

Division:	Discipline/Program/Department:	Contact Person:
Technical Education	Aviation Maintenance Technology	Harter, Matthew

The Aviation Maintenance Technology (AVMT) program at Southwestern Illinois College recognizes the key role of the Aviation Maintenance Technician in the aviation community. Our faculty is committed to providing students with the knowledge, skills and abilities required to meet Federal Aviation Administration (FAA) standards. The AVMT program continually assesses student learning and makes necessary modifications in material and technique to best prepare students to successfully fulfill the duties of an entry-level Airframe and Powerplant (A&P) Technician. The AVMT program provides for individual achievement through educational excellence and actively promotes associations with organizations in the aviation community.

I = Introduce: Student is first exposed to the concept/idea and is requested to apply the concept in a limited scope.
E = Emphasize: Student applies concept(s) in varying/multiple situations of greater complexity than when initially introduced.
R = Reinforce: Student may be expected to understand the concept upon taking the course and utilizes the concept in conjunction with other concepts/ideas to solve problems.
