Program (021B)

This program provides training to beginning phlebotomy students. Students must complete MLT 100 Intro to Phlebotomy Procedures, followed by MLT 242, Phlebotomy Clinical. The Phlebotomy Clinical requires 80 hours of supervised experience with placement dependent upon availability of clinical facilities. A criminal background check and random drug test are also required prior to clinical experience. Students with positive results from either criminal background check or drug test will be dismissed with no refund of tuition or lab fees.

Those who successfully complete the following courses will be awarded a certificate of program proficiency. All courses require a grade of C or better.

Through 12/31/2027:

First Semester		Semester Credits
MLT	100 Introduction to Phlebotomy Procedures	2
MLT	242 Clinical Phlebotomy (80 hour clinical)	2
Total Credits		4

Effective 1/1/2027:

MLT	101 Phlebotomy Certification	4
Total Credits		4

Career Opportunities

Completion of the Phlebotomy Certificate will prepare the graduate to work as a phlebotomist in a physician's office, hospital, clinic or independent laboratory.

Medical Laboratory Assistant (022A)

In one semester, the Medical Laboratory Assistant program prepares graduates to perform basic preanalytic skills as a clinical laboratory professional. Medical Laboratory Assistants have limited patient contact, except when drawing blood. Assistants will learn how to order, collect, and process specimens in addition to the basics of laboratory testing with emphasis on quality control and good analytical practices. Courses from the certificate will bridge the Medical Laboratory Technology AAS degree. **See the program coordinator or an academic advisor for more information.**

Fall/Spring Semester		Semester Credits

Total Credits		7-8

Career Opportunities

Completion of the Medical Laboratory Assistant certificate will prepare the graduate to work in a hospital, clinic or independent laboratory.

Medical Surgical Technology

swic.edu/mst

Coordinator/Faculty: Tamara Santarelli, ext. 7326

Email: Tamara.Santarelli@swic.edu

Dean: Curt Schmittling, ext. 5351

Email: Curt.Schmittling@swic.edu

Administrative Assistant: Candice Rodgers, ext. 5355

Career Overview

The SWIC Medical Surgical Technology program prepares students to gain theoretical knowledge and develop skills necessary to become a certified medical surgical technologist. Surgical technologists prepare surgical supplies and equipment, maintain aseptic and sterile conditions and assist the surgical team in peri-operative settings. Surgical technologists can gain employment in hospital, outpatient, and/or privately-owned surgical departments along with organ procurement centers and central supply processing units. For further information regarding the medical surgical technology field, please go to the Occupational Outlook Handbook at: <https://www.bls.gov/ooh/healthcare/surgical-technologists.htm>

- Five-semester Associates of Applied Science degree (AAS)
- Selective admission for program acceptance
- Offered Spring semester
- Enrolled in October for Spring classes
- To enroll, recommended completion of the following high school coursework to prepare for a health science occupation: Four years in English, algebra and geometry, biology, and social science courses.

The program is designed to include classroom education, laboratory/simulation, and clinical experience in a healthcare setting.

Degree Requirements

Upon successful completion of the Medical Surgical Technology curriculum, graduates are awarded an Associate of Applied Science (AAS) degree. Graduates of the Medical Surgical Technology curriculum are eligible to take the national board exam offered by the National Board of Surgical Technology and Surgical Assisting (NBSTSA). To work in Illinois, graduates of the program must provide proof of graduation from a Medical Surgical Technology training program.

Enrollment Requirements

To enroll in medical surgical technology courses, students must meet the application requirements. Application paperwork must be submitted to SWIC Enrollment Services by the application deadline. The admissions procedures for the MST program are in accordance with Illinois law. To obtain information about a readiness visit, contact an academic advisor.

Student should be aware they must pass a criminal background check and drug testing to participate in required clinical experience courses. Additionally, students must present current vaccination records meeting the program's contracted clinical site requirements.

Program Capacity

The Medical Surgical Technology program has capacity for approximately 10 students admitted each academic year at the Sam Wolf Granite City Campus. Seats available are dependent on meeting application requirements and on clinical availability.

Program Location

The Medical Surgical Technology program consists of MST-prefix courses, general education coursework, and assigned clinical internships. Specific locations depend on the course.

1. The MST courses are offered at the Sam Wolf Granite City Campus.

2. Clinical experiences may be scheduled during the day at hospitals/clinics or privately-owned facilities throughout Southern Illinois and in the St. Louis region. Students may be required to travel outside the college district for clinical internship courses. Specific clinical placement cannot be guaranteed, and specific clinical schedules may be changed during courses.

Students are responsible for their own transportation and attendance at any of the classes and clinicals assigned by the program.

Orientation & Performance

Students must attend the required orientation session prior to program start, meet program-specific medical requirements, be able to perform the essential functions of the job as listed in the Student Handbook or at swic.edu with reasonable accommodations if needed, and submit results of a background check, drug screen and the required immunizations by the required date as presented in the orientation session. Any applicants or enrolled students are encouraged to contact the Student Accessibility & Support Services at 618-235-2700, ext. 5368, to discuss potential issues associated with meeting these requirements. Students not able to perform the essential element of the job of a medical surgical technologist position may be unable to pass the required courses. Other program-specific restrictions may apply.

Health Insurance

Health insurance is required during clinical Medical Surgical Technology courses. Students are personally responsible for any costs incurred for injuries occurring during clinical experience in their role as a medical surgical technology.

Medical/Health Requirements

Admitted students will be required to show proof of immunizations, tuberculosis test and before beginning any clinical experience. These requirements do not have to be fulfilled until after the program orientation meetings, but must be fulfilled by the required deadline.

Background Checks and Drug Testing

Criminal background check, random drug test and name search on government registries which prohibit employment in health care professions are required in our health science programs. Program start is contingent upon meeting deadlines for completion of the screening and results which allow the student to participate in the clinical portion of the program. Details and directions for accessing and purchasing online screening for background checks are shared with accepted

Medical Surgical Technology (continued)

students. Background checks are conducted for every state in which the student has worked or resided since the age of 18 years. Conviction of offenses in the following areas normally prohibit the student from participation in the clinical portion of the program and will result in program dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of offenses at www.idph.state.il.us/nar/.

To participate in the clinical portion of the program, students with “disqualifying” offense(s) will be asked to produce a waiver from the Illinois Department of Public Health for identified offenses. To request a waiver application from IDPH, students may call 217-785-5133. Not all clinical sites accept the IDPH waiver (i.e. Missouri sties), therefore required clinical sites are also surveyed to determine if clinical placement can be accomplished. If a waiver cannot be produced prior to clinicals/program start or survey results indicate clinical sites prohibit the conviction, the student will be removed from the program.

In addition, positive results from the drug test or student listing on prohibitory government registry will also result in dismissal from the program. Note: Positive drug testing results from the use of illegal drugs or prescription medication for which the student does not have a prescription, medical marijuana, which is not FDA approved, is also considered a positive drug testing result.

Dismissal for positive criminal background check, drug test, or listing on a government registry does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program coordinator or the administrative assistant prior to seeking admission.

Graduation Requirements

Applicants admitted to the program must follow course requirements for graduation at the time they are admitted and must meet all course, program, degree and sequencing requirements specified. Posted changes in course requisites are applicable to all newly admitted students. Students are responsible for program policies as listed in each year's Medical Surgical Technology Student Handbook. Students must complete the curriculum within 150% of initial enrollment. A grade of “C” is the minimum grade acceptable for ALL courses in the Medical Surgical Technology curriculum.

Career Opportunities

According to the US Bureau of Labor Statistics Occupational Outlook Handbook, the median wage for Medical Surgical Technologists was \$62,250 with a 9% growth outlook from 2020-2030. Hourly and salary ranges can vary dependent on hiring facility and demographics.

Sterile Processing Technician Certificate (028D)

Sterile Processing Technician Certificate. The Sterile Processing Technician program provides the graduate with the ability to take the Certified Registered Central Service Technician (CRCST) exam. Sterile Processing Technicians work in healthcare organizations ensuring surgical instrumentation is clean, disinfected, and sterile following standard and/or universal precautions. The program provides specialized education and experiential learning opportunities in a Central Service Department. To enroll in the Sterile Processing Technician certificate, students must demonstrate a high school diploma or GED and be eligible for ENG 97 and MATH 97.

The Sterile Processing Technician program is offered in a one-semester certificate format. The program is offered as a stand-alone certificate or as a **stackable certificate into the Medical Surgical Technology Associates Degree.

Nurse Assistant

swic.edu/nurse-assistant

Coordinators: Stephanie Reid, ext. 5906
Email: Stephanie.Reid@swic.edu
Dean: Faith Fields, ext. 7130
Email: Faith.Fields@swic.edu
Administrative Assistant: Candice Rodgers, ext. 5355

This one-semester certificate course, HRO 105 Nurse Assistant, prepares students to perform simple and basic functions under the supervision of a nurse and to apply for the certified nurse assistant competency test. The program's purpose is to provide the health care community with knowledgeable, skilled nurse assistants who recognize that the patient/resident/client is a unique individual with needs and rights deserving of holistic care.

Enrollment Requirements:

The admission procedures for the HRO-105 Nurse Assistant program are in accordance with Illinois law. The law requires programs not having sufficient space and resources to accommodate all applicants will accept those applicants best qualified, using rank, ability and achievement test scores as guides, with preference given to students residing in the district. Out-of-district students will be considered as in-district status for this application process if their community college has an Inter-district Cooperative/ Career agreement with SWIC (listed on page 19 of this catalog). To qualify for the application process, students must submit paperwork from their local community college to SWIC Enrollment Services by the application deadline. Contact the secretary of the Board of Trustees at your community college to get the required paperwork. Students must apply and be formally accepted into the Nurse Assistant program before enrolling in the HRO-105-prefix course. There are no waiting lists for admission into the program. If not admitted, interested applicants must re-apply. Refer to the Nurse Assistant Application Planning Guide for specific application requirements to enhance your potential for admission into this highly competitive application process. The Application Planning Guide is located on the Nurse Assistant webpage. Contact the coordinator, Stephanie.Reid@swic.edu if you have further questions.

Students enrolling in the seven-semester-credit HRO 105 Nurse Assistant course should be aware that criminal background check (fingerprints) and random drug testing are required. The criminal background check application form is completed during the mandatory orientation at the Belleville Campus prior to class start. See your course schedule for date and time. Fingerprints must be scheduled and completed prior to the first day of class. Due to clinical requirement, conviction of offenses in the following areas results in course dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of disqualifying offenses at <http://dph.illinois.gov/topics-services/health-care-regulation/health-care-worker-registry>

To complete the course, students with "disqualifying" offense(s) will be asked to produce a waiver from the Illinois Department of Public Health. Waiver application forms along with instructions are located at <http://dph.illinois.gov/topics-services/health-care-regulation/health-care-worker-registry>. If a waiver cannot be produced prior to class start, the student will be withdrawn from the course. In addition, positive drug testing results will also result in course dismissal. NOTE: Positive drug testing results include use of illegal drugs or prescription medications which the student does not have a prescription. Marijuana, recreational or medical is a positive drug testing result.

Dismissal for positive criminal background check or drug test does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program coordinator prior to enrolling in the class.

The annual Flu vaccine and testing for tuberculosis are also required. Essential functions of the student nurse assistant are listed in the NA Handbook and at swic.edu/student-nurse-functions. Students must be able to perform the essential functions with or without reasonable accommodations. Students are encouraged to contact the Student Accessibility & Support Services to discuss potential issues associated with meeting these requirements at 618-235-2700, ext. 5386. Students enrolling in all Health Sciences programs should be aware that some clinical facilities may require auto and/or health insurance. Malpractice insurance, when required, is provided by the college through assessment of lab fees. Some clinical sites may require drug testing. This information will be provided in the first class. Students must meet any requirements of the clinical sites or may be dropped from the program.

Nurse Assistant (025A) – Attendance Policy

Students enrolled in the HRO 105 Nurse Assistant course are subject to all of the provisions of the existing college catalog and IDPH program requirements with respect to attendance during the period of their enrollment. Attendance to orientation and all class and clinical sessions is required. Students exceeding IDPH allowance on absences will be dropped and do not qualify for refund of tuition/fees. Any missed time is cumulative.

Semester Credits

HRO 105 Nurse Assistant

7

Career Opportunities

Following course completion and successful passage of the competency exam, graduates may be employed in acute, long-term care and home health to provide personal care under the direction of a registered nurse or licensed practical nurse.

- SIU-Carbondale – BS Nursing

Career Overview

The SWIC Nursing Education program prepares students with the basic skills necessary to become a registered nurse. RNs provide for the physical, mental and emotional needs of their patients. Nurses must have good knowledge of the principles and practices of nursing, interpersonal skills, oral and written communication skills, ability to relate to different cultural and economic backgrounds and organizational skills. They must also be able to set priorities and manage a caseload.

Nursing encompasses a variety of specialties: case manager, emergency/trauma, home health/hospice, infection control/employee health, labor and delivery, medical/surgical, neonatal, pediatric, psychiatric, telemetry, transplant, etc. The job duties vary based on the working environment and the role of the nurse in that setting. For further information regarding the field of nursing, contact the National League for Nursing at www.Jobs.NLN.org

In accordance with the Illinois Nursing and Advanced Practice Nursing Act, the purpose of the Nursing Education curriculum at SWIC is to prepare students to:

1. Apply for the NCLEX-RN exam after successful completion of the program and to apply for licensure as registered professional nurses after successfully completing the NCLEX-RN.
2. Practice entry-level professional nursing only under the direct supervision of the registered professional nurse until item No. 1 has been accomplished.
3. Practice professional nursing at a beginning staff level after successfully completing the NCLEX-RN and receiving licensure as a registered professional nurse.

Contact an academic advisor to assist with career exploration.

About the Program

- Two-year Associate in Applied Science degree
- Selective admission to enroll in NE courses
- Applications are accepted Sept. 1 to Dec. 1 and April 1 to June 30
- Completion of biology, chemistry and algebra in high school or college is required to apply
- Supporting documentation deadline is Feb. 1 or August 31, depending on application cycle.
- Advanced placement for Licensed Practical Nurses and CNAs is available
- Online application located in your eSTORM Student Center

Licensure Requirements

Upon successful completion of the 68.5-semester-credit Nursing Education program with a C or better in all courses, graduates are awarded an Associate in Applied Science degree in Nursing Education and are eligible to take the computer adaptive NCLEX-RN exam. To practice as a registered nurse, graduates must pass the NCLEX-RN examination.

Program Accreditation

The SWIC Nursing Education program is a member of the National League for Nursing Council of Associate Degree Nursing Programs, and approved by the Illinois Department of Financial and Professional Regulation, located at 100 W. Randolph, Suite 9-300, Chicago, IL 60601, 312-814-4500; and accredited by the Accreditation Commission for Education in Nursing located at 3390 Peachtree Road NE, Suite 1400, Atlanta, GA 30326.

Admission Procedures/ Application Requirements

The admission procedures for the NE program are in accordance with Illinois law. The law requires programs not having sufficient space and resources to accommodate all applicants will accept those applicants best qualified, using rank, ability and achievement test scores as guides, with preference given to students residing in the district. Out-of-district students will be considered as in-district status for this application process if their community college has an Interdistrict Cooperative/ Career agreement with SWIC (listed on page 19 of this catalog). To qualify for the application process, students must submit paperwork from their local community college to SWIC Enrollment Services by the application deadline. Contact the secretary of the Board of Trustees at your community college to get the required paperwork. Students must apply and be formally accepted into the Nursing Education program before enrolling in NE-prefix courses. There are no waiting lists for admission to any Health Sciences program. If not admitted, interested applicants must re-apply. **Refer to the Nursing Education or Advanced Standing Nursing Application Planning Guides for specific application requirements to enhance your potential for admission into this highly competitive application process. Application Planning Guides are located on the Nurse Education webpage or contact the coordinators' assistant, ext. 5355.**

Nursing Education (continued)

Selection of Applicants for Admission

Selection of qualified applicants will be based upon a numerical ranking procedure, using admission test scores, high school and/or college grades, and TEAS exam scores. **Applicants should be aware that general education courses completed in the spring preceding potential summer entry will not be calculated in the numerical ranking unless there are fewer applicants than seats available.** To obtain more information on the program, call or an academic advisor, Belleville Campus, 2500 Carlyle Ave., 618-235-2700, ext. 5206; the Red Bud Campus, 500 W. South Fourth St., 618-282-6682, ext. 8114; or the Sam Wolf Granite City Campus, 4950 Maryville Road, 618-931-0600, ext. 7333.

Applicants will be notified of their status regarding admission as quickly as is possible given the number of applications received. In the event that there are fewer qualified candidates than there are spaces available, applications will continue to be accepted until the program's maximum capacity has been reached or until the first week of classes. Contact Enrollment Services at 618-235-2700, ext. 5455, to obtain information of a possible applications deadline extension. The college reserves the right to fill the program when there are fewer applicants than spaces available by whatever means it deems necessary to assure both academic integrity and fairness in the selection process.

In the event that there are more qualified applicants than spaces available in this program, those applicants residing outside District No. 522 or in a district that does not have a joint agreement with SWIC for this program, will not be eligible for consideration or admission. Resident status is determined by address on file with Enrollment Services.

LPN Articulation: Advanced Standing Application Process

An articulation process exists for Illinois LPNs. The articulation program will escrow up to 18 credits. Admission criteria will remain as listed for the traditional RN program. LPNs must complete the requisite courses and first-year general education courses prior to beginning the articulation program, unless waivers have been secured from the NE coordinator all courses must be successfully completed before entry into fall courses. Escrowed credits will be awarded pending successful completion of NE summer courses. If not successfully completed on the first attempt, no articulation provisions will apply and the traditional nursing program must be completed. Any LPN may opt not to enter the articulation program – but enter the traditional RN program. LPNs submit the application – “Advanced Standing Nursing Education for current LPNs.”

Nurse Assistant Articulation Application/Bridge

An articulation process exists for certified Illinois nurse assistants. The articulation process will escrow 2.5 NE credits for Illinois certified nurse assistants. Admission criteria, requisite courses and general education courses will remain as listed for the traditional RN program. HRO 120 and HRO 100 must be completed successfully before entry into fall classes. The 2.5 credits will be awarded for NE 102, pending successful completion of NE 103/104 on the first attempt. If NE 103/104 is not completed successfully, no articulation provisions will apply. Any certified nurse assistant may opt not to enter the articulation program – but to enter the traditional RN program.

Transfer Students

Transfer credit may be obtained by transfer from accredited/approved nursing programs provided program content and sequence are the same. Nursing courses over three years old will not be accepted for transfer. Transfer students must provide a letter from the previous nursing program administrator who must confirm that the student is considered to be “in good standing.” “In good standing” means that the NE student could re-enroll in the NE program, if desired, without additional measures. Should transfer students not be confirmed in good standing by the documentation, the student (if accepted) will be considered to have had one course failure and only one course failure will be allowed. Program failures will be considered one course failure in the SWIC program. Transfer students should see the Nursing Education coordinator for more information.

Program Capacity

The Nursing Education program generally accepts: 60 students each fall semester at the Belleville Campus, 20 students each fall semester at the Sam Wolf Granite City Campus, 20 students each summer, and 45 each spring, depending on clinical and seat availability.

Program Location

The Nursing Education program consists of general education courses, NE-prefix courses and assigned clinical experience. Specific locations depend on the course.

1. The general education courses can be completed prior to admission at the Belleville, Red Bud or Sam Wolf Granite City campuses or online.
2. The NE courses are offered at the Belleville Campus during the day and at the Sam Wolf Granite Granite City campus during the evening. Once a student has been accepted into the NE program and has attended one class, the student is unable to switch between Day/Evening programs.
3. Clinical experiences are scheduled during the day, weekday or weekends at hospitals/clinics located throughout southern Illinois and in the St. Louis region. Students may be required to travel outside the college district for clinical experience courses. Specific clinical placement cannot be guaranteed, and specific clinical schedules may be changed during courses.

Applicants should check location and schedule of classes to ensure availability and access. Students are responsible for their own transportation and attendance to any of the classes and clinicals assigned by the program.

Orientation & Performance

Applicants accepted into this program must attend the required orientation session, meet program-specific requirements, be able to perform the essential functions of the job as listed in the Student Handbook or at swic.edu/student-nurse-functions with reasonable accommodation if needed, and submit results of background check, drug screen, physical examination and the hospital/clinical-required immunizations by the required date as presented in the orientation sessions. Any applicants or enrolled students are encouraged to contact the Student Accessibility & Support Services at 618-235-2700, ext. 5368, to discuss potential issues associated with meeting these requirements. Students not

Nursing Education (continued)

able to perform the essential element of the job of a nurse may be unable to pass the required courses. Other program-specific restrictions may apply.

Health Insurance

Health insurance is required during clinical Nursing Education courses. Students are personally responsible for any costs incurred for injuries occurring during clinical experience in their role as student nurses.

Medical/Health Requirements

Per hospital/clinical-requirements, NE students are required to possess and maintain current American Heart Association CPR certification at the Basic Life Support level with AED and show proof of immunizations, tuberculosis test and physical examination before beginning any clinical experience. These requirements do not have to be fulfilled until after the program orientation meetings, but must be fulfilled by the required deadline.

Background Checks and Drug Testing

Criminal background check, random drug test and name search on government registries which prohibit employment in health care professions are required in our health science programs. Program start is contingent upon meeting deadlines for completion of the screening and results which allow the student to participate in the clinical portion of the program. Details and directions for accessing and purchasing online screening for background checks are shared with accepted students. Background checks are conducted for every state in which the student has worked or resided since the age of 18 years. Conviction of offenses in the following areas normally prohibit the student from participation in the clinical portion of the program and will result in program dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of offenses at www.idph.state.il.us/nar/.

To participate in the clinical portion of the program, required clinical sites will be surveyed to determine if clinical placement can be accomplished for students with “disqualifying” offense(s). If the survey results indicate clinical sites prohibit the conviction, the student will be removed from the program.

In addition, positive results from the drug test or student listing on prohibitory government registry will also result in dismissal from the program. Note: Positive drug testing results from the use of illegal drugs or prescription medication which the student does not have a prescription. Marijuana, recreational or medical, is a positive drug testing result.

Dismissal for positive criminal background check, drug test, or listing on a government registry does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program coordinator prior to seeking admission.

Graduation Requirements

Applicants admitted to the program must follow course

requirements for graduation at the time they are admitted and must meet all course, program, degree and sequencing requirements specified. Posted changes in course requisites are applicable to all newly admitted students. Second-year students will continue to work from requisites listed when admitted. Students are responsible for program policies as listed in each year's Nursing Student Handbook. Students who fail to meet program specific requirements will be dropped from the program and may be required to re-apply and compete for admission in the succeeding year.

The Nursing Education courses must be completed within five years for traditional nursing students and five semesters for LPN articulation students. Students must follow the sequencing requirements. Students must repeat a failed course as soon as it is offered. An average grade of C (76 percent without rounding) is required to pass a test. The final exam must be completed with a C or higher; and a satisfactory in lab/clinical evaluation are the minimum requirements for passing nursing courses. Any standardized testing and course assignments must be completed by the course ending date. A grade of C is the minimum grade acceptable for ALL courses in the nursing curriculum. Please refer to the current Nursing Student Handbook for most recent program policies.

All students completing an AAS degree must complete graduation degree requirements in the front section of the blue pages of this catalog as well as the requirements specified for Human Relations coursework. Health requirements are satisfied by students successfully completing BIOL 157, 158, 250, PSYC 151, and this Health Sciences curriculum.

Course Sequence

The program can be completed in four semesters and one summer; however, it is recommended that students who wish to maximize points on the application complete General Education Courses (HRO 100/160, HRO 150, BIOL 157, 158 & 250, SOC 153, ENG 101 & 102, PSYC 151, and HRO 120, refer to swic.edu/academics/career-degrees/health-sciences/nursing-education/general-education/) prior to entrance into the program and in progression following the appropriate course requisites. For information on course requisites, please refer to the *Course Description Guide* (yellow section) in this catalog. All NE-prefix courses must be completed during the listed semesters.

Career Opportunities

A graduate of the Nursing Education program is prepared to work as a registered nurse following successful NCLEX-RN exam in general entry-level positions under the direction of a more experienced RN. Entry-level positions may be found in hospitals, public/community health settings, ambulatory care settings and nursing homes/extended care facilities.

Graduates who successfully pass the NCLEX-RN may also opt to continue their education at institutions which offer RN-Bachelor of Science in Nursing and RN-Master of Science in Nursing programs. Information on RN-BSN articulation/dual enrollment is available in the Nursing Education office.

Dual Admission

Dual admission allows students to transfer seamlessly from the Nursing Education program to the RN-BSN program.

Average Starting Salary

The average full-time starting salary is \$40.74 per hour or \$84,750 per year.

Practical Nursing

swic.edu/practical-nursing

Coordinator: Mandy Wollin, ext. 7130

Email: Mandy.Wollin@swic.edu

Dean: Faith Fields, ext. 7130

Email: Faith.Fields@swic.edu

Administrative Assistant: Candice Rodgers, ext. 5355

Career Overview

The SWIC Practical Nursing program prepares students with the basic skills necessary to become a Licensed Practical Nurse (LPN). LPNs are on the front line of nursing, interacting with patients on a daily basis in settings including hospitals, long-term care settings, doctors' offices, outpatient clinics or even home health. They work under the supervision of a registered nurse or physician and sometimes oversee certified nurse assistants. PNs provide basic bedside care for the sick, injured and convalescent, and do tasks such as give injections, take vital signs, collect samples, perform diagnostic tests, dress wounds, administer medication and report status of the patient. Key components include collaborating and collecting data on the health assessment of a patient, participating in the evaluation of patient responses to intervention, communicating with other healthcare professionals and serving as an advocate for the patient as delegated. The overall function of a licensed practical nurse is to ensure patient comfort and safety. For further information regarding the field of practical nursing, contact the American Nurses Association (ANA) at <https://www.nursingworld.org/practice-policy/workforce/what-is-nursing/> and <https://www.nursingworld.org/content-hub/resources/becoming-a-nurse/how-to-become-a-licensed-practical-nurse/>.

Contact an academic advisor to assist with career exploration.

About the Program

- One-year certificate in practical nursing
- Starts: Summer semester (Red Bud Campus), Spring semester (Sam Wolf Granite City Campus) and Fall semester (Wyvetter Younger Higher Education Campus)
- Applications accepted April 1 through June 1 (for fall), June 1 through Aug 1 (for spring) and Jan. 31 through March 31 (for summer)
- To enroll, proof of skill in basic algebra, reading and writing required; advising will assist with methods to assess

The program is designed to include classroom education, auto-tutorial lab, simulation experiences and clinical application in long-term care, hospital, and healthcare office settings.

In accordance with the Illinois Nursing and Advanced Practice Nursing Act, 2017, the purpose of the Practical Nursing Education curriculum at SWIC is to prepare students to:

1. Apply for the NCLEX-PN exam after successful completion of the program and to apply for licensure as registered practical nurse after successfully completing the NCLEX-PN.
2. Practice entry-level practical nursing only under the direct supervision of the registered practical nurse until item No. 1 has been accomplished.
3. Practice practical nursing at a beginning staff level after successfully completing the NCLEX-PN and receiving licensure as a registered practical nurse.

Licensure Requirements

Upon successful completion of the Practical Nursing curriculum, graduates are awarded a certificate in practical nursing and are eligible to take the computer adaptive NCLEX-PN exam. To practice as a practical nurse, graduates must pass the NCLEX-PN examination. Graduates who pass the exam may apply to become Licensed Practical Nurses. All states require licensure to practice as a practical nurse.

Graduates who successfully pass the NCLEX-PN may also opt to continue their education at institutions which offer Associate Degree Nursing (ADN) programs or RN-Bachelor of Science in Nursing. Information on ADN or RN-BSN articulation/dual enrollment is available in the Nursing Education office.

Enrollment Requirements

Students must demonstrate knowledge of basic reading, writing, and math skills to enroll in first semester PN courses. This requires proof of students to be eligible for ENG 100/ENG 101 or ENG 101 and MATH 97. To obtain information about placement testing or alternate methods of assessing reading, writing, and math skills visit academic advising.

Students enrolling should be aware a criminal background check and drug testing are required.

Program Capacity

The Practical Nursing program accepts approximately 35 students each spring semester at the Sam Wolf Granite City Campus, approximately 24 students at the Wyvetter Younger Higher Education Campus, and 20 students at the Red Bud Campus, depending on clinical availability.

Program Location

The Practical Nursing Education program consists of PN-prefix courses and assigned clinical experience. Specific locations depend on the course.

1. The PN courses are offered at the Sam Wolf Granite Campus, the Wyvetter Younger Higher Education Campus, and the Red Bud Campus during the day of the semesters indicated.
2. Clinical experiences may be scheduled during the day, evening and/or weekends at hospitals/clinics located throughout Southern Illinois and in the St. Louis region. Students may be required to travel outside the college district for clinical experience courses. Specific clinical placement cannot be guaranteed, and specific clinical schedules may be changed during courses.

Students should check location and schedule of classes to ensure availability and access. Students are responsible for their own transportation and attendance at any of the classes and clinicals assigned by the program.

CNA Bridge to PN (Articulation)

A bridge process exists for Certified Illinois Nurse Assistants. The process will escrow two PN credits for Illinois certified nurse assistants. The two credits will be awarded for PN 100, pending successful completion of PN 101 on the first attempt. If PN 101 is not completed successfully, no credit will be applied. Any certified nurse assistant may opt not to enter the bridge program - but to enter the generic PN program.

Orientation & Performance

Students must attend the required orientation session meet program-specific medical requirements, be able to perform the essential functions of the job as listed in the Student Handbook or at swic.edu/student-practical-nurse-functions with reasonable accommodation if need, and submit results of background check, drug screen, physical examination and the required immunizations by the required date as presented in orientation sessions. Any applicants or enrolled students are encouraged to contact the Student Accessibility & Support Services at 618-235-2700, ext. 5368, to discuss potential issues associated with meeting these requirements. Students not able to perform the essential element of the job of a practical nurse may be unable to pass the required courses. Other program-specific restrictions may apply.

Health Insurance

Health insurance is required during clinical Practical Nursing Education courses. Students are personally responsible for any costs incurred for injuries occurring during clinical experience in their role as student nurses.

Medical/Health Requirements

PN students will be required to possess and maintain current CPR certification at the Basic Life Support level and show proof of immunizations, tuberculosis test and physical examination before beginning any clinical experience. These requirements do not have to be fulfilled until after the program orientation meetings but must be fulfilled by the required deadline.

Background Checks and Drug Testing

Criminal background check, random drug test and name search on government registries which prohibit employment in health care professions are required in our health science programs. Program start is contingent upon meeting deadlines for completion of the screening and results which allow the student to participate in the clinical portion of the program. Details and directions for accessing and purchasing online screening for background checks are shared with accepted students. Background checks are conducted for every state in which the student has worked or resided since the age of 18 years. Conviction of offenses in the following areas normally prohibit the student from participation in the clinical portion of the program and will result in program dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of offenses at www.idph.state.il.us/nar/.

To participate in the clinical portion of the program, required clinical sites will be surveyed to determine if clinical placement can be accomplished for students with “disqualifying” offense(s). If the survey results indicate clinical sites prohibit the conviction, the student will be removed from the program. In addition, positive results from the drug test or student listing on prohibitory government registry will also result in dismissal from the program. Note: Positive drug testing results from the use of illegal drugs or prescription medication for which the student does not have a prescription. Medical marijuana, which is not FDA approved, is also considered a positive drug testing

result. Dismissal for positive criminal background check, drug test, or listing on a government registry does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program coordinator or the coordinator’s assistant prior to seeking admission.

Graduation Requirements

Students enrolled to the program must follow course requirements for graduation at the time they are admitted and must meet all course, program, certification and sequencing requirements specified. Posted changes in course requisites are applicable to all newly admitted students. Students are responsible for program policies as listed in the Practical Nursing Student Handbook. Students who fail to meet program specific requirements will be dropped from the program and may be required to re-enroll in the succeeding year. The Practical Nursing Education program must be completed within two years of the beginning of the practical nursing courses for the first time. Students must follow the sequencing requirements. Students must repeat a failed course as soon as it is offered. An average grade of C (76 percent without rounding) is required to pass a test. The final exam must be completed with a C or higher; and a satisfactory in lab/clinical evaluation are the minimum requirements for passing practical nursing courses. Any standardized testing and course assignments must be completed by the course ending date. A grade of C is the minimum grade acceptable for ALL courses in the practical nursing curriculum. Please refer to the current Practical Nursing Student Handbook for most recent program policies.

Articulation Agreements

- SIUC – BS Public Safety Management

Career Overview

The SWIC Paramedic program prepares students for varying levels of pre-hospital care in emergency medicine. The most basic level of care is provided by the emergency medical technician. (See Emergency Medical Technician page in the blue section of this catalog). The highest level of support in pre-hospital patient care is provided by the Paramedic, who works under the direct supervision of an emergency room physician via radio/mobile communications. Paramedics receive extensive training in patient assessment and treatment that may include, but is not limited to, administration of medications and advanced life support measures, including conducting and interpreting electrocardiograms, electrical interventions to support cardiac functions, performing advanced airway management techniques and administering appropriate intravenous fluids. Paramedics typically work on an ambulance, but some work in hospital emergency departments with limited responsibilities.

Paramedics must have excellent judgement and be able to prioritize decisions and act quickly in the best interest of the patient while following the physician's directives. They need strong communication skills – spoken and written – and the ability to function independently in a non-structured environment that is constantly changing. They must possess good physical stamina, endurance and body condition that would not be adversely affected by frequently having to walk, stand, crawl, lift, carry and balance at times in excess of 125 pounds. For further information regarding the field of EMTs and Paramedics, refer to the U.S. Department of Labor: Occupational Outlook Handbook at www.bls.gov.

Contact the program coordinator for more information about this program.

About the Program

- Options: 15-month certificate or two-year Associate in Applied Science degree
- Selective admission for fall
- Applications accepted March 1 to June 1 for fall admission
- Online application available in your eSTORM Student Center
- Completion of BIOL 105 and Illinois EMT license required to apply
- Illinois EMT license and BLS certification must be on file by application deadline

Licensure Requirements

Upon successful completion of the 15-month Paramedic program, graduates are awarded the Paramedic Certificate (068B) and are qualified to challenge the [National Registry of Emergency Medical Technicians](http://www.nremt.org) paramedic-level cognitive and psychomotor exam. Once NREMT Certification is obtained, the student may apply for state licensure

Program Approval

The SWIC EMT/Paramedic program is recognized and approved by the Illinois Department of Public Health, located at 535 W. Jefferson St., Springfield, IL 62761, phone 217-782-4977. The paramedic program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP).

To contact CAAHEP:

Commission on Accreditation of Allied Health Education Programs
25400 U.S. Highway 19, Suite 158
Clearwater, FL 33763
www.caahep.org

To contact CoAEMSP:

8301 Lakeview Parkway, Suite 111-312
Rowlett, TX 75088
214-703-8445
Fax 214-703-8992
www.coaemsp.org

Degree Option

The Paramedic Certificate is a 38-semester-credit, 15-month program, which can be completed in four semesters. The curriculum includes EMS technical courses covering airway and breathing, cardiology, medical, trauma, OB-GYN, pediatrics and operations. The Paramedic Certificate begins each fall semester. Students frequently complete the certificate and then begin to complete the degree although that is not a requirement.

The Paramedicine AAS degree is a 69-semester-credit, two-year program, which can be completed in four semesters and one summer. The curriculum includes general education courses, EMS technical courses and assigned ambulance runs.

Students are required to demonstrate competency in technical skills during ambulance runs while enrolled in EMS courses. Observations in the intensive care unit, emergency room, operating room, and labor and delivery are also included in clinical time. Students are required to have background checks and drug testing prior to clinical experience work. Ambulance runs begin in the first semester of the Paramedic program.

Admission Procedures/Application

Requirements for the Paramedic Certificate

The admission procedures for the Paramedic program are in accordance with Illinois law. The law requires that programs not having sufficient space and resources to accommodate all applicants, will accept those applicants best qualified, using rank, ability and achievement test scores as guides, with preference given to students residing in the district. Out-of-district students will be considered as in-district status for this application process if their community college has an Interdistrict Cooperative/Career agreement with SWIC (listed on page 56 of this catalog). To qualify for the application process, students must submit paperwork from their local community college to SWIC Enrollment Services by the application deadline. Contact the secretary of the Board of Trustees at your community college to get the required paperwork. There are no waiting lists. If not admitted, interested applicants must re-apply the following semester. The SWIC paramedic program does not offer advanced placement for prospective candidates. Refer to the Paramedic Application Planning Guide for specific application requirements. Applicant Planning Guides are located at swic.edu/paramedic-program-standards.

Selection of Applicants for Admission

Applicants must have State of Illinois EMT license prior to application deadline. Applicants must complete BIOL 105 with a grade of C or better prior to beginning of EMS 205. Selection of qualified applicants for the Paramedic program will be based upon a numerical ranking procedure, using pre-admission EMT and math exam scores, grades in BIOL 105 and EMS 110 coursework, experience as an EMT, and the percentage of those general education courses required for completion of the Paramedicine degree completed prior to admission with a grade of B or better. To obtain more information on the entrance requirements for the Paramedic program call or visit an academic advisor, at Belleville Campus, 2500 Carlyle Ave., 618-235-2700, ext. 5206; the Red Bud Campus, 500 W. South Fourth St., 618-282-6682; or the Sam Wolf Granite City Campus, 4950 Maryville Road, 618-931-0600, ext. 7333.

Applicants will be notified of their status regarding admission as quickly as possible given the number of applicants received. In the event there are fewer qualified candidates than there are spaces available, applications will continue to be accepted until the program's maximum capacity has been reached at each of the campuses or until the first week of classes during the fall semester. Contact Enrollment Services at 618-235-2700, ext. 5455, to obtain information of the possible application deadline extensions. The college reserves the right to fill the program in those years when there are fewer applicants than spaces available by whatever means it deems necessary to assure both academic integrity and fairness in the selection process.

In the event there are more qualified applicants than spaces available in this program, those applicants residing outside District No. 522 or in a district that does not have a joint agreement with SWIC for this program will not be eligible for consideration or admission if there are more applicants than

position to be filled. Resident status is determined by address on file with Enrollment Services.

Program Capacity

The Paramedic Certificate program generally accepts 20 students in the fall semester.

Program Location

The Paramedic Certificate program consists of the core paramedic EMS-prefixed courses, two Fire Science courses (FS 280 and 160) and a general education course – BIOL 105. The Paramedicine AAS degree consists of all the Paramedic Certificate courses, additional general education courses and approved electives. Field experience and clinical practice are also part of the educational process for both programs. Specific course locations depend on the course type.

1. The general education courses and approved electives are generally available at the Belleville, Red Bud or Sam Wolf Granite City campuses.
2. The core paramedic EMS-prefixed courses are offered at Belleville Campus.
3. Field experience and clinical practice are primarily completed within the college district, but there are some experiences in the St. Louis region and outside of the college district. Field experience is offered through various ambulance services within the EMS system.

Students should check location and schedule of classes to ensure availability and access. Students are responsible for their own transportation and attendance to any of the locations assigned by the program.

Time Commitment

Paramedic certificate – 15-month sequence

Lecture and Lab - classes generally meet Tuesdays and Thursdays, and periodically classes will meet Fridays, Saturdays and/or Sundays.

Clinical experience is scheduled during the program, typically between 48-72 hours per month for each experience. Ambulance runs begin in the first semester of the Paramedic Certificate program.

Orientation & Performance

Applicants accepted to this program must attend all required orientation sessions and be able to perform the professional technical standards of the job with or without reasonable accommodations. The technical standards can be found at swic.edu/paramedic-program-standards. Applicants or enrolled students are encouraged to contact the Student Accessibility & Support Services at 618-235-2700, ext. 5368 to discuss potential issues associated with meeting these requirements.

Students are required to demonstrate competency in technical skills during ambulance runs while enrolled in EMS courses. Observations in the intensive care unit, emergency room, operating room, and labor and delivery are also included in clinical time.

Paramedic/Paramedicine (continued)

Insurance

Health insurance is required during clinical practice and field experience courses. Students are personally responsible for any costs incurred for injuries occurring during their clinical practice or field experience.

Medical/Health Requirements

These requirements do not have to be fulfilled until further explained by program personnel after admission. Students will be required to possess current CPR certification at the Health Care Provider level and show proof of immunizations, tuberculosis test, physical examination, and health insurance coverage before beginning any clinical practice/field experience.

Additional Courses

In addition to the EMS courses, students are required to enroll and successfully complete FS 280 Hazardous Materials Awareness and FS 160 Technical Awareness to complete the Paramedic Certificate. Enrollment in these FS courses will be coordinated by the instructor. Students may be required to provide prescribed personal protective equipment for fire science courses. See the program website for additional costs for this program.

Background Checks and Drug Testing

Criminal background check, random drug test and name search on government registries which prohibit employment in health care professions are required in our health science programs. Program start is contingent upon meeting deadlines for completion of the screening and results which allow the student to participate in the clinical portion of the program. Details and directions for accessing and purchasing online screening for background checks are shared with accepted students. The cost of the criminal background check and drug test is the responsibility of the student. Background checks are conducted for every state in which the student has worked or resided since the age of 18 years. Conviction of offenses in the following areas normally prohibit the student from participation in the clinical portion of the program and will result in program dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of offenses at www.idph.state.il.us/nar/.

To determine student's ability to participate in clinicals with specific offenses, clinical sites are surveyed to determine if clinical placement can be accomplished. If survey results indicate clinical sites prohibit the conviction, the student will be removed from the program.

In addition, positive results from the drug test or student listing on prohibitory government registry will also result in dismissal from the program. Note: Positive drug testing results from the use of illegal drugs or prescription medication which the student does not have a prescription. Marijuana, recreational or medical is a positive drug testing result.

Dismissal for positive criminal background check, drug test, or listing on a government registry does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program coordinator prior to seeking admission.

Graduation Requirements

Applicants admitted to the program must follow the requirements for graduation at the time they are admitted and must meet all course, program, degree and sequencing requirements specified. Students are responsible for program policies as listed in the program handbook. Completion of all courses within the degree and certificate with a "C" or better is required. All students who fail to meet program-specific requirements will be dropped from the program and may be required to re-apply and compete for admission in the succeeding semester.

Course Sequence

The Paramedic Certificate program can be completed in 15 months/four semesters. Students frequently complete the certificate prior to the general education courses in the degree; however, that is not a requirement. Current Illinois EMT licensure is a requisite to the program. This can be accomplished by completing the EMS 110 course and passing the licensure exam. See *Course Description Guide* (yellow pages of catalog) for other course requirements.

Career Opportunities

EMTs and paramedics employed by fire departments work an average of 60 hours per week. Those employed by hospitals frequently work between 40 and 50 hours per week, and those in private ambulance services, between 40 and 72 hours. Some of these workers, especially those in police and fire departments, are on call for extended periods. Because emergency services function 24 hours a day, EMTs and paramedics have irregular working hours. Some paramedics work as part of the flight crew on helicopters that transport critically ill or injured patients to hospital trauma centers.

According to the U.S. Department of Labor: Employment is projected to grow much faster than average as paid emergency medical technician positions replace unpaid volunteers, and competition will be greater for jobs in local fire, police and rescue squad departments than in private ambulance services. Opportunities are best for those who have advanced certification.

Average Starting Salary

Earnings of EMTs and paramedics depend on the employment setting and geographic location as well as the individual's training and experience. Based on a survey of our graduates, the average annual earnings of EMTs and paramedics are between \$40,000 and \$70,000 annually.

Critical Care Transport Certificate (068D)

This certificate program provides training to licensed paramedics and registered nurses who desire to become members of a critical care transport team. The program is designed to prepare students for the Critical Care Paramedic (CCP-C), Certified Flight Paramedic (FP-C), and Certified Flight Registered Nurse (CFRN) exams as a means to become members of a critical care

Paramedic/Paramedicine (continued)

transport team. Students must be currently licensed paramedics or nurses, have at least two years of experience as a paramedic or registered nurse in an emergency setting, have current ACLS, PALS, ITLS/PHTLS provider certifications. Students must be approved by a program coordinator prior to enrolling in any course within this certificate program. The Critical Care Transport Certificate Program generally accepts 16 students each fall semester. Students are required to complete a criminal background check and random drug test prior to starting any clinical portion of this program. Student are also required to show proof of immunizations, tuberculosis screening and health insurance prior to beginning any clinical portion of this program.

Those who complete the following courses will be awarded a certificate of program proficiency. All courses require a grade of C or better.

First Semester			Semester Credits
EMS	270	Critical Care Transport I	3
EMS	271	Critical Care Transport II	3

Second Semester			Semester Credits
EMS	275	Critical Care Transport Experience (clinical)	1

Total Semester Credits			7
-------------------------------	--	--	----------

Career Opportunities

Completion of the Critical Care Transport Certificate will prepare students for the Critical Care Paramedic (CCP-C), Certified Flight Paramedic (FP-C), and Certified Flight Registered Nurse (CFRN) exams in order to work for ground or air critical care transport organizations.

Paraprofessional

Coordinator/Faculty: Jessica Day, ext. 5011

Email: Jessica.Day@swic.edu

Dean: Darrell Robin, Ed.D., ext. 5227

Email: Darrell.Robin@swic.edu

The Paraprofessional Certificate Program at Southwestern Illinois College prepares students for immediate employment as paraprofessionals, teacher assistants, and instructional support professionals in K–12 schools and special education settings. The program develops foundational skills in teaching and learning, educational technology, inclusive practices, child development, and professional communication, while also preparing students to successfully pass the Illinois Paraprofessional Licensure exam. Courses emphasize hands-on practice, culturally responsive strategies, and real-world application through required work-based learning experiences. Students may also choose to enroll in the Paraprofessional Apprenticeship Program, if they choose to work as a paid paraprofessional while they earn course credits.

This certificate serves students entering the workforce as a paraprofessional, upskilling current paraprofessionals, or beginning an academic journey toward an associate or bachelor's degree in education. A background check is necessary for this program.

Paraprofessional Certificate (0093)

			Semester Credits
ENG	101	Rhetoric & Composition	3
ED	255	Introduction to Education	3
ED	260	Introduction to Educational Technology	3

ED	276	Methods & Materials for Teaching Diverse Learners	3
ED	293	Children's Literature	3
ED	120	Paraprofessional Test Prep	1
Total Semester Credits			19

Career Opportunities

Students are prepared for employment in a variety of instructional support roles, including:

- Teaching Assistants (25-9045)
- Special Education Paraprofessionals (25-9043)
- Educational Instruction and Library Workers, All Other (25-9099)

Pharmacy Technician

swic.edu/pharmacy-tech

Coordinator: Melissa Epps, MPH, RPh, ext. 5315
Email: Melissa.Epps@swic.edu
Dean: Curt Schmittling, ext. 5351
Email: Curt.Schmittling@swic.edu
Administrative Assistant: Candice Rodgers, ext. 5355

Career Overview

The SWIC Pharmacy Technician program prepares students with the basic skills necessary to become a “nationally credentialed” pharmacy technician, prepared to work in hospital or a retail-based pharmacy. Pharmacy technicians assist the pharmacist in the preparation and distribution of medications, maintaining the drug inventory, patient, and pharmacy records in a manner consistent with all federal, state, and local laws and regulations. For further information regarding the field of pharmacy technicians go to the Occupational Outlook Handbook: bls.gov/ooh/healthcare/pharmacy-technicians.htm#tab-2

About the Program

- One-semester certificate
- Offered: spring and fall semesters
- To enroll, must have high school diploma or GED, or GED in process with the Math and English portions of the GED exam completed and be eligible for Math 97 or higher or completion of Math 95 with a C or better. Eligible for Eng 100+Eng 101 or completion of Eng 97 with a C or better
- Certification in Illinois requires students to be at least 16 years old

The program is designed to include classroom education, laboratory/simulation and clinical experience in a pharmacy setting.

Certification Requirements

Upon successful completion of the Pharmacy Technician curriculum, graduates are awarded a certificate as a pharmacy technician. To work in Illinois, graduates of the program must provide proof of graduation from a pharmacy technician training program and attain successful passage of an examination certified by the Institute for the Certification of Pharmacy Technicians and the Pharmacy Technician Certification Board. Illinois requires national certification through PTCB, NHA and registration with the Illinois Department of Financial and Professional Regulation. A Pharmacy Technician must successfully pass a certification exam before the yearly renewal date of their Illinois Pharmacy Technician License, which is typically renewed once a year.

Enrollment Requirements

To enroll in Pharmacy Technician classes, students must demonstrate readiness for college-level English and math. To obtain information about readiness, visit an academic advisor.

Students should be aware they must pass a criminal background check and drug testing to participate in required clinicals.

Students will need to obtain an Illinois Pharmacy Technician License through Illinois Department of Professional Regulations or the Missouri Division of Professional Regulation Board of Pharmacy before they go to the first clinical rotation.

Program Capacity

The Pharmacy Technician program has capacity for approximately 25 students each spring and fall semesters at the Belleville and Sam Wolf Granite City Campuses. Seats available are dependent on clinical availability.

Program Location

The Pharmacy Technician program consists of PHAR-prefix courses and assigned clinical practicum. Specific locations depend on the course.

1. The PHAR courses are offered at the Belleville and Sam Wolf Granite City Campuses.
2. Clinical experiences may be scheduled during the day, evening and/or weekends at pharmacies located throughout Southern Illinois and in the St. Louis region. Students may be required to travel outside the college district for clinical practicum courses. Specific clinical placement cannot be guaranteed, and specific clinical schedules may be changed during courses.

Orientation & Performance

Students must attend the required orientation session prior to the start of the program, meet program-specific medical requirements, be able to perform the essential functions of the job as listed in the Student Handbook or at swic.edu/pharmacy-tech with reasonable accommodation if needed, and submit results of background check, drug screening, physical examination and the required immunizations by the required date as presented in orientation sessions. Any applicants or enrolled students are encouraged to contact the Student Accessibility & Support Services at 618-235-2700, ext. 5368, to discuss potential issues associated with meeting these requirements. Students not able to perform the essential elements of a pharmacy technician position may be unable to pass the required courses. Other program-specific restrictions may apply.

Health Insurance

Health insurance is required during clinical Pharmacy Technician courses. Students are personally responsible for any costs incurred for injuries occurring during clinical experience in their role as student pharmacy technicians.

Medical/Health Requirements

Admitted students will be required to show proof of a physical examination before beginning any clinical experience. These requirements do not have to be fulfilled until after the program orientation meetings but must be fulfilled by the required deadline.

Pharmacy Technician (continued)

Background Checks and Drug Testing

Criminal background checks, random drug tests and name searches on government registries which prohibit employment in health care professions are required in our health science programs. Being able to start the program is contingent upon meeting deadlines for completion of the screening and results which allow the student to participate in the clinical portion of the program. Details and directions for accessing and purchasing online screening for background checks are shared with accepted students. Background checks are conducted for every state in which the student has worked or resided since the age of 18 years old. Conviction of offenses in the following areas normally prohibit the student from participation in the clinical portion of the program and will result in program dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of offenses at www.idph.state.il.us/nar/.

To participate in the clinical portion of the program, required clinical sites will be surveyed to determine if clinical placement can be accomplished for students with “disqualifying” offense(s). If the survey results indicate clinical sites prohibit the conviction, the student will be removed from the program.

In addition, positive results from the drug test or student listing on prohibitory government registry will also result in dismissal from the program. Note: Positive drug testing results from the use of illegal drugs or prescription medication for which the student does not have a prescription. Medical marijuana, which is not FDA approved, is also considered a positive drug testing result. Dismissal for positive criminal background check, drug test or listing on a government registry does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program coordinator or the coordinator’s assistant prior to seeking admission.

Graduation Requirements

Students enrolled in the program must follow course requirements for graduation at the time they are admitted and must meet all course, program, certification and sequencing requirements specified. Posted changes in course requisites are applicable to all newly admitted students. Students are responsible for program policies as listed in the Pharmacy Technician Student Handbook. Students must complete the curriculum within one year of initial enrollment. A grade of C is the minimum grade acceptable for ALL courses in the Pharmacy Technician curriculum.

Important Information

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

Pharmacy Technician Certificate (0034)

Spring/Fall Semester		Semester Credits
PHAR 101	Affective Knowledge & Skills	4.5
PHAR 110	Pharmacy Regs & Standards	4
PHAR 120	Clinical Practicum I	2
PHAR 130	Medication Order Processing	3.5
PHAR 140	Clinical Practicum II	2
Total Semester Credits		16

Career Opportunities

Pharmacy technicians work in pharmacies located in a variety of settings including drug, general merchandise, grocery stores and hospitals.

Average Starting Salary

According to the U.S. Bureau of Labor Statistics’ Occupational Outlook Handbook, the median wage for pharmacy technicians is \$40,300. Hourly and salary ranges can vary, dependent on the hiring facility and demographics.

Physical Therapist Assistant

swic.edu/pta

Coordinator/Faculty: Jeannette Saak, ext. 5390
Email: Jeannette.Saak@swic.edu
Dean: Curt Schmittling, ext. 5351
Email: Curt.Schmittling@swic.edu
Administrative Assistant: Candice Rodgers, ext. 5355

Articulation Agreements

- Maryville Unicesity University- BA Healthcare Management

Career Overview

The SWIC Physical Therapist Assistant program prepares students to work as skilled health care providers, who under the supervision and direction of a physical therapist, treat patients of all ages with medical problems, or other health-related conditions that limit their ability to move and perform functional activities in their daily lives. Physical therapist assistants have a high level of patient contact. Duties include: monitoring and reporting patient status, providing selected interventions, modifying care within a therapist's plan, documenting, working with other health care professionals, and supervising physical therapy aides or technicians, where applicable. PTAs are frequently involved in educating the patient, caregiver, family and community in the management of health care problems and preventative measures. For further information regarding the field of physical therapy, refer to the American Physical Therapy Association website at www.apta.org.

About the Program

- Two-year Associate in Applied Science degree
- Selective admission for fall semester start
- Recommend the following coursework in high school to prepare for health science occupation: Four years of English, algebra and geometry, biology, and social science courses. Keyboarding and computer application courses, chemistry, and anatomy & physiology
- Applications are accepted September 1 to May 20
- Online application available in your eSTORM Student Center

Licensure Requirements

CAPTE accreditation of a physical therapist or physical therapist assistant program satisfies state educational requirements in all states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. Thus, students graduating from CAPTE-accredited physical therapist or physical therapist assistant education programs are eligible to take the National Physical Therapy Examination for the PTA and apply for licensure in all states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. For information regarding state qualifications and licensure requirements, refer to the Federation of State Boards of Physical Therapy website at www.fsbpt.org.

Program Accreditation

The Physical Therapist Assistant program at SWIC is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave. Suite 100, Alexandria, VA 22305-3805; phone 800-999-2782, email: accreditation@apta.org, and website: capteonline.org. The program's curriculum is guided by the standards developed by the commission. Our accreditation status means SWIC has met the standards required and helps to assure the public that our curriculum will graduate competent clinicians.

Admission Procedures/ Application Requirements

The admission procedures for the PTA program are in accordance with Illinois law. The law requires that programs not having sufficient space and resources to accommodate all applicants will accept those applicants best qualified, using rank, ability and achievement test scores as guides, with preference given to students residing in the district. Out-of-district students will be considered as in-district status for this application process if their community college has an Interdistrict Cooperative/ Career agreement with SWIC (listed on page 56 of this catalog). To qualify for the application process, students must submit paperwork from their local community college to SWIC Enrollment Services by the application deadline. Contact the secretary of the Board of Trustees at your community college to get the required paperwork. There are no waiting lists for admission to any SWIC Health Sciences program. If not admitted, interested applicants must re-apply the following year. **Refer to the PTA Application Planning Guide for specific application requirements and to enhance your potential for admission. Application Planning Guides are located on the Physical Therapist Assistant webpage.**

Selection of Applicants for Admission

Selection of qualified applicants for the Physical Therapist Assistant program will be based upon a numerical ranking procedure, using cumulative GPA and percentage of those general education courses required for graduation completed prior to admission with a grade of B or better. To obtain more information on the entrance requirements for the Physical Therapist Assistant program, call or visit an academic advisor, Belleville Campus, 2500 Carlyle Ave., 618-235-2700, ext. 5206; the Red Bud Campus, 500 W. South Fourth St., 618-282-6682, ext. 8114; or the Sam Wolf Granite City Campus, 4950 Maryville Road, 618-931-0600, ext. 7333.

Applicants will be notified of their status regarding admission as quickly as possible given the number of applications received, early June. In the event that there are fewer qualified candidates than there are spaces available, applications will continue to be accepted until the program's maximum capacity has been reached or until the first week of classes during the fall semester. Contact Enrollment Services at 618-235-2700, ext. 5455, to obtain information of a possible application deadline extension. The college reserves the right to fill the program in those years when there are fewer applicants than spaces available by whatever means it deems necessary to assure both academic integrity and fairness in the selection process.

In the event that there are more qualified applicants than

Physical Therapist Assistant (continued)

spaces available in this program, those **applicants who reside outside District No. 522** or in a district without a joint agreement for this program **will not be eligible for consideration or admission**. Resident status is determined by the address on file with Enrollment Services by Feb. 1.

Program Capacity

The Physical Therapist Assistant program accepts 20 students each fall semester.

Program Location

The Physical Therapist Assistant program consists of general education courses, PTA-prefixed courses and assigned clinical experience courses. Specific locations depend on the course type.

1. The general education courses can be taken at the Belleville, Red Bud or Sam Wolf Granite City campuses and can be completed prior to admission.
2. The PTA courses are only offered at the Belleville Campus during the day of the semesters indicated on the degree outline after acceptance into program.
3. Clinical experience is located throughout southern Illinois and in the St. Louis region. Specific clinical placement cannot be guaranteed. You may have to travel for clinical experiences.

Applicants should check location and schedule of classes to ensure availability and access. Students are responsible for their own transportation and attendance at any of the classes and clinicals assigned by the program. See PTA handbook on the program website for class schedules.

Orientation & Performance

Applicants accepted to this program must attend all required orientation sessions and be able to perform the essential functions of the job with or without reasonable accommodations. The essential functions can be found on the program website in the PTA Handbook. Applicants and enrolled students are encouraged to contact the Student Accessibility & Support Services at 618-235-2700, ext. 5368, to discuss potential issues associated with meeting these requirements.

Health Insurance

Health insurance is required during clinical education courses. Students are personally responsible for any costs incurred for injuries occurring during their clinical experience.

Medical/Health Requirements

PTA students will be required to show proof of medical examination and all applicable tests, immunizations, and vaccinations prior to start of program. Health insurance coverage is verified before beginning any clinical experience course. These requirements do not have to be fulfilled prior to admission and are further explained upon acceptance into the program.

Background Checks and Drug Testing

Criminal background check, random drug test and name search on government registries which prohibit employment

in health care professions are required in our health science programs. Program start is contingent upon meeting deadlines for completion of the screening and results which allow the student to participate in the clinical portion of the program. Details and directions for accessing and purchasing online screening for background checks are shared with accepted students. Background checks are conducted for every state in which the student has worked or resided since the age of 18 years. Conviction of offenses in the following areas normally prohibit the student from participation in the clinical portion of the program and will result in program dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of offenses at www.idph.state.il.us/nar/.

To participate in the clinical portion of the program, required clinical sites will be surveyed to determine if clinical placement can be accomplished for students with “disqualifying” offense(s). If the survey results indicate clinical sites prohibit the conviction, the student will be removed from the program.

In addition, positive results from the drug test or student listing on prohibitory government registry will also result in dismissal from the program. Note: Positive drug testing will result from the use of illegal drugs or prescription medication which the student does not have a prescription. Medical marijuana, which is not FDA approved, is also considered a positive drug testing result.

Dismissal for positive criminal background check, drug test, or listing on a government registry does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program coordinator or the Health Sciences coordinator’s assistant prior to seeking admission.

Graduation Requirements

Applicants admitted to the program must follow the requirements for graduation at the time they are admitted and must meet all course, program, degree and sequencing requirements specified. Students are responsible for program policies as listed in each year’s PTA Handbook. Students who fail to meet program-specific requirements will be dropped from the program and may be required to re-apply and compete for admission in the succeeding year. A grade of C or better is required for all courses in the degree.

All students completing an AAS degree must complete graduation degree requirements in the front section of the blue pages of this catalog as well as the requirements specified for Human Relations coursework (met by completing SOC 153). Health requirements are satisfied by students successfully completing BIOL 105, PSYC 151 and this health science curriculum.

Physical Therapist Assistant (continued)

Associate in Applied Science Degree (0027)

*BIOL 157 & 158 can replace BIOL 105.

**PSYC 210 cannot be replaced with other 200 level PSYC courses

Course Sequence

The program can be completed in five semesters; however, it is recommended that students who wish to maximize points on the application complete General Education Courses (BIOL 105, ENG 101, PSYC 151, HRO 100, COMM 151, SOC 153, PSYC 210) prior to entrance into the program and in progression following the appropriate course requisites. For information on course requisites, please refer to the Course Description Guide (yellow section) in this catalog. All PTA-prefix courses must be completed during the listed semesters, unless permission is given by the program coordinator. PTA-prefixed courses are limited to those students accepted in the program.

Career Opportunities

PTAs work in a variety of settings including hospitals, outpatient clinics, home health agencies, nursing homes, schools, sports facilities, fitness centers and industrial/occupational workplace environments. Job opportunities continue to grow as the medical field continues to promote outpatient medical services and the elderly population increases.

Average Starting Salary

Based on graduate feedback, the median income for PTAs with one to three years experience is between \$47,000 and \$52,000 annually, depending on the type and location of the health care facility.

Plumbing Technology

Dean: Dr. Travis Jumper, ext. 7457
email: Travis.Jumper@swic.edu

The Plumbing Program is designed to offer hands-on training and education to individuals seeking to enter the plumbing and pipefitting industry. With a focus on providing essential skills for both residential and commercial settings, the program equips students with the tools and knowledge to begin a successful career in plumbing, pipefitting, and related fields.

This program serves as a gateway to high-paying and high-skill jobs, particularly for high school graduates and displaced workers who are seeking stable employment with a relatively short training period. Additionally, the program provides an opportunity for individuals to gain related skills, such as pipefitting, that enhance their credentials for future job opportunities.

See the program coordinator, dean or an academic advisor for more information.

Plumbing Technology Certificate (085A)

			Semester Credits
PLT	101	Intro to Plumbing and OSHA Cert.	3
PLT	102	Plumbing Systems	3
PLT	103	Plumbing Systems and Installation I	3
PLT	104	Plumbing Systems and Installation II	3
PLT	105	Plumbing Services	3
GT	105	Technical Math	3
Total Semester Credits			18

Career Opportunities

Graduates can pursue careers in the following areas:

- **Plumbers, Pipefitters, and Steamfitters:** These professionals install, repair, and maintain piping systems in residential, commercial, and industrial settings. They also work with heating and cooling systems, as well as various water systems.
- **Septic Tank Servicers and Sewer Line Cleaners:** Workers in this field maintain and repair septic tanks, sewer systems, and drain lines, often performing tasks such as cleaning and clearing blockages in underground pipes.
- **Helpers: Pipefitters, Plumbers, and Pipe Layers:** Helpers assist plumbers and pipefitters by performing tasks such as cleaning work areas, assisting with pipe installation, and providing support during installation and repair projects.
- **General Maintenance and Repair Workers:** These workers perform routine maintenance on plumbing systems, including repairs to pipes, valves, and fixtures in both residential and commercial buildings.
- **Stationary Engineers and Boiler Operators:** These professionals operate and maintain boilers, engines, and other mechanical equipment that are often found in industrial plumbing systems.

Precision Machining Technology

swic.edu/pmt

Coordinator: David Berry, ext. 7314

email: David.Berry@swic.edu

Dean: Dr. Travis Jumper, ext. 7457

email: Travis.Jumper@swic.edu

The SWIC Precision Machining Technology program prepares the students with the skills and experience necessary to enter a variety of machining fields at an apprentice level. Students will learn to safely set-up and operate machine shop equipment such as lathes, mills, drill presses, grinders and computer numerical control machines. In addition, they will learn computer software programs to design parts and create programs used on the CNC machines.

See the program coordinator, dean or an academic advisor for more information.

Precision Machining Technology (continued)

Career Opportunities

Demand for graduating students is steady and jobs for graduates can be found in a variety of businesses, especially those producing machinery parts for the automotive and aircraft manufacturing industries. A graduate of the Precision Machining Technology program is prepared to work as a(n):

- Toolmaker
- CNC operator
- CNC programmer
- General machinist
- Maintenance machinist
- Inspector
- CAD/CAM programmer

CNC Machining Certificate (054P)

Computer Numerical Control introduces students to programming, setting up and operating CNC machine tools, which include three-axis vertical mills and two-axis lathes. It also provides experience in setting work offsets and tool lengths and operating HAAS CNC equipment. These courses introduce the programming format needed to program finished machined parts on the equipment. The students will be required to complete finish parts using all the necessary codes that a CNC machine tool offers. The certificate will provide training for CNC operators, machinists and workers wanting to enhance their machining abilities.

Program Requisite

PMT 100 Precision Machining Introduction 0.5

Semester Credits

PMT 110	Introduction to CNC Operations	2
PMT 111	CNC Milling	3
PMT 112	CNC Turning	2
Total Credits		7.5

Mastercam Certificate (054L)

Computer Aided Drafting and Computer Aided Manufacturing are becoming necessary tools in many machine shops and manufacturing companies. Using Mastercam software, the students will learn to design and draw machine parts with the use of a computer. From the created drawing the students then will apply tool paths to create a CNC program to be run on a HAAS CNC machine tool. The students will be required to create completed machined parts using this process. The certificate will provide training for CNC operators, machinists and workers wanting to enhance their machining abilities.

Program Requisite

PMT 100 Precision Machining Introduction 0.5

Semester Credits

PMT 221	Intro to Mastercam	3
PMT 222	Advanced Mastercam	3
Total Credits		6.5

SolidWorks Certificate (054M)

Computer Aided Drafting is an important part in the manufacturing process. SolidWorks is a leading software package used by many manufactures. Students will use SolidWorks to create solid models of parts that will then be used to manufacture a finished part. The models will be used to create prints for the machining of the parts or to transfer to a CAD/CAM software for creating a CNC program. The certificate will provide training for many different skilled workers, machinists, draftsmen and designers.

Semester Credits

PMT 231	Intro to SolidWorks	3
PMT 232	Advanced SolidWorks	3
Total Credits		6

Advanced CNC Programming Certificate (054R)

The Advanced CNC Programming Certificate gives the students the skills to operate and program multi-axis CNC machine tools, which includes multi-vise set-ups, four- and five-axis CNC milling centers and CNC turning centers with live tooling, Y-axis and bar feeding capabilities. Students will gain experience in setting up and programming these state of the art Advanced CNC machines. Mastercam CAD/CAM software will also be used for more advanced programming of these CNC machines. Courses are designed for the students to be given a print or solid model to create a part to be produced using all the advanced CNC machines. The certificate will provide training for CNC operators, CNC programmers, machinists and workers wanting to enhance their machining skills.

Semester Credits

PMT 250	Multi-Axis CNC Programming	3
PMT 262	Advanced Mastercam/Multi-Axis	3
Total Credits		6

Advanced Automation/Multi-Axis CNC Certificate (055H)

This curriculum focuses on the integration of robots with multi-axis CNC machining that allows technicians and employers to become more productive using automated manufacturing practices. The courses that comprise the certificate are primarily hands-on and allows students to use equipment and software of the type and variety that many modern manufacturing facilities have adopted. Students will learn how to operate and manipulate robots while producing finished parts as they would in a manufacturing facility. Students will also practice virtual setups, fixturing and simultaneous multi-axis machining of complex parts. Current or former students and working technicians who desire to upgrade their skills to include robotic or automated manufacturing may enroll in the courses that lead to a certificate in Advanced Automation/Multi-Axis CNC Certificate.

Semester Credits

PMT 268	Intro to Machining Automation	4
PMT 269	Advanced Machining Automation	4
PMT 285	Advanced Multi-Axis I	4
PMT 286	Advanced Multi-Axis II	4
Total Credits		16

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Precision Machining Technology (continued)

Tool & Die/Mold Certificate (056H)

The Tool and Die/Mold Making certificate program at Southwestern Illinois College prepares students with technical knowledge and training in, manufacturing processes, and tooling requirements. The certificate is in addition to the Associates degree in Precision Machining. In the Tool and Die classes at SWIC, students will take courses in Die Making principles, metallurgy, selection of tool steels and various manufacturing processes, with emphasis on stamping, forming, and drawing of sheet metal. Students will produce a basic single hit stamping die and a progressive die to produce a finished part to tolerances specified. The Mold Making part of the program prepares students with knowledge and hands on training in, molding processes, mold design and requirements and how they affect the final product. Students will take courses in Mold Making principles, the study of design and fabrication of plastic, die cast, and rubber molds for production of finished products. Included are units of instruction in the flow characteristics of thermoset thermoplastics and die cast materials and their properties. Students will produce a basic injection mold to produce a finished part to tolerances specified.

			Semester Credits
PMT	270	Introduction to Mold Making	4
PMT	272	Intro to Tool & Die Making	4
PMT	274	Advanced Mold Making	4
PMT	276	Advanced Tool & Die Making	4
Total Credits			16

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Additive Manufacturing Certificate (058H)

The Additive Manufacturing Certificate will augment students' learning by coupling theory-based instruction with hands-on applications using State of the Art software. The software includes, but is not limited to, SOLIDWORKS, and Mastercam. The student will practice 3D printing techniques with hands-on a large polymer, resin, and Metal AM systems. Students will obtain the skills by taking classes in innovation design, formal engineering design process, advanced critical thinking, project management GD & T option, reverse engineering, 3D modeling, printing and scanning, and converting point cloud data to solids and inspections. Graduates will be qualified to seek positions in the following fields: Additive Manufacturing Technician, 3D Printing Operator, 3D Designer, 3D Solid Modeler, Manufacturing Technician, Prototyping Technician, Production Technician, Reverse Engineering Technician, SOLIDWORKS Designer, CAD Technician, Part Inspection Technician CAD/3D Design Drafter, Detailer, Engineering Design Drafter, Engineering Drawing Checker, and Instructor. Along with the Precision Machining degree this advanced certificate will put students in a good position for high paying, in demand careers.

			Semester Credits
PMT	124	Metrology	2
PMT	202	Advanced Metrology	2
PMT	221	Intro to Mastercam	3
PMT	222	Advanced Mastercam	3
PMT	231	Intro to SolidWorks	3
PMT	232	Advanced SolidWorks	3
PMT	234	3D Printing and Design	4
Total Credits			20

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Career Opportunities

Demand for graduating students is steady and jobs for graduates can be found in a variety of businesses, especially those producing machinery parts for the automotive and aircraft manufacturing industries. A graduate of the Precision Machining Technology program is prepared to work as a(n):

- Toolmaker
- CNC operator
- CNC programmer
- General machinist
- Maintenance machinist
- Inspector
- CAD/CAM programmer

In addition, all manufacturing businesses such as steel, chemical, oil, food and beverage need the services of skilled machinists. Many small machine shops that supply services to larger companies hire Precision Machining Technology graduates.

Radiologic Technology

swic.edu/rad-tech

Coordinator: Casie Dugan, ext. 5303
Dean: Curt Schmittling, ext. 5351
Email: Curt.Schmittling@swic.edu
Administrative Assistant: Candice Rodgers, ext. 5355

Articulation Agreements

SIU-Carbondale:

- BS Radiologic Sciences – Diagnostic Medical Sonography
- BS Radiologic Sciences – Education & Management
- BS Radiologic Sciences – MRI/CT
- BS Radiologic Sciences – Radiation Therapy
- BS Radiologic Sciences – Interventional

Career Overview:

The SWIC Radiologic Technology program prepares students to safely and effectively use radiographic equipment to produce x-rays for the purpose of diagnosing and treating illnesses and injuries. Radiologic technologists have a high level of patient contact. Radiologic technologists provide vital information concerning structure and function of the human body, enabling physicians to make accurate diagnoses to pursue care and treatment. Radiologic technology encompasses a variety of specialties and plays an invaluable role in the practice of medicine. Radiologic technologists play a key role in the total spectrum of medical imaging of health care services. For further information regarding the field of radiology, refer to the American Society of Radiologic Technologists website at www.asrt.org or the Illinois State Society of Radiologic Technologists website at www.issrt.org/.

About the Program

- Two-year Associate in Applied Science degree
- Selective admission for summer semester start
- Applications are accepted Sept. 1 to Dec. 1
- Completion of biology, chemistry/physics and algebra in high school or college are required to apply
- Deadline for application documentation is Feb. 1
- Online application available in the eSTORM Student Center.

Licensure Requirements

Upon successful completion of the RT curriculum, graduates are awarded an Associate in Applied Science degree and are eligible to take the national examination for the American Registry of Radiologic Technologists.

Individuals applying to take the American Registry of Radiologic Technology certification exam may need to complete a Pre-Application Review to determine ethics eligibility. State agencies governing the practice of radiographers may deny an individual licensure, even if the individual has completed all coursework and graduated from the program, if the individual has a criminal history, has been convicted, or pleads guilty or nolo contendere to a felony or other serious crime.

Program Accreditation

The SWIC Radiologic Technology program is accredited by the Joint Review Committee on Education in Radiologic Technology, located at 20 N. Wacker Drive, Suite 2850, Chicago, IL 60606-3182; phone 312-704-5300, email: mail@jrcert.org. The program's curriculum is guided by the standards developed by the ASRT. The accreditation status means

SWIC has met the standards required and helps to assure the public that the curriculum will graduate competent clinicians.

Admission Procedures/ Application Requirements

The admission procedures for the RT program are in accordance with Illinois law. The law requires that programs not having sufficient space and resources to accommodate all applicants will accept those applicants best qualified, using rank, ability and achievement test scores as guides, with preference given to students residing in the district. Out-of-district students will be considered as in-district status for this application process if their community college has an Interdistrict Cooperative/ Career agreement with SWIC (listed in the front of this catalog). To qualify for the application process, students must submit paperwork from their local community college to SWIC Enrollment Services by the application deadline. Contact the secretary of the Board of Trustees at your community college to get the required paperwork. Students must apply and be formally accepted into the Radiologic Technology program before enrolling in RT-prefixed courses. There are no waiting lists for admission to any Health Sciences program. If not admitted, interested applicants must re-apply the following year. **Refer to the RT Application Planning Guide for specific application requirements and to enhance your potential for admission to this highly competitive application process. Application Planning Guides are located on the Radiologic Technology webpage.**

Selection of Applicants for Admission

Selection of qualified applicants for the Radiologic Technology program will be based upon a numerical ranking procedure, using ACT scores or SWIC GPA, high school and/or college grades and the percentage of those general education courses required for graduation completed prior to admission with a grade of B or better. **Applicants should be aware that general education courses completed in the Spring Semester preceding potential summer entry may not be calculated in the numerical ranking.** To obtain more information on the entrance requirements for the Radiologic Technology program, call or visit an academic advisor, Belleville Campus, 2500 Carlyle Ave., 618-235-2700, ext. 5206; the Red Bud Campus, 500 W. South Fourth St., 618-282-6682, ext. 8114; or the Sam Wolf Granite City Campus, 4950 Maryville Road, 618-931-0600, ext. 7333.

Applicants will be notified of their status regarding admission as quickly as is possible given the number of applications received (typically by March). In the event that there are fewer qualified candidates than there are spaces available, applications will continue to be accepted until the program's maximum capacity has been reached or until the first week of classes during the summer semester. Check swic.edu or contact Enrollment Services at 618-235-2700, ext. 5455, to obtain information of a possible applications deadline extension. The college reserves the right to fill the program in those years when there are fewer applicants than spaces available by whatever means it deems necessary to assure both academic integrity and fairness in the selection process.

In the event that there are more qualified applicants than spaces available in this program, those applicants who reside outside District No. 522 or in a district without a

Radiologic Technology (continued)

joint agreement for this program **will not be eligible for consideration or admission**. Resident status is determined by the address on file with Enrollment Services by Feb. 1.

Program Capacity

The Radiologic Technology program generally accepts 50 students each summer semester.

Program Location

The Radiologic Technology program consists of general education courses, RT-prefix courses and assigned clinical experience courses. Specific locations depend on the course type.

1. The general education courses can be taken at the Belleville, Red Bud or Sam Wolf Granite City campuses and can be completed prior to admission.
2. The RT courses are only offered at the Belleville Campus during the day of the semesters indicated on the degree outline. Enrollment in RT courses requires admission into the program.
3. Clinical experience is completed during the day at hospitals/clinics located throughout southern Illinois and in the St. Louis region. Students may be required to travel outside the college district for clinical experience courses. Students will be required to complete some (approximately five) evening assignments during the second year. Specific clinical placement cannot be guaranteed.

Applicants should check location and schedule of classes to ensure availability and access. Students are responsible for their own transportation and attendance at any of the classes and clinicals assigned by the program.

Orientation & Performance

Applicants accepted into this program must attend all required orientation sessions and be able to perform the essential functions of the job with or without reasonable accommodations. The essential functions can be found at swic.edu/rt-performance-essentials.

Applicants or enrolled students are encouraged to contact the Student Accessibility & Support Services at 618-235-2700, ext. 5368, to discuss potential issues associated with meeting these requirements.

Health Insurance

Health insurance is required during clinical education courses. Students are personally responsible for any costs incurred for injuries occurring during their clinical experience courses.

Medical/Health Requirements

RT students will be required to possess current CPR certification at the Health Care Provider level, show proof of immunizations, tuberculosis test, physical examination and health insurance coverage before beginning any clinical experience course. These requirements do not have to be fulfilled prior to admission and are further explained at the program orientation meeting.

Background Checks and Drug Testing

Criminal background check, random drug test and name search on government registries which prohibit employment in health care professions are required in our health science programs. Program start is contingent upon meeting deadlines for completion of the screening and results which allow the student to participate in the clinical portion of the program.

Details and directions for accessing and purchasing online screening for background checks are shared with accepted students. Background checks are conducted for every state in which the student has worked or resided since the age of 18 years. Conviction of offenses in the following areas normally prohibit the student from participation in the clinical portion of the program and will result in program dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of offenses at www.idph.state.il.us/nar/.

To participate in the clinical portion of the program, required clinical sites will be surveyed to determine if clinical placement can be accomplished for students with “disqualifying” offense(s). If the survey results indicate clinical sites prohibit the conviction, the student will be removed from the program.

In addition, positive results from the drug test or student listing on prohibitory government registry will also result in dismissal from the program. Note: Positive drug testing results from the use of illegal drugs or prescription medication which the student does not have a prescription. Marijuana, recreational or medical is a positive drug testing result. Dismissal for positive criminal background check, drug test, or listing on a government registry does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program coordinator prior to seeking admission.

Graduation Requirements

Applicants admitted to the program must follow the requirements for graduation at the time they are admitted and must meet all course, program, degree and sequencing requirements specified. Students are responsible for program policies as listed in each year's RT Student Handbook. Students who fail to meet program specific requirements will be dropped from the program and may be required to reapply and compete for admission in the succeeding year. A grade of C or better is required for all courses in the degree.

All students completing an AAS degree must have completed graduation degree requirements in the front section of the blue pages of this catalog as well as the requirements specified for Human Relations coursework. Health requirements are satisfied by students successfully completing BIOL 105, PSYC 151 and this Health Sciences curriculum.

Course Sequence

The program can be completed in four semesters and two summer; however, it is recommended that students who wish to maximize points on the application complete General Education Courses (HRO 100, BIOL 105, ENG 101, PSYC 151, COMM 151/155 and human relations course) prior to entrance into the program and follow the appropriate course requisites. For information on course requisites, please refer to the Course Description Guide (yellow section) in this catalog. All RT-prefix courses must be completed during the listed semesters, unless permission is given by the program coordinator.

Career Opportunities

RTs work in a variety of settings including hospitals, health care facilities, oncology centers and physicians' offices. Job

opportunities continue to grow as the medical field continues to promote outpatient medical services and the elderly population increases.

Average Starting Salary

Based on graduate feedback, the average salary is 50,000-\$55,000, depending on the type and location of the health care facility. The Bureau of Labor Statistics report a median annual salary of \$73,410 in May 2023.

Certificate Programs

To enroll in these certificate programs, students must have completed at a minimum the AAS in Radiologic Technology. Licensed and/or registered radiologic technologists, radiation therapists, or nuclear medicine technologists (ARRT or NMTCB registered) would also meet prerequisites for this career ladder opportunity.

Computed Tomography Certificate (028A)

This one semester program prepares post-graduate registered radiologic technologists, radiation therapists, or nuclear medicine technologists (ARRT or NMTCB registered) to produce cross-sectional anatomical images of the human body for diagnostic testing, radiation therapy treatment planning, and nuclear medicine PET scanning. The program consists of two hybrid (combination of online and face-to-face) didactic courses and clinical experience. The Computed Tomography certificate is designed to prepare graduates for the ARRT Advanced Registry in Computed Tomography. The program meets ARRT clinical competency and CT registry specifications. Registered radiologic technologists cross trained in computed tomography and with ability to attain the 125 CT exam requirements may be exempt for the clinical component of the program with the appropriate documentation and permission of the program coordinator.

RT 261	CT Anatomy & Patient Care (first 8 weeks)	2.5
RT 262	CT Experience: Internship (120 hours)	1.5
RT 263	CT Physics & Procedures (second 8 weeks)	2.5
Total Credits		6.5

Magnetic Resonance Imaging Certificate 028E

This one semester program prepares post-graduate registered radiologic technologists, radiation therapists, or nuclear medicine technologists (ARRT or NMTCB registered) to produce cross-sectional anatomical images of the human body for diagnostic imaging. The program consists of two hybrid (combination of online and face-to-face) didactic courses and an optional clinical experience. The MRI certificate is designed to prepare graduates for the ARRT Advanced Registry in Magnetic Resonance Imaging. The program meets ARRT clinical competency and MRI registry specifications. Registered radiologic technologists cross trained in MRI and with the ability to attain the 125 MRI exam requirements may be exempt from the clinical component of the program with the appropriate documentation and permission of the program coordinator.

RT 291	MRI Patient Care & Procedures (first 8 weeks)	2.5
RT 292	MRI Clinical Internship	3.0
RT 293	MRI Safety & Image Production (second 8 weeks)	2.5
Total Credits		8

Articulation Agreements

- McKendree University – BA Healthcare Management
- University of Kansas Medical Center – BS Respiratory Care

Career Overview

The SWIC Respiratory Care program prepares students for entry-level practitioner positions in the respiratory care profession. Respiratory therapists have a high level of patient contact. Respiratory therapists, under the supervision of a physician, see patients of all ages to assist in the prevention, treatment and rehabilitation of pulmonary problems. The practice of respiratory care entails: monitoring, evaluating and reporting patients' cardiopulmonary status; providing treatments to keep the airway open; conducting sleep studies, pulmonary function studies, and metabolic studies, patient and family education, student clinical education and home care; discharge planning and follow up; as well as outpatient pulmonary rehabilitation.

For further information regarding the field of respiratory care, refer to the American Association for Respiratory Care website at www.aarc.org. Contact the program coordinator, coordinators' assistant or an academic advisor for more information.

About the Program

- Two-year Associate in Applied Science degree
- Selective admission for summer semester start
- Applications accepted Sept. 1 to May 20
- Completion of biology, chemistry, and algebra in high school or college is required to apply
- Deadline for application documentation is May 20
- Online application available in the eSTORM Student Center

Licensure Requirements

Upon successful completion of the RC curriculum, graduates are awarded an Associate in Applied Science degree in Respiratory Care and are qualified to attempt the National Board for Respiratory Care examinations. Scores on these examinations impact the graduates ability to attain a license to practice as a Respiratory Therapist and identify the level of care the RT can provide through credentialing. Potential credentials include: Certified Respiratory Therapist or Registered Respiratory Therapist. The first step in the examination/credentialing process is completion of the Therapist Multiple-Choice Exam. This exam assesses the essential knowledge, skills and abilities of the graduate. There are two established cut scores for the TMCE. If a candidate achieves the lower cut score, they will earn the CRT credential, identifying they have entry-level RT knowledge, skills and abilities. If the candidate achieves the higher cut score, they will earn the CRT credential and are eligible to complete the Clinical Simulation Examination (provided they meet all other eligibility requirements). Successful completion of the Clinical Simulation Examination earns the candidate the RRT credential.

Supervisory positions and intensive care specialties typically require the RRT, which is advanced RC knowledge, skills and abilities. Credentials are used as the basis for the licensure in all 49 states that regulate the practice of respiratory care. All states, excluding Alaska, require a respiratory therapist to be licensed.

Program Accreditation

The SWIC Respiratory Care program, CoARC Program Number 200489, is accredited by the Commission on Accreditation for Respiratory Care, website: www.coarc.com. The program's curriculum is guided by the standards developed by CoARC. The accreditation status means SWIC has met the standards required and helps to assure the public that the curriculum will graduate competent clinicians. It also ensures that the college's RC graduates are qualified to take the National Board for Respiratory Care's certification and registry examinations.

Admission Procedures/ Application Requirements

The admission procedures for the RC program are in accordance with Illinois law. The law requires that programs not having sufficient space and resources to accommodate all applicants will accept those applicants best qualified, using rank, ability and achievement test scores as guides, with preference given to students residing in the district. Out-of-district students will be considered as in-district status for this application process if their community college has an Interdistrict Cooperative/Career agreement with SWIC. To qualify for the application process, students must submit paperwork from their local community college to SWIC Enrollment Services by the application deadline. Contact the secretary of the Board of Trustees at your community college to get the required paperwork.

Students must apply and be formally accepted into the Respiratory Care program before enrolling in RC-prefix courses. There are no waiting lists for admission to any Health Sciences program. If not admitted, interested applicants must re-apply the following year. **Refer to the RC Application Planning Guide for specific application requirements and to enhance your potential for admission to this competitive application process. Application Planning Guides are located on the Respiratory Care webpage .**

Selection of Applicants for Admission:

Selection of qualified applicants for the Respiratory Care program will be based upon a numerical ranking procedure, using ACT scores or SWIC GPA, high school and/or college grades and the percentage of those general education courses required for graduation completed prior to admission with a grade of B or better. To obtain more information on the entrance requirements for the Respiratory Care program, call or visit an academic advisor, Belleville Campus, 2500 Carlyle Ave., 618-235-2700, ext. 5206; the Red Bud Campus, 500 W. South Fourth St., 618-282-6682, ext. 8114; or the Sam Wolf Granite City Campus, 4950 Maryville Road, 618-931-0600, ext. 7333.

Applicants will be notified of their status regarding admission as quickly as is possible given the number of applications received. In the event that there are fewer qualified candidates than there

Respiratory Care (continued)

are spaces available, applications will continue to be accepted until the program's maximum capacity has been reached or until the first week of classes during the fall semester. Contact Enrollment Services at 618-235-2700, ext. 5554, to obtain information of a possible application deadline extension. The college reserves the right to fill the program in those years when there are fewer applicants than spaces available by whatever means it deems necessary to assure both academic integrity and fairness in the selection process.

In the event that there are more qualified applicants than spaces available in this program, those applicants who reside outside District No. 522 or in a district without a joint agreement for this program, will not be eligible for consideration or admission. Resident status is determined by address on file with Enrollment Services by May 20.

Program Capacity

The Respiratory Care program generally accepts 30 students each fall semester.

Program Location

The Respiratory Care program consists of general education courses, RC-prefix courses and assigned clinical practice courses. Specific locations depend on the course type.

1. The General Education Courses can be taken at the Belleville, Red Bud or Sam Wolf Granite City campuses and can be completed prior to admission.
2. The RC courses are offered only at the Belleville Campus during the day of the semesters indicated on the degree outline after acceptance into program or with program coordinator permission. Most RC courses are web-enhanced, therefore computer access is required.
3. Clinical practice may be scheduled during the day, evening, night, or weekend shift at RC employment settings throughout southern Illinois and in the St. Louis region. Students may be required to travel outside the college district for clinical experience courses. Specific clinical placement cannot be guaranteed.

Applicants should check location and schedule of classes to ensure availability and access. Students are responsible for their own transportation and attendance at any of the classes and clinicals assigned by the program.

Time Commitment

First-year students (fall, spring and summer semesters)

- Clinical practice on Tuesday, Wednesday and/or Friday (8-hour shift)
- Class/Lab on Monday and Thursday (8-hour day)
- Class/Lab on Wednesday (4-hour day fall semester only)

Second-year students (fall and spring semesters)

- Clinical practice on Monday, Wednesday and/or Thursday (8-hour shift)
- Class/Lab on Tuesday and Friday (8-hour day)

Orientation & Performance

Applicants accepted into this program must attend all required orientation sessions and be able to perform the essential functions of the job with or without reasonable accommodations. Applicants or enrolled students are encouraged to contact the Student Accessibility & Support Services at 618-235-2700, ext. 5368, to discuss potential issues associated with meeting these requirements.

Health Insurance

Health insurance is required during clinical practice courses. Students are personally responsible for any costs incurred for injuries occurring during their clinical practice.

Medical/Health Requirements

RC students will be required to possess current BLS certification and show proof of immunizations, tuberculosis test, physical examination and health insurance coverage before beginning any clinical practice course. These requirements may not have to be fulfilled prior to admission and are further explained at the program orientation meeting.

Background Checks and Drug Testing

Criminal background check, random drug test and name search on government registries which prohibit employment in health care professions are required in our health science programs. Program start is contingent upon meeting deadlines for completion of the screening and results which allow the student to participate in the clinical portion of the program. Details and directions for accessing and purchasing online screening for background checks are shared with accepted students. Background checks are conducted for every state in which the student has worked or resided since the age of 18 years. Conviction of offenses in the following areas normally prohibit the student from participation in the clinical portion of the program and will result in program dismissal: assault, sexual offenses, murder, burglary, arson, and robbery. Refer to the Health Care Worker Background Check Act for a complete list of offenses at the Illinois Department of Public Health website.

To participate in the clinical portion of the program, required clinical sites will be surveyed to determine if clinical placement can be accomplished for students with "disqualifying" offense(s). If the survey results indicate clinical sites prohibit the conviction, the student will be removed from the program.

In addition, positive results from the drug test or student listing on prohibitory government registry will also result in dismissal from the program. Note: Positive drug testing results from the use of illegal drugs or prescription medication which the student does not have a prescription. Marijuana, recreational or medical is a positive drug testing result.

Dismissal for positive criminal background check, drug test, or listing on a government registry does not qualify students for refund of tuition or lab fees. Students who have concerns regarding their status with the above regulations are encouraged to discuss the matter with the program coordinator prior to seeking admission.

Respiratory Care (continued)

Graduation Requirements

Applicants admitted to the program must follow the requirements for graduation at the time they are admitted and must meet all course, program, degree and sequencing requirements specified. Students are responsible for program policies as listed in each year's RC Student Handbook. Students who fail to meet program specific requirements will be dropped from the program and may be required to re-apply and compete for admission in the succeeding semester. A grade of C or better is required for all courses in the degree.

All students completing an AAS degree must complete graduation degree requirements in the front section of the blue pages of this catalog as well as the requirements specified for Human Relations coursework. Health requirements are satisfied by students successfully completing BIOL 105, PSYC 151 and this Health Sciences curriculum.

Course Sequence

The program can be completed in four semesters and two summers; however, it is recommended that students who wish to maximize points on the application complete General Education Courses (HRO 100, BIOL 105, ENG 101, SOC 153, ENG 102/COMM 151, PSYC 151) prior to entrance into the program and in progression following the appropriate course requisites. For information on course requisites, please refer to the *Course Description Guide* (yellow section) in this catalog. All RC-prefix courses must be completed before or during the listed semesters, unless permission is given by the program coordinator.

Associate in Applied Science Degree (020A)

First Year

Summer Semester		Semester Credits
HRO	100 Medical Terminology*	1
BIOL	105 Human Biology*	4
Total Semester Credits		5

Fall Semester		Semester Credits
ENG	101 Rhetoric & Composition I*	3
RC	102 Cardiopulmonary Anatomy and Physiology**	3
RC	103 Applied Science**	3
RC	104 Respiratory Care Practices and Procedures I	5
RC	105 Patient Assessment	3
Total Semester Credits		17

Spring Semester		Semester Credits
RC	110 Cardiopulmonary Pathology**	3
RC	111 Respiratory Care Pharmacology**	3
RC	112 Adult Airway and Ventilators	5

RC	205 Hemodynamics & RC Specialties	3
RC	206 Clinical Practice IV	4
RC	207 Respiratory Care in Review	4.5
Total Semester Credits		14.5

Total Program Credits	71
------------------------------	-----------

*Students are encouraged to complete as many of these courses as possible before beginning the Respiratory Care coursework. BIOL 105 and HRO 100 must be completed by the end of the Summer 2024 Semester to be eligible for RC 104 in the Fall 2024 Semester. BIOL 157 & 158 can replace BIOL 105.

**Depending on space availability, these courses may be taken prior to program admission by applicants who make the alternate list. Coordinator permission is required. This allows the student the flexibility to complete as much coursework before beginning actual clinical rotations in health care facilities. Completion of RC 102, RC 103, RC 110, and RC 111 does not guarantee RC program admission. Students must still apply to the program for admission the following year. See RC program planning guides for details.

Career Opportunities

Respiratory therapists work in a variety of settings, including hospitals, clinics, skilled care facilities, physicians' offices, home health care agencies and medical product companies. Job opportunities for respiratory therapists are excellent, especially for therapists with experience working with infants.

Average Starting Salary

The Human Resources Study from the American Association for Respiratory Care indicated that mean annual salary for respiratory therapists was \$62,000, beginning salaries were \$42,078-\$47,297. According to results from the 2020 American Association for Respiratory Care (AARC) human resource survey, the typical respondent to the survey earned an hourly base (before differentials for evening and night shifts, weekends, holidays, and on-call) wage of \$33.56.

Sign Language Studies: Interpreter

swic.edu/sls

Coordinator/Faculty: Susen McBeth, ext. 5799

Email: Susen.Mcbeth@swic.edu

Dean: Kristen Ruppert, Ed.D., ext. 5013

Email: Kristen.Ruppert@swic.edu

The SWIC Sign Language Studies Program prepares students to work as interpreters for the Deaf or hard of hearing community. While the foundation of the curriculum is a commitment to American Sign Language, interpreters must be able to adjust to a broad range of consumer preferences to communicate effectively. They must understand the cultures in which they work and apply that knowledge to promote effective cross-cultural communications. Graduates will recognize and adapt to the variation in language usage that exists within the deaf and non-deaf community to clearly relay concepts and ideas between the two languages. Successful interpreters are flexible, outgoing and feel comfortable in front of a group. They also relate effectively to the public and have a command of the English language. For further information regarding the field of Sign Language Interpreting, refer to the Registry of Interpreters for the Deaf website at www.rid.org.

Upon successful completion of the SLS degree program, graduates are awarded an Associate in Applied Science degree in Sign Language Studies/Interpreter and are prepared for entry-level, paraprofessional interpreting positions. The National Association of the Deaf and the Registry of Interpreters for the Deaf jointly offer national examinations at various sites in the state and country for general sign language interpreters. In order to take the national examination, a bachelor's degree or 120 credit hours is required. For those preferring to take the state examination and/or Education Interpreter Performance Assessment, the AAS degree is sufficient. The SLS curriculum prepares graduates for this written and performance-based examination.

Additionally, the college offers another program track designed for individuals who want to be able to communicate informally with people who are deaf or hard of hearing. The SWIC Sign Language Studies/Basic Communication Certificate program is designed for those who want general information and skills in basic sign language communication. These skills may enhance their current employment, as well as provide accessibility to colleagues who are deaf or hard of hearing.

Contact the program coordinator or an academic advisor for more information about enrolling in the program.

About the Degree Program

This is a 67-semester-credit, two-year degree program, which can be completed in four semesters. The curriculum includes communication, social science, SLS interpreting technical courses and assigned field experiences/practicum. There are 15 semester credits of General Education Courses and 52 semester credits of Sign Language Studies/Interpreter courses. Courses are offered in

the day or evening. Certain courses are only offered once a year, therefore it is highly recommended that students meet with the program coordinator to develop a schedule for completing the degree requirements in the proper sequence.

Students will be required to travel outside of the college district for field experience/practicum courses. Additionally, in SLS 101, 102, 105 and 203 there are some required assignments off campus to allow students to observe and converse with deaf and hard of hearing individuals using American Sign Language. Students may be required to have a criminal background check and/or drug testing depending on the setting (educational/government institutions) when enrolled in SLS 206, SLS 230 and/or SLS 290.

Enrollment Procedures

The SWIC Sign Language Studies certificate and degree programs are open to any student who is a high school graduate, earned a high school diploma certificate, or is transferring from an accredited college or university. To enroll, students must: Complete a SWIC New Student Information Form and registration form to enroll in classes.

General Information

- A. Students who want to be interpreters must be able to perform the essential functions of the job with or without reasonable accommodations. The essential functions of the job are listed at swic.edu/sls. Students are encouraged to contact the Student Accessibility & Support Services at 618-235-2700, ext. 5368, to discuss potential issues associated with meeting these requirements.
- B. To develop proficiency in signing and interpreting time, dedication, study, and immersion in the Deaf/hard of hearing community and constant practice are required. The level of skill students attain is directly related to their participation/practice.
- C. The program is offered at the Belleville Campus for SLS courses with field experience and practicums at facilities in the Metro East and St. Louis region; required general education courses can be taken at the Belleville, Red Bud or Sam Wolf Granite City campuses.
- D. Students should check the location and schedule of classes to ensure their own availability and access. Students are responsible for their own transportation and attendance at any of the classes and field experience/practicum assigned by the program.
- E. Enrolled students must follow the requirements for graduation at the time they are admitted and must meet all course, program, degree and sequencing requirements as specified. Students who fail to meet program-specific requirements will be dropped from the program.
- F. A grade of C or better is required for all SLS courses and ENG 101.
- G. Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Important Information

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

Career Opportunities

Sign language interpreting is a rapidly expanding field. Interpreters may work for an agency or be self-employed. Schools, government agencies, hospitals, court systems and private businesses employ interpreters. Interpreters work in a variety of settings including medical, legal, religious, mental health, rehabilitation, performing arts and business. The setting in which an interpreter may work is based on the skill level attained on the national certification exam and/or state regulations regarding practice as an interpreter. For individuals who desire additional practice/preparation for the interpreter certification examination, enrollment in SLS 290 Advanced Practicum is recommended.

Average Starting Salary:

Per graduate feedback, interpreters earn between \$30 and \$60 per hour. Wages vary on the type, location and the day/evening rates of the interpreting assignment. Special interpreting assignments requiring special skills such as conference or platform interpreting or performances may negotiate a higher contract rate.

Warehousing and Distribution

swic.edu/warehousing

Dean: Dr. Travis Jumper, ext. 7457

Email: Travis.Jumper@swic.edu

Warehouse employees help load and unload freight and move it around warehouses and terminals. Often, these employees work together in groups of three or four. They may use conveyor belts, handtrucks, pallet jacks or fork lifts to move freight. They may place heavy or bulky items on wooden skids or pallets to be moved by industrial trucks.

An objective of the certified warehousing and distribution specialist curriculum is to create a pool of skilled employees from which companies can draw as they staff their warehousing and distribution centers. A second objective is to provide training for employees currently employed in warehousing and distribution to prepare them for greater responsibility and growth in their careers. Skills taught in the courses are drawn from typical job skills requirements as determined by needs analysis among leading-edge warehousing and distribution operations. The curriculum consists of five courses, a warehousing and distribution center simulation, and a final assessment of knowledge and skills.

Warehousing and Distribution Certificate (045W)*

				Semester Credits
WRH	120	Warehousing Environment		1.5
WRH	121	Warehousing Workforce Skills		1.5
WRH	122	Warehousing & Distribution Process		2.5
WRH	123	Warehousing Technology Skills		2
WRH	124	Representative Warehousing Skills		2.5
Total Semester Credits				10

*All courses are taken concurrently and offered during one semester.

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Career Opportunities

The number of wage and salary jobs in the truck transportation and warehousing industries is expected to experience steady growth which will result in many job openings because the industry is so large. There will also be openings due to replacement needs for the large number of workers who will transfer to other industries or retire. This certificate will provide skills as a warehouse employee.

Welding Technology

swic.edu/welding

Coordinator/Faculty: Robert "Bo" Lee, ext. 7423

Email: Robert.Lee@swic.edu

Dean: Dr. Travis Jumper, ext. 7457

Email: Travis.Jumper@swic.edu

The Welding Technology program prepares welders and related personnel to meet the needs of area and national industry. Emphasis is placed on the skills and knowledge needed to enter the workforce.

See the program coordinator or an academic advisor for more information.

Important Information

The following semester sequence is designed as a guide for students enrolled full time and is not intended as a required schedule. Students should take courses in progression following the appropriate requisites. For information on requisites, please refer to the *Course Description Guide* (yellow section) in this catalog.

Some courses may have requisites. Refer to the *Course Description Guide* in the yellow section of this catalog.

Career Opportunities

For approved electives, refer to the General Education Course Classifications for the Associate in Applied Science Degree.

MATH 112 or higher-level math may be substituted for GT 105

*If a 4-hour MATH course is substituted for GT 105 the General Education Elective credit requirement for this program is reduced to 3 credits.

Career Opportunities

Welders, welding inspectors and technicians continue to be in high demand both locally and nation-wide. Graduates of the welding program find employment in many economic sectors, including: manufacturing, construction, mining, chemical, oil and gas, maintenance, sales, art and education.
