Private music lessons are offered to students pursuing a major or minor in music in the following instruments: piano, voice, trumpet, French horn, trombone, tuba/euphonium, flute, clarinet, oboe, bassoon, saxophone, violin, viola, cello, double bass, guitar, bass guitar, percussion (drum set, snare drum, timpani, mallets, Latin percussion). These courses may be repeated up to a maximum of 8 hours of credit. Each successive semester of major/minor private applied music involves the mastery of progressively more difficult repertoire and the attainment of greater musical expertise. First semester students will enroll in section 001; second semester students will enroll in section 002; third semester students will enroll in section 003; fourth semester students will enroll in section 004. It is expected that students will achieve satisfactory progress in order to continue to the next course section of their instrument. Students receive a one-hour lesson per week for 15 weeks of the semester. Students will be expected to perform in a minimum of one recital per semester. Recitals are held from 3:00-3:50 on selected Wednesdays. All students perform in a final examination jury at the end of the semester. Note: Students enrolling in these Private Applied Music courses must contact the coordinator of the program, Andy Jensen, at 618-235-2700, ext. 5032, or Andrew.Jensen@swic.edu to arrange for an audition, for instructions and instructor assignment.

Students must check their SWIC email a week BEFORE classes begin to get specific instructions about retrieving a laboratory kit for the course. A student must pick up a lab kit from the SWIC Belleville campus before the semester begins, or else the student may be withdrawn from the course. At the end of the semester, the student must return the lab kit with all pieces intact, clean, and in working order, by May 10, 2027. If the lab kit is not returned, a hold will be placed on the student's account until the lab kit is returned or until a lab kit replacement fee (\$250) is paid. This SCIE 101 course is an asynchronous, online course that does not meet at a specific time or day of the week. Students should expect to spend 12 hours each week to critically review the course material in depth, complete at-home laboratory exercises, study the course content, complete homework, analyze experimental data, and seek assistance, as needed, in a timely manner. Students who are enrolled in a face-to-face SCIE course spend 5 hours in lecture and lab each week and are expected to devote an additional 7 hours engaging in the course material, too.
